Dear Sir/Madam,

Subject: Intimation of Public Announcement for seeking claim

Ref: Sterling Biotech Limited (BSE ID: 512299)

This is to inform you that:

1) The Liquidation Process of Sterling Biotech Limited under the Insolvency and Bankruptcy Code, 2016 was commenced with effect from 11.05.2019 (Liquidation Commencement Date), vide the Order of the Adjudicating Authority (here Hon'ble NCLT, Mumbai Bench) dated 08.05.2019. Post this, the Hon'ble NCLT has vide its communication dated 13.05.2019 appointed the undersigned as the Liquidator (the order dated 08.05.2019 and the communication dated 13.05.2019).

2) Thereafter, the said Liquidation Order dated 08.05.2019, passed by the Hon'ble NCLT, was under stay. The said Order dated 08.05.2019 has now been restored in terms of the order dated 22.02.2021 passed by the Hon'ble Supreme Court of India in the case titled Richmond Investments Private Limited v. Andhra Bank, read with Order dated 18.11.2019 passed by the Hon'ble NCLAT in the case titled as Andhra Bank v. Sterling Biotech Limited.

3) Therefore, the order dated 08.05.2019 passed by the Hon'ble NCLT has now been re- reinstated on 22.02.2021.

4) At the commencement of liquidation effective 11.05.2019, the Liquidator had issued a public as per prescribed timeliness on 17.05.2019. As per the said public announcement, the last date for submissions of claims was 10.06.2019. Even before the expiry of 10.06.2019, the Liquidation process witnessed at stay vide order of the Hon'ble NCLAT dated 30.05.2019, as mentioned above, which left this claim phenomenon at halt.

STERLING BIOTECH LIMITED

PM urges banks to lend to start-ups and MSMEs

Calls for effective participation of public sector in banking and insurance

NIKUNJ OHRI
New Delhi, 26 February

Prime Minister Narendra Modi on Friday urged banks to lend to start-ups and micro, small and medium enterprises (MSMEs), hit hardest by the Covid-19 pandemic.

“As our economy is growing, credit flow has also become equally important. You have to see how credit reaches new sectors, new entrepreneurs,” Modi said while addressing a webinar on effective implementation of Budget announcements for financial services. “Supporting MSMEs and start-ups and expanding credit flow to them is necessary.”

Amid the pandemic, the government has extended credit worth ₹2.4 trillion to 9 million MSMEs. “Now it’s the responsibility of the financial sector to understand the aspirations of rural and smaller cities and make them the strength of Aatmanirbhar Bharat.”

He said the government’s priority is to ensure that depositors and investors have trust in the financial sector by making it transparent.

“The old ways and old systems of banking and non-banking sectors are being

THE OLD WAYS AND OLD SYSTEMS OF BANKING AND NON-BANKING SECTORS ARE BEING CHANGED... TAKEN STEPS TO FREE THE COUNTRY FROM NON-TRANSPARENT CREDIT CULTURE”

NARENDRA MODI, Prime Minister

changed,” said Modi, adding the government has taken steps to free the country from non-transparent credit culture.

The banking sector was severely harmed 12 years ago due to aggressive lending practices. He said now, instead of brushing the non-performing assets (NPAs) under the carpet, it is mandatory to report even one-day NPA.

Emphasising the govern-

ment’s committed to strengthening the banking sector, he said reforms in the sector would continue.

The Union Budget, too, presented a road map for strengthening the financial sector along with expanding participation of the private sector, and strengthening public sector institutions, Modi said.

On the new Public Sector Enterprises policy, he said it

includes the financial sector, and banking and insurance sector has a lot of potential.

Private enterprises are being promoted wherever possible, but effective participation of the public sector in banking and insurance is needed, Modi said.

Pointing out the importance given to equity capital infusion, he said it is being done to strengthen public sector banks. The government has allocated ₹20,000 crore each for the current and next financial year as infusion in public sector banks.

Modi said an asset reconstruction company is being created to keep track of banks’ NPAs, and will address loans in a focussed way. “This will strengthen public sector banks,” he said.

