PRESS RELEASE

STL Digital Launches Securennov™, a Next-Gen Cybersecurity Suite

– A comprehensive, future-proof cybersecurity portfolio designed to help enterprises build cyber-resilient, secure-by-design ecosystems

Bengaluru, 19/March/2026: STL Digital Limited, an IT Services and Consulting Company [a wholly-owned subsidiary of STL (NSE: STLTECH)], today announced the launch of **Securennov™**, a future-first portfolio of cybersecurity services and solutions. Securennov™ integrates intelligent, cutting-edge technologies under the direction of advanced engineering and strategic vision.

Securennov™ is powered by AI-driven analytics, high-performance solution design, technical excellence, and trusted governance that enables organisations to operate with confidence and resilience while being backed by 24×7 monitoring. It integrates security across every layer of an organisation's digital ecosystem, strengthening defences while helping reduce CapEx and ensuring seamless compliance with emerging standards.

Gain seamless visibility into your security landscape with a robust set of services that score your cyber maturity, highlight critical risks, and accelerate compliance efforts, all while enriching decision-making with advanced data intelligence.

Central to Securennov™ is STL Digital's proprietary 5S Framework - **Secure by Design, Secure Access, Secure by Default, Secure Development, and Secure Operations**. This holistic approach ensures protection across the full lifecycle of enterprise systems, from architecture to access, code to cloud, and operations to incident response.

Securennov™ offerings:

- 1. Security Consulting Services:** Strengthening security posture through maturity assessments, business-aligned policies, effective solutioning, and zero-trust guidance.
- 2. Managed Security Services:** Delivering continuous protection via CSOC, MDR, VAPT, Threat Defence, IAM, Data, Cloud and AI security.
- 3. Security Governance, Risk & Compliance Services:** Ensuring compliance and resilience with audits, privacy checks, risk management, training, and regional regulatory alignment.

Backed by deep industry expertise, global partnerships, and certified professionals, Securennov™ delivers unmatched security assurance.

Commenting on the launch, Naveen Bolalingappa, CEO, STL Digital, said:

“Security today is about intelligence and trust. With Securennov™, we are empowering enterprises to stay ahead of evolving threats by embedding security across design, development, access, and operations. Our integrated, next-gen, solution-led approach ensures organisations can strengthen their cyber posture, stay compliant, and safeguard their digital ecosystems with confidence.”

About STL Digital

STL Digital is a global IT and consulting services provider dedicated to delivering exceptional digital transformation experiences for enterprises. With strong capabilities in product engineering, cloud and cyber security, data and AI, and enterprise SaaS, STL Digital partners with organizations worldwide to accelerate innovation and operational excellence. As a wholly owned subsidiary of STL, a leading optical and digital solutions provider, STL Digital benefits from deep expertise in digital networks and modern infrastructure.

About STL - Sterlite Technologies Ltd:
