'Raising Foreign Investment Cap in PSBs to Draw ₹30kcr'

Projections factor in the likely increase in the banks' weightage in global indices

Dheeraj Tiwari

New Delhi: Raising the foreign investment cap in public sector banks to 49% from the existing 20% could attract passive foreign inflows of upto Rs 30,000 crore or more, state-owned lenders have told the government.

The projections factor in the likely increase in the banks' weightage in global indices such as Morgan Stanley's MSCI India after the relaxation, helping them draw more foreign investments, people familiar with the discussions said.

Lenders have also told the government that the additional capital would support credit growth, an official said, requesting anonymity.

The government is still going through the consultation process before making a final decision on the matter, he said.

A bank executive said if the cap is lifted, State Bank of India's weightage in MSCI India would rise to 3.1% from 1.41% now. This could help the country's largest lender alone to bring around Rs 20,000 crore in foreign inflows, the person said.

Another bank executive said the government has indicated that it would like to keep its stake in PSBs at 52%.

The government stake in SBI is already at 55.45%, leaving little headroom for raising capital. "So, the only option is to allow more foreign capital through increased foreign limit," he said.

Earlier, SBI chairman CS Setty had also backed the move to increase the foreign investment limit, arguing that the existing cap is a "disadvantage."

The foreign direct investment limit in private sector banks is 74%.

In October, the government announced a high-level committee to recommend structural, institutional, regulatory and legislative reforms in the banking sector to make it globally competitive, financially inclusive and resilient, as India works towards Viksit Bharat 2047.

The panel will assess the long-term capital requirements of banks, development financial institutions and non-banking financial companies, and recommend funding sources and mechanisms to support credit growth.

Last year, a study by Nuvama Institutional Equities had projected potential MSCI-linked inflows of around $3.68 billion across six major public sector lenders – SBI, Bank of Baroda, Punjab National Bank (PNB), Canara Bank, Union Bank of India and Indian Bank – if the caps is raised.

The study had noted that since MSCI calculates weights using the portion of each company's free float available to foreign investors called the "foreign inclusion factor", raising the cap to 49% will increase that float.

PSBs posted a record net profit of Rs 1.86 lakh crore in FY26, driven by improved asset quality, healthy credit growth and higher income, marking their fourth consecutive year of profitability.

Apparel Manufacturing Shrinks 5.6% in H1 on Demand Slump, Rising Costs

Anoushka Sawhney

New Delhi: Apparel manufacturing in India contracted 5.6% year on year in the April-September period, weighed down by subdued demand, particularly in the US, and high input costs, even as textile production registered strong growth on robust demand for yarn and fabric.

Domestic textile production grew 17.4% year-on-year in September and 13.1% in the first half of FY27. In contrast, apparel production declined 5.2% in September and 5.6% in the April-September period, according to the latest Index of Industrial Production data from the statistics ministry.

Shradha Sarasgi, associate director, India Ratings and Research (Ind-Ra), noted that export market demand for apparel has declined slightly, especially in the US. She said the US imported less apparel in the first half of FY27, forcing Indian apparel makers to curtail production.

Within the broader IIP basket, textile production carries a weight of 3.27%, while apparel accounts for 1.97%. Overall, IIP grew 6.7% year-on-year in September and 8.8% in the first half of FY27.

Apparel production has declined year-on-year for nine consecutive months.

According to Shounak Chakravarty, director, Crisil Ratings, higher cotton and polyester prices have pushed up garment costs, weighing on demand in the largely domestic-market-oriented apparel segment.

"The prices of yarn and fabric have gone up and are not being accepted by the final buyer, retail chain buyer or normal consumer, due to which it is not being passed on," said an industry representative. "Consumer buying for clothes has come down due to overall inflation, and payments are not coming the way they should. No one wants a loss, so people are trying to push price increases by curtailing production."

Yarn prices rose by around 15% in the April-September period.

The textile industry's strong performance has been driven primarily by upstream segments, particularly cotton yarn, which recorded healthy double-digit export growth in the first half of FY27, said Chakravarty.

The home textile segment, which is predominantly export-oriented, has also rebounded following removal of tariff-related disruptions, lending support to fabric and textile production, he said.

Sarasgi attributed the improvement in yarn and fabric demand to higher supplies to China and Bangladesh, as well as stronger domestic demand for intermediate products.

However, improving exports, wider market access through new trade agreements and signs of a pickup in apparel orders point to a gradual recovery in the coming months.

The outlook is beginning to improve, supported by expanding export opportunities and better order flows.

Vijaykumar Agarwal, chairman of Mumbai-based textile manufacturing group Creative Group, said new free trade agreements (FTAs) were opening up opportunities to diversify export markets.

"Improving export demand, particularly from the US, benefits from the India-UK FTA and festive-season demand should support a gradual recovery in apparel production in the medium term," noted Chakravarty.

Rohit Sodaka, director at Ind-Ra, said production trends have started improving, with apparel exports gaining momentum in September. "Domestic demand continues to remain strong for wearing apparel," he said.