He urged the sector to come up with innovative financial products for farmers and fishermen, among others, to free them from clutches of informal lending. Lauding the Self Help Groups, he said they have capabilities in manufacturing and services, and have good credit discipline.

Their financial discipline makes them an ideal channel for investment in the rural infrastructure which can turn out to be good financial model for the sector, he said.

► FROM PAGE 1

Airlines...

Domestic air traffic slipped to a seven-year low in 2020 because of the nationwide lockdown and reduction in capacity. In calendar year 2020, domestic airlines flew 63 million passengers, compared with 144.1 million the previous year. In January, airlines flew 7.7 million passengers, which was 39 per cent lower than January 2020.

The Leisure and visiting family and relatives (VFR) segment is leading the recovery, while corporate travel remains weak. Travel portals, however, are optimistic of a revival in traffic. Civil Aviation Minister Hardeep Singh Puri, too, expects domestic traffic to reach pre-Covid levels by the first week of April.

“Leisure and VFR segments have picked up and are now at 70-80 per cent of pre-Covid levels. However, corporate bookings are still at 15-20 per cent of pre-Covid level. There’s a further impact on bookings in business travel segment due to RT PCR restrictions and we have seen 10 per cent decline in volumes in metro markets. But the dip in bookings is small and we feel business will recover soon,” said Sabina Chopra, co-founder and chief operating officer (corporate travel), Yatra.com.

“The recent announcements by state governments of test requirements have contributed to increased uncertainty and, thus, impacted demand, especially on routes where the requirements are applicable. States like Maharashtra, Delhi, and Karnataka are critical hubs of India’s aviation market. From a business recovery perspective, we expect this to be a temporary blip and expect the larger recovery trend to continue. As the vaccination drive covers larger sections of the country, we will see demand bouncing back,” said Rajiv Subramanian, vice-president, Cleartrip.com.

GDP story...

Capex induces much higher consumption spending than normal income transfers, the ministry added.

Services were dealt a heavy blow by the pandemic because they are more contact-intensive, but their gross value added has matched the previous year’s level in Q3. Manufacturing grew in Q3, but feebly. In Q4, the imputed calculation shows services catching up with manufacturing in terms of real growth.

Gross value added (GVA) in financial services and real estate improved greatly in the third quarter, clocking 6.6 per cent GVA growth in Q3. Similarly, construction raced ahead, with its GVA growing 6.2 per cent in the quarter.

Construction is one of the biggest job providers in India’s

economy, and its revival is crucial for bringing the livelihoods of those worst-affected by the pandemic back to normal.

The investment rate in the economy is likely to improve to 26.7 per cent of GDP in 2020-21, an improvement from the 24.4 per cent seen in the first advance estimate (FAE).

The rate improved from 20.6 per cent of GDP in Q1, the lockdown quarter, to 27.7 per cent in Q3. It is expected to improve to 29.5 per cent of GDP in Q4. GDP at market prices is GVA plus indirect taxes minus subsidies. Growth in GVA is seen to be picking up to 2.5 per cent in Q4, when GDP is likely to fall. “This may be an unintended consequence of the back-ended release in the government’s subsidies,” Aditi Nayar, principal economist at ICRA, said in a note.

Hospitals...

With decisions being made so close to the date, hospitals, both private and public, were nervous about how the entire exercise will be rolled out.

The revamped Co-WIN 2.0 app will be launched on Saturday and tested during the weekend before being made operational from Monday, government officials said. “We are awaiting detailed notification on how and through whom private hospitals will be able to source vaccines,” a state government official in Gujarat said.

At the Centre, however, an official pointed out that all the SOPs had been sent to the states already. Rajesh Bhushan, health secretary, along with R S Sharma, chairman, empowered group on vaccine administration (Co-WIN), had held a meeting with health secretaries and directors of national health missions earlier in the day.

Tamil Nadu health secretary J Radhakrishnan pointed out that both Covaxin and Covishield will be available in most private hospitals and individuals would be able to select the centre of their choice. The state currently has 1.2 million vaccine doses across different locations. Gujarat too has more than 1 million doses available.

