Strides Arcolab receives US FDA approval for Imiquimod Cream

Product to be launched immediately

First product approval from its Italian Semi –solids facility

June 25, 2014: Strides Arcolab (BSE: 532531, NSE: STAR) today announced that it has received ANDA approval from the United States Food & Drug Administration (USFDA) for **Imiquimod Cream**.

According to IMS data, the US market for generic Imiquimod Cream is approximately USD 140 Million.

This is the first product approval from Beltapharm, the Company's USFDA approved semi solids facility in Milan, Italy.

The product will be marketed directly by Strides in the US Market.

About Imiquimod Cream

Imiquimod cream is a topical skin cream indicated for the treatment of certain types of actinic keratoses (precancerous skin lesions) on the face or scalp, and external genital and perianal warts in patients 12 years and older.