Experts said the contrasting production trends should be viewed as a period of adjustment rather than a deterioration in the industry's overall performance.

EPFO Inflows May Rise 25% in FY28 on Higher Wage Ceiling

Yogima Seth

New Delhi: The Employees' Provident Fund Organisation could see its total contributions rise by 25% in 2027-28 following the increase in the wage ceiling to Rs 25,000 from Rs 15,000, effective September 17.

The 240th meeting of EPFO's central board of trustees, scheduled for November 19, will consider the revised estimate for 2026-27 and the budget estimate for 2027-28. The agenda also includes a proposal to invest up to 5% of fresh accretion in alternative investment funds (AIFs), subject to the overall investment ceiling of 5%, either directly or through the Startup India Fund of Funds 2.0 scheme.

According to the agenda, revised by ET, total contributions in 2026-27 are estimated at Rs 4.12 lakh crore, against the budgeted Rs 3.30 lakh crore, an increase of 8.37%. Contributions for 2027-28 are budgeted at Rs 4.75 lakh crore, 25% higher than the BE for 2026-27.

However, these are conservative estimates as they do not account for employees earning monthly wages between Rs 15,001 and Rs 25,000 who are not currently covered by the scheme.

"Accordingly, no indicative projection of additional contribution receipts on account of the likely increase in membership consequent upon the enhancement of the wage ceiling has been factored into RE 2026-27 and BE 2027-28," it said.

"The estimates have, therefore, been projected on a conservative basis to ensure that the budgetary projections remain realistic and do not exceed the likely actual receipts," it added.

More than 1,856 AIFs are currently registered with the Securities and Exchange Board of India (Sebi). As of June 30, 2025, Rs 7.10 lakh crore had been invested in AIFs, against Rs 7.58 lakh crore raised and Rs 17.63 lakh crore committed.

"Investments may be permitted in the AIFs managed directly by the National Investment and Infrastructure Fund (NIIF), and through Startup India Fund of Funds 2.0 scheme managed by Sidbi in accordance with the applicable conditions under the Pattern of Investment," it said in its proposal.

Other proposals

EPFO will also seek the board's approval to maintain the status quo on the non-redemption of exchange-traded fund (ETF) units during the current financial year, as the criteria specified under its redemption policy have not been met.

A cement plant permit with a date puzzle

A two-year renewal for a Deonar RMC plant bears transfer date of Assistant Municipal Commissioner Alka Sasane, who is learnt to have signed it three-four days earlier, raising questions over the approval process

Swapnil R Mishra
swapnil.mishra@timesofindia.com

A two-year renewal for a ready-mix concrete (RMC) plant in Deonar has put Assistant Municipal Commissioner Alka Sasane under scrutiny, with the permit bearing the same date as her transfer from M East Ward to S Ward. Questions have now been raised over when the approval was actually processed and signed.

Sasane is learnt to have signed the letter three to four days before her transfer, although it carries March 28 as its date. The discrepancy has raised questions over when the renewal was processed, approved, signed and issued, and whether the prescribed administrative procedure was followed.

A senior BMC official, speaking on condition of anonymity, questioned the practice of retrospectively signing documents. "An officer cannot sign a backdated letter as there is no such procedure. This creates suspicion about the role of the ward officer and the intention behind signing the document with a backdated date," the official said.

The permit signed by Alka Sasane (right) allows the plant to operate sans restrictions on working hours despite its location in Deonar

The one-page document, titled 'Renewal of Factory Permit – Factory Item 10', grants Indiacrete Ready Mix Pvt Ltd permission under Sections 390 and 479 of the Mumbai Municipal Corporation Act. Prakash Damaji Kothawale is named as the permit holder.

The permit covers a temporary RMC plant at Plot No. 1, CTS No. 1, Deonar, along the Ghatkopar-Mankhurd Link Road, and is valid from April 1, 2025, to March 31, 2027. It specifies a power capacity of 241.2 horsepower and a factory area of 249.12 square metres. Notably, it places no restrictions on operating hours.

The listed charges include a renewal fee of Rs 8,092, air pollution permit charges of Rs 8,977, permanent deposit recovery of Rs 14,490, environmental deposit recovery of Rs 23,960 and a shift-work permission fee of Rs 4,046. The document carries renewal permit number 786208843, factory permit number 785035995 and reference number 713374627, dated March 28, 2025.

Congress corporator Ashraf Azmi said the circumstances surrounding the approval needed scrutiny. "It is possible that the letter was signed in good faith, or there may have been some understanding under which it was issued. The circumstances surrounding the approval need to be examined, and the official records should establish when and how the decision was taken."

Corporator Zameer Qureshi also sought transparency over the timing of the approval. "If the approval was completed before the transfer, the file notings and official records should establish that. There should be complete transparency in the process... Any discrepancy in the dates must be explained rather than left unanswered," he said.

Sasane's frequent transfers—from M East Ward to S Ward, then C Ward's Marketing Department and back to M East Ward within about a year—raise questions over which officer handled and cleared the permit at each stage.

The original proposal, file notings, approval sheets, correspondence and dispatch records could help establish the sequence of events. Mumbai Mirror sent queries to Sasane and Municipal Commissioner Ashwini Bhide seeking clarification on the timing of the approval and the circumstances surrounding the signing of the permit. Neither had responded till press time.

NOTES TO FINANCIAL RESULTS:

1. The above financial results has been prepared in accordance with Indian Accounting Standard (IND AS) prescribed under section 133 of the Companies Act, 2013 read with relevant rules thereunder and in terms of Regulation 33 of the SEBI (Listing Obligation and Disclosure Requirements) Regulation, 2015 (as amended). The above results were reviewed by the Audit Committee and approved by Board of Directors at their respective meeting held on November 06, 2026. The same has been reviewed by the Statutory Auditors of the Company.
2. The Consolidated results include results of its subsidiaries Star Cement Meghalaya Limited (SCML), Star Century Global Cement Private Limited (SCGCPL), Star Smart Building Solutions Limited (SSBSL) (formerly known as Star Cement (I) Limited (SCIL)), Star Cement North East Limited (SCNEL), Ri Pnar Cement Private Limited (RPCPL), Kopili Cement (I) Private Limited (KCPL), Jaitaran Renewable Power Private Limited (JRPPL) and Nitesh Minerals Private Limited (NMPL).
3. The Company and one of its subsidiaries have exercised the option of concessional Income Tax rate under Section 115BAA of the Income-tax Act, 1961 with effect from April 1, 2026. Accordingly, the tax expense for the current quarter and half year is not comparable with that of the previous periods. Further, pursuant to the amendments introduced by the Finance Act, 2026 permitting the utilisation of previously accumulated Minimum Alternate Tax (MAT) credit under the concessional tax regime, the Company has carried forward the unutilised MAT credit balance based on its assessment of future taxable profits and the availability of such credit for set-off.
4. During the quarter ended June 30, 2026, the Group had acquired 100% equity shareholding in Nitesh Minerals Private Limited (NMPL) and Jaitaran Renewable Power Private Limited (JRPPL) with effect from April 1, 2026 and April 23, 2026 respectively. Consequently, these consolidated financial results includes the financial performance of the aforesaid subsidiaries from their respective acquisition dates and have been prepared in accordance with the requirements of Ind AS 103 - Business Combinations and Ind AS 110 - Consolidated Financial Statements.
5. The Government of India notified the Code on Wages, 2019, the Industrial Relations Code, 2020, the Code on Social Security, 2020 and the Occupational Safety, Health and Working Conditions Code, 2020 with effect from November 21, 2025, thereby consolidating 29 existing labour laws. Pursuant to the implementation of these Labour Codes, the Group had recognised a provision of ₹1,131.97 lakhs during the year ended March 31, 2026, which had been disclosed as an exceptional item in the financial results.
6. The Board of Directors has declared an interim dividend @ ₹1/- per equity share (100%) of face value of ₹1/- per share at their meeting held on November 06, 2026.
7. The Group is primarily engaged in the manufacturing and sale of cement and cement related products. There are no separate reportable segments as per Ind AS 108, "Operating Segments".
8. The above is an extract of the detailed format of quarterly financial results filed with the Stock Exchanges under Regulation 33 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015. The full format of the quarterly financial results for the Quarter and Half year ended September 30, 2026 is available on the websites of the Stock Exchanges, www.nseindia.com, www.bseindia.com, and on the Company's website, www.starcement.co.in. PRESS RELEASE
ADVISORY DURING DEEPAWALI FESTIVITIES

In view of the upcoming Deepawali festivities, the general public is hereby advised to strictly adhere to the following guidelines in and around Shillong City to ensure public safety, environmental protection and peaceful celebrations:

1. In compliance to the orders of the Hon'ble Supreme Court of India, bursting of firecrackers shall be permitted only between **6:00 AM to 7:00 AM and 8:00 PM to 10:00 PM on the 06th, 07th and 08th November 2026.**
2. Children should be kept away from the place of bursting of firecrackers.
3. Sky crackers should be away from tall buildings and trees.
4. Bursting of firecrackers in the vicinity of schools, hospitals, dispensaries, old-age homes and children's homes is strictly prohibited.
5. The public is requested to ensure proper management, segregation, collection and disposal of waste in accordance with the Solid Waste Management Rules, Plastic Waste Management Rules and other applicable environmental protection laws and regulations.
6. While lighting traditional lamps (diyas) and firecrackers, the public is advised to wash their hands with soap and water instead of using alcohol-based hand sanitisers, which are highly inflammable.
7. The public is advised to purchase and use only **Green Crackers certified by CSIR-NEERI**, in the interest of reducing air and noise pollution and protecting the environment.

This is issued in public interest.