Beneficiaries would be able to self-register in advance by downloading the Co-WIN 2.0 app and also through other platforms such as Aarogya Setu. The system will then show a list of government and private hospitals serving as Covid vaccination centres along with date and time of the available schedules. Users will be able to book a time and place of their choice to get the jab.

If a person is not available to register in advance, he can simply walk into the vaccination centre and get registered on site as well. Government has also asked states to use women self help groups, ASHA workers, panchayati raj repre-

sentatives, to mobilise large cohorts of target groups who are eligible for vaccination. Specific dates for the vaccination will be decided for these potential beneficiaries who will be registered as a group on the Co-WIN 2.0. Along with a photo ID, those seeking a jab in the age group 45 to 59 years would have to bring a certificate of co-morbidity signed by a registered medical practitioner.

All beneficiaries would receive a QR Code after the first dose of vaccination along with a provisional certificate and a final one after the second dose.

Pricing is a matter of concern. “We incur cost on syringes, manpower, area we utilise and its maintenance. In the current phase, the government collects the unused vaccines on a daily basis from us. If we have to store it as well, the cost would go further up. There is no clarity yet from the government,” said Kausar Shah, chief operating officer, Akash Healthcare.

Hospitals are also waiting

for clarity on how many doses will they be allotted and at what price. “We have prepared triage areas, trained 20-25 staff in each of our hospitals for the drive including nurses, data entry and billing person and a doctor to monitor any adverse events. However, we are still awaiting clear guidelines,” said Bishnu Panigrahi, group head medical strategy, Fortis Healthcare.

States have also been told to make sure that private hospitals which will be covid vaccination centres have adequate space for the vaccination process, cold chain equipment, adequate facility for management of adverse events following immunisation and their own team of vaccinators and staff. All private hospitals empanelled under the Central Government Health Scheme, Ayushman Bharat-PMJAY and similar state health insurance schemes can be Covid vaccination centres.

(With inputs from Virendra Rawat in Lucknow)

Sensex suffers its worst...

The Sensex rose as much as 13 per cent this month. Last week, it climbed to a new all-time high of 52,154. The index is now down 6 per cent from its peak, but still ended February with a 6 per cent gain. Analysts said the markets could correct further if bond yields continue to rise, as the risk-reward would no longer tilt in favour of risky assets.

However, some said that the bond market sell-off in the US on Thursday was due to technical factors and the yields had already cooled off below 1.5 per cent. “The reaction is largely psychological, as neither the Federal Reserve nor the RBI has given any indication of higher inflation or lower money supply. Both the central banks have given indications to the contrary. What’s happening is certain investors globally are raising the spectre of higher inflation and higher bond yields and using the same to

spook markets,” said Saurabh Mukherjee, Founder Marcellus Investments.

Jyotivardhan Jaipuria, founder, Valentis Advisors, said the markets were looking for a reason to correct. “The markets did very well in February and it needed an excuse to correct. We are probably headed to a phase where we get a price and time correction. And as long as the growth uptick continues and we manage to vaccinate, it will be a pretty good year for markets. Bond yields were at historic lows, and it is expected to go up anyway. Fed and other central banks are not in a hurry to raise rates. As long as it goes up slowly, its impact will be bearable. Moreover, rising yields also signify that growth is picking up, and as long as both growth and yield go up simultaneously, there is no reason to worry,” he said.

PM urges banks to lend to start-ups and MSMEs

Calls for effective participation of public sector in banking and insurance

NIKUNJ OHRI
New Delhi, 26 February

Prime Minister Narendra Modi on Friday urged banks to lend to start-ups and micro, small and medium enterprises (MSMEs), hit hardest by the Covid-19 pandemic.

“As our economy is growing, credit flow has also become equally important. You have to see how credit reaches new sectors, new entrepreneurs,” Modi said while addressing a webinar on effective implementation of Budget announcements for financial services. “Supporting MSMEs and start-ups and expanding credit flow to them is necessary.”

