Management Perspective

Commenting on the company's performance and strategic direction, Mr. Mansur Mehta, Chairman and Managing Director, Suba Hotels Limited, said:

"Suba Hotels continues to make steady progress in strengthening its presence across the hospitality industry through a well-diversified portfolio of domestic and international brands. Our expansion journey reflects a clear long-term vision of building a scalable hospitality platform with a presence across markets, customer segments and operating models. Achieving a portfolio of 152 hotels with 7,737 keys, including a development pipeline of 45 hotels, marks an important milestone in this journey and reinforces the strength of our brand relationships and expansion strategy.

We remain focused on expanding our footprint through a balanced mix of owned, leased, franchised and managed properties, while strengthening our association with established domestic and international hospitality brands. We believe this diversified approach will enable us to tap into a wider customer base, access new markets and create multiple avenues for sustainable revenue growth.

Our focus is not simply on increasing the number of hotels, but on building a strong and diversified portfolio that can deliver long-term value. As we continue to expand our presence across domestic and international markets, we remain committed to responsible growth, stronger brand positioning and creating sustainable value for our shareholders and stakeholders."

Commenting on the company's performance and strategic direction, Mr. Mubeen Mehta, Whole-Time Director & CEO, Suba Hotels Limited, said:

"During H1 FY27, we witnessed healthy business momentum, particularly in our domestic operations, with standalone revenue growing 55.7% year-on-year and EBITDA increasing by 19.9%. However, the revised GST structure and geopolitical developments in the Middle East created certain near-term challenges, impacting margins across our domestic and international operations, including our Dubai business. Despite these headwinds, we remained focused on maintaining operating profitability through cost optimisation, operational efficiencies and disciplined execution.

Looking ahead, we are optimistic about H2 FY27, supported by seasonal demand, improving traction across our hotel brands and customer segments, and the continued contribution from our expanding portfolio. An important growth driver will be the increased availability of room inventory, with several properties that were undergoing renovation now recommissioned and operational. Additionally, a significant portion of the keys that were previously in the development pipeline have now commenced operations, enabling us to unlock their revenue-generating potential. The gradual ramp-up in occupancy and business contribution from these newly operational properties is expected to further strengthen our revenue performance in the coming quarters.

With our diversified presence across domestic and international markets, we believe we are well-positioned to capitalise on emerging opportunities and deliver an improved performance in the second half of the financial year, while maintaining our focus on profitability and operational discipline."
