**Company Secretary & Compliance Officer**

## Star Health Insurance Now Offers Largest Home Health Care Network in India

- Star Health Insurance expands to 100 locations pan-India
- Customers can receive high quality medical care at their doorstep within 3 hours
- Improves accessibility, availability and affordability of healthcare
- Highest service adoption rates seen in Mumbai, Delhi and Pune

**India, 25 February 2025:** Star Health and Allied Insurance Company Limited (Star Health Insurance), India's largest retail health insurance company, becomes the country's largest Home Health Care (HHC) provider by expanding its HHC initiative to 100 locations across India. The program, launched in July 2023, now serves over 85% of Star Health Insurance's customer base, offering cashless doorstep medical care within 3 hours with no out-of-pocket expenses. Improves accessibility, availability and affordability of healthcare in Bharat.

**Anand Roy, MD & CEO, Star Health Insurance,** said, "At Star Health, we believe that health insurance goes beyond providing financial coverage. It is a bridge to accessible and affordable healthcare for every individual. Our vision is to remove barriers such as high hospitalization costs, logistical challenges and the stress associated with seeking care. By bringing quality medical care closer to customers we aim to ensure their comfort and peace of mind. This initiative is tangible proof of our focus on transforming health insurance delivery by ensuring that it is accessible, affordable, and designed around the evolving needs of our customers."

The HHC program provides timely medical care to patients recovering from infectious diseases. Under the program, a partner doctor visits the patient's home to assess their condition, conduct a diagnosis, and provide necessary treatment if hospitalization is deemed unnecessary for the symptoms, with regular in-person follow-ups. If needed, based on severity, the doctor may recommend hospitalization, though less than 1% of patients have required this escalation.

Cities like Mumbai, Delhi and Pune have been proactive in the adoption of these services, with services primarily focused on treating conditions such as viral fever, dengue, enteric fever, acute gastroenteritis, and respiratory infections. More than 15,000 patients have benefitted from Star Health Insurance's Home Health Care program via a combination of Home admissions as well as Home based Consultations.

The expansion has been facilitated through partnerships with leading healthcare providers, including Care24, Portea, Argala, Athulya and Apollo.