Amid the pandemic, the government has extended credit worth ₹2.4 trillion to 9 million MSMEs. “Now it’s the responsibility of the financial sector to understand the aspirations of rural and smaller cities and make them the strength of Aatmanirbhar Bharat.”

He said the government’s priority is to ensure that depositors and investors have trust in the financial sector by making it transparent.

“The old ways and old systems of banking and non-banking sectors are being

THE OLD WAYS AND OLD SYSTEMS OF BANKING AND NON-BANKING SECTORS ARE BEING CHANGED... TAKEN STEPS TO FREE THE COUNTRY FROM NON-TRANSPARENT CREDIT CULTURE”

NARENDRA MODI, Prime Minister

changed,” said Modi, adding the government has taken steps to free the country from non-transparent credit culture.

The banking sector was severely harmed 12 years ago due to aggressive lending practices. He said now, instead of brushing the non-performing assets (NPAs) under the carpet, it is mandatory to report even one-day NPA.

Emphasising the govern-

ment’s committed to strengthening the banking sector, he said reforms in the sector would continue.

The Union Budget, too, presented a road map for strengthening the financial sector along with expanding participation of the private sector, and strengthening public sector institutions, Modi said.

On the new Public Sector Enterprises policy, he said it

includes the financial sector, and banking and insurance sector has a lot of potential.

Private enterprises are being promoted wherever possible, but effective participation of the public sector in banking and insurance is needed, Modi said.

Pointing out the importance given to equity capital infusion, he said it is being done to strengthen public sector banks. The government has allocated ₹20,000 crore each for the current and next financial year as infusion in public sector banks.

Modi said an asset reconstruction company is being created to keep track of banks’ NPAs, and will address loans in a focussed way. “This will strengthen public sector banks,” he said.

He urged the sector to come up with innovative financial products for farmers and fishermen, among others, to free them from clutches of informal lending. Lauding the Self Help Groups, he said they have capabilities in manufacturing and services, and have good credit discipline.

Their financial discipline makes them an ideal channel for investment in the rural infrastructure which can turn out to be good financial model for the sector, he said.

► FROM PAGE 1

Airlines...

Domestic air traffic slipped to a seven-year low in 2020 because of the nationwide lockdown and reduction in capacity. In calendar year 2020, domestic airlines flew 63 million passengers, compared with 144.1 million the previous year. In January, airlines flew 7.7 million passengers, which was 39 per cent lower than January 2020.

The Leisure and visiting family and relatives (VFR) segment is leading the recovery, while corporate travel remains weak. Travel portals, however, are optimistic of a revival in traffic. Civil Aviation Minister Hardeep Singh Puri, too, expects domestic traffic to reach pre-Covid levels by the first week of April.

“Leisure and VFR segments have picked up and are now at 70-80 per cent of pre-Covid levels. However, corporate bookings are still at 15-20 per cent of pre-Covid level. There’s a further impact on bookings in business travel segment due to RT PCR restrictions and we have seen 10 per cent decline in volumes in metro markets. But the dip in bookings is small and we feel business will recover soon,” said Sabina Chopra, co-founder and chief operating officer (corporate travel), Yatra.com.

“The recent announcements by state governments of test requirements have contributed to increased uncertainty and, thus, impacted demand, especially on routes where the requirements are applicable. States like Maharashtra, Delhi, and Karnataka are critical hubs of India’s aviation market. From a business recovery perspective, we expect this to be a temporary blip and expect the larger recovery trend to continue. As the vaccination drive covers larger sections of the country, we will see demand bouncing back,” said Rajiv Subramanian, vice-president, Cleartrip.com.

GDP story...

Capex induces much higher consumption spending than normal income transfers, the ministry added.

Services were dealt a heavy blow by the pandemic because they are more contact-intensive, but their gross value added has matched the previous year’s level in Q3. Manufacturing grew in Q3, but feebly. In Q4, the imputed calculation shows services catching up with manufacturing in terms of real growth.

Gross value added (GVA) in financial services and real estate improved greatly in the third quarter, clocking 6.6 per cent GVA growth in Q3. Similarly, construction raced ahead, with its GVA growing 6.2 per cent in the quarter.

Construction is one of the biggest job providers in India’s

economy, and its revival is crucial for bringing the livelihoods of those worst-affected by the pandemic back to normal.

The investment rate in the economy is likely to improve to 26.7 per cent of GDP in 2020-21, an improvement from the 24.4 per cent seen in the first advance estimate (FAE).

The rate improved from 20.6 per cent of GDP in Q1, the lockdown quarter, to 27.7 per cent in Q3. It is expected to improve to 29.5 per cent of GDP in Q4. GDP at market prices is GVA plus indirect taxes minus subsidies. Growth in GVA is seen to be picking up to 2.5 per cent in Q4, when GDP is likely to fall. “This may be an unintended consequence of the back-ended release in the government’s subsidies,” Aditi Nayar, principal economist at ICRA, said in a note.

Hospitals...

With decisions being made so close to the date, hospitals, both private and public, were nervous about how the entire exercise will be rolled out.

The revamped Co-WIN 2.0 app will be launched on Saturday and tested during the weekend before being made operational from Monday, government officials said. “We are awaiting detailed notification on how and through whom private hospitals will be able to source vaccines,” a state government official in Gujarat said.

At the Centre, however, an official pointed out that all the SOPs had been sent to the states already. Rajesh Bhushan, health secretary, along with R S Sharma, chairman, empowered group on vaccine administration (Co-WIN), had held a meeting with health secretaries and directors of national health missions earlier in the day.

Tamil Nadu health secretary J Radhakrishnan pointed out that both Covaxin and Covishield will be available in most private hospitals and individuals would be able to select the centre of their choice. The state currently has 1.2 million vaccine doses across different locations. Gujarat too has more than 1 million doses available.

Beneficiaries would be able to self-register in advance by downloading the Co-WIN 2.0 app and also through other platforms such as Aarogya Setu. The system will then show a list of government and private hospitals serving as Covid vaccination centres along with date and time of the available schedules. Users will be able to book a time and place of their choice to get the jab.

If a person is not available to register in advance, he can simply walk into the vaccination centre and get registered on site as well. Government has also asked states to use women self help groups, ASHA workers, panchayati raj repre-

sentatives, to mobilise large cohorts of target groups who are eligible for vaccination. Specific dates for the vaccination will be decided for these potential beneficiaries who will be registered as a group on the Co-WIN 2.0. Along with a photo ID, those seeking a job in the age group 45 to 59 years would have to bring a certificate of co-morbidity signed by a registered medical practitioner.

All beneficiaries would receive a QR Code after the first dose of vaccination along with a provisional certificate and a final one after the second dose.

Pricing is a matter of concern. “We incur cost on syringes, manpower, area we utilise and its maintenance. In the current phase, the government collects the unused vaccines on a daily basis from us. If we have to store it as well, the cost would go further up. There is no clarity yet from the government,” said Kausar Shah, chief operating officer, Akash Healthcare.

Hospitals are also waiting

for clarity on how many doses will they be allotted and at what price. “We have prepared triage areas, trained 20-25 staff in each of our hospitals for the drive including nurses, data entry and billing person and a doctor to monitor any adverse events. However, we are still awaiting clear guidelines,” said Bishnu Panigrahi, group head medical strategy, Fortis Healthcare. States have also been told to make sure that private hospitals which will be covid vaccination centres have adequate space for the vaccination process, cold chain equipment, adequate facility for management of adverse events following immunisation and their own team of vaccinators and staff. All private hospitals empanelled under the Central Government Health Scheme, Ayushman Bharat-PMJAY and similar state health insurance schemes can be Covid vaccination centres.

Sensex suffers its worst...

The Sensex rose as much as 13 per cent this month. Last week, it climbed to a new all-time high of 52,154. The index is now down 6 per cent from its peak, but still ended February with a 6 per cent gain. Analysts said the markets could correct further if bond yields continue to rise, as the risk-reward would no longer tilt in favour of risky assets.

However, some said that the bond market sell-off in the US on Thursday was due to technical factors and the yields had already cooled off below 1.5 per cent. “The reaction is largely psychological, as neither the Federal Reserve nor the RBI has given any indication of higher inflation or lower money supply. Both the central banks have given indications to the contrary. What’s happening is certain investors globally are raising the spectre of higher inflation and higher bond yields and using the same to

spook markets,” said Saurabh Mukherjee, Founder Marcellus Investments.

Jyotivardhan Jaipuria, founder, Valentis Advisors, said the markets were looking for a reason to correct. “The markets did very well in February and it needed an excuse to correct. We are probably headed to a phase where we get a price and time correction. And as long as the growth uptick continues and we manage to vaccinate, it will be a pretty good year for markets. Bond yields were at historic lows, and it is expected to go up anyway. Fed and other central banks are not in a hurry to raise rates. As long as it goes up slowly, its impact will be bearable. Moreover, rising yields also signify that growth is picking up, and as long as both growth and yield go up simultaneously, there is no reason to worry,” he said.

PM urges banks to lend to start-ups and MSMEs

Calls for effective participation of public sector in banking and insurance

NIKUNJ OHRI
New Delhi, 26 February

Prime Minister Narendra Modi on Friday urged banks to lend to start-ups and micro, small and medium enterprises (MSMEs), hit hardest by the Covid-19 pandemic.

“As our economy is growing, credit flow has also become equally important. You have to see how credit reaches new sectors, new entrepreneurs,” Modi said while addressing a webinar on effective implementation of Budget announcements for financial services. “Supporting MSMEs and start-ups and expanding credit flow to them is necessary.”

Amid the pandemic, the government has extended credit worth ₹2.4 trillion to 9 million MSMEs. “Now it’s the responsibility of the financial sector to understand the aspirations of rural and smaller cities and make them the strength of Aatmanirbhar Bharat.”

He said the government’s priority is to ensure that depositors and investors have trust in the financial sector by making it transparent.

“The old ways and old systems of banking and non-banking sectors are being

THE OLD WAYS AND OLD SYSTEMS OF BANKING AND NON-BANKING SECTORS ARE BEING CHANGED... TAKEN STEPS TO FREE THE COUNTRY FROM NON-TRANSPARENT CREDIT CULTURE”

NARENDRA MODI, Prime Minister

changed,” said Modi, adding the government has taken steps to free the country from non-transparent credit culture.

The banking sector was severely harmed 12 years ago due to aggressive lending practices. He said now, instead of brushing the non-performing assets (NPAs) under the carpet, it is mandatory to report even one-day NPA.

Emphasising the govern-

ment’s committed to strengthening the banking sector, he said reforms in the sector would continue.

The Union Budget, too, presented a road map for strengthening the financial sector along with expanding participation of the private sector, and strengthening public sector institutions, Modi said.

On the new Public Sector Enterprises policy, he said it

includes the financial sector, and banking and insurance sector has a lot of potential.

Private enterprises are being promoted wherever possible, but effective participation of the public sector in banking and insurance is needed, Modi said.

Pointing out the importance given to equity capital infusion, he said it is being done to strengthen public sector banks. The government has allocated ₹20,000 crore each for the current and next financial year as infusion in public sector banks.

Modi said an asset reconstruction company is being created to keep track of banks’ NPAs, and will address loans in a focussed way. “This will strengthen public sector banks,” he said.

He urged the sector to come up with innovative financial products for farmers and fishermen, among others, to free them from clutches of informal lending. Lauding the Self Help Groups, he said they have capabilities in manufacturing and services, and have good credit discipline.

Their financial discipline makes them an ideal channel for investment in the rural infrastructure which can turn out to be good financial model for the sector, he said.

► FROM PAGE 1

Airlines...

Domestic air traffic slipped to a seven-year low in 2020 because of the nationwide lockdown and reduction in capacity. In calendar year 2020, domestic airlines flew 63 million passengers, compared with 144.1 million the previous year. In January, airlines flew 7.7 million passengers, which was 39 per cent lower than January 2020.

The Leisure and visiting family and relatives (VFR) segment is leading the recovery, while corporate travel remains weak. Travel portals, however, are optimistic of a revival in traffic. Civil Aviation Minister Hardeep Singh Puri, too, expects domestic traffic to reach pre-Covid levels by the first week of April.

“Leisure and VFR segments have picked up and are now at 70-80 per cent of pre-Covid levels. However, corporate bookings are still at 15-20 per cent of pre-Covid level. There’s a further impact on bookings in business travel segment due to RT PCR restrictions and we have seen 10 per cent decline in volumes in metro markets. But the dip in bookings is small and we feel business will recover soon,” said Sabina Chopra, co-founder and chief operating officer (corporate travel), Yatra.com.

“The recent announcements by state governments of test requirements have contributed to increased uncertainty and, thus, impacted demand, especially on routes where the requirements are applicable. States like Maharashtra, Delhi, and Karnataka are critical hubs of India’s aviation market. From a business recovery perspective, we expect this to be a temporary blip and expect the larger recovery trend to continue. As the vaccination drive covers larger sections of the country, we will see demand bouncing back,” said Rajiv Subramanian, vice-president, Cleartrip.com.

GDP story...

Capex induces much higher consumption spending than normal income transfers, the ministry added.

Services were dealt a heavy blow by the pandemic because they are more contact-intensive, but their gross value added has matched the previous year’s level in Q3. Manufacturing grew in Q3, but feebly. In Q4, the imputed calculation shows services catching up with manufacturing in terms of real growth.

Gross value added (GVA) in financial services and real estate improved greatly in the third quarter, clocking 6.6 per cent GVA growth in Q3. Similarly, construction raced ahead, with its GVA growing 6.2 per cent in the quarter.

Construction is one of the biggest job providers in India’s

economy, and its revival is crucial for bringing the livelihoods of those worst-affected by the pandemic back to normal.

The investment rate in the economy is likely to improve to 26.7 per cent of GDP in 2020-21, an improvement from the 24.4 per cent seen in the first advance estimate (FAE).

The rate improved from 20.6 per cent of GDP in Q1, the lockdown quarter, to 27.7 per cent in Q3. It is expected to improve to 29.5 per cent of GDP in Q4. GDP at market prices is GVA plus indirect taxes minus subsidies. Growth in GVA is seen to be picking up to 2.5 per cent in Q4, when GDP is likely to fall. “This may be an unintended consequence of the back-ended release in the government’s subsidies,” Aditi Nayar, principal economist at ICRA, said in a note.

Hospitals...

With decisions being made so close to the date, hospitals, both private and public, were nervous about how the entire exercise will be rolled out.

The revamped Co-WIN 2.0 app will be launched on Saturday and tested during the weekend before being made operational from Monday, government officials said. “We are awaiting detailed notification on how and through whom private hospitals will be able to source vaccines,” a state government official in Gujarat said.

At the Centre, however, an official pointed out that all the SOPs had been sent to the states already. Rajesh Bhushan, health secretary, along with R S Sharma, chairman, empowered group on vaccine administration (Co-WIN), had held a meeting with health secretaries and directors of national health missions earlier in the day.

Tamil Nadu health secretary J Radhakrishnan pointed out that both Covaxin and Covishield will be available in most private hospitals and individuals would be able to select the centre of their choice. The state currently has 1.2 million vaccine doses across different locations. Gujarat too has more than 1 million doses available.

Beneficiaries would be able to self-register in advance by downloading the Co-WIN 2.0 app and also through other platforms such as Aarogya Setu. The system will then show a list of government and private hospitals serving as Covid vaccination centres along with date and time of the available schedules. Users will be able to book a time and place of their choice to get the jab.

If a person is not available to register in advance, he can simply walk into the vaccination centre and get registered on site as well. Government has also asked states to use women self help groups, ASHA workers, panchayati raj repre-

sentatives, to mobilise large cohorts of target groups who are eligible for vaccination. Specific dates for the vaccination will be decided for these potential beneficiaries who will be registered as a group on the Co-WIN 2.0. Along with a photo ID, those seeking a job in the age group 45 to 59 years would have to bring a certificate of co-morbidity signed by a registered medical practitioner.

All beneficiaries would receive a QR Code after the first dose of vaccination along with a provisional certificate and a final one after the second dose.

Pricing is a matter of concern. “We incur cost on syringes, manpower, area we utilise and its maintenance. In the current phase, the government collects the unused vaccines on a daily basis from us. If we have to store it as well, the cost would go further up. There is no clarity yet from the government,” said Kausar Shah, chief operating officer, Akash Healthcare.

Hospitals are also waiting

for clarity on how many doses will they be allotted and at what price. “We have prepared triage areas, trained 20-25 staff in each of our hospitals for the drive including nurses, data entry and billing person and a doctor to monitor any adverse events. However, we are still awaiting clear guidelines,” said Bishnu Panigrahi, group head medical strategy, Fortis Healthcare.

States have also been told to make sure that private hospitals which will be covid vaccination centres have adequate space for the vaccination process, cold chain equipment, adequate facility for management of adverse events following immunisation and their own team of vaccinators and staff. All private hospitals empanelled under the Central Government Health Scheme, Ayushman Bharat-PMJAY and similar state health insurance schemes can be Covid vaccination centres.

(With inputs from Virendra Rawat in Lucknow)

Sensex suffers its worst...

The Sensex rose as much as 13 per cent this month. Last week, it climbed to a new all-time high of 52,154. The index is now down 6 per cent from its peak, but still ended February with a 6 per cent gain. Analysts said the markets could correct further if bond yields continue to rise, as the risk-reward would no longer tilt in favour of risky assets.

However, some said that the bond market sell-off in the US on Thursday was due to technical factors and the yields had already cooled off below 1.5 per cent. “The reaction is largely psychological, as neither the Federal Reserve nor the RBI has given any indication of higher inflation or lower money supply. Both the central banks have given indications to the contrary. What’s happening is certain investors globally are raising the spectre of higher inflation and higher bond yields and using the same to

spook markets,” said Saurabh Mukherjee, Founder Marcellus Investments.

Jyotivardhan Jaipuria, founder, Valentis Advisors, said the markets were looking for a reason to correct. “The markets did very well in February and it needed an excuse to correct. We are probably headed to a phase where we get a price and time correction. And as long as the growth uptick continues and we manage to vaccinate, it will be a pretty good year for markets. Bond yields were at historic lows, and it is expected to go up anyway. Fed and other central banks are not in a hurry to raise rates. As long as it goes up slowly, its impact will be bearable. Moreover, rising yields also signify that growth is picking up, and as long as both growth and yield go up simultaneously, there is no reason to worry,” he said.

NOTICE
Transfer of unclaimed IPO application money to Investor Education and Protection Fund (IEPF)
This Notice is published pursuant to the provisions of the Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016 notified by the Ministry of Corporate Affairs and as amended from time to time ("the Rules"). The Companies Act, 2013 and the Rules envisage for transfer of IPO application money unclaimed for seven consecutive years or more in the name of Investor Education and Protection Fund (IEPF).

Adhering to various requirements set out in the Rules, individual communication has been sent to the concerned IPO applicants under the Rules for taking appropriate action. The Company has uploaded full details of such applicants on its website. Concerned IPO applicants are requested to refer the unpaid IPO application money Tab in Investor Relations section of www.wonderla.com.

Please note that the due date for claiming IPO application money is May 6, 2021. The concerned shareholders are allowed to make an application to the Company or its RTA by May 6, 2021 with a request for claiming unclaimed IPO application money. In case no valid claim is received before the said extended date, the Company shall with a view to complying with the requirements set out in the Rules, transfer the amount to IEPF by the due date as per the procedure stipulated in the Rules. Please note that no claim shall lie against the Company in respect of unclaimed IPO application money transferred to IEPF.

In case the applicants have any queries on the subject matter, they may contact the Company's RTA at KFin Technologies Pvt.Ltd, Selenium, Tower B, Plot No. 31 & 32, Financial District, Gachibowli, Hyderabad – 500032. Tel: 040 – 67162222, Email: eiward.ris@kfintech.com, Website: www.kfintech.com
