Q1 FY27 Business Update

Sumax Engineering Limited Reports Revenue from Operations of ₹35.68 Crore and PAT of ₹3.50 Crore in Q1 FY27

Secunderabad, India – 07 September 2026: Sumax Engineering Limited, an automotive solutions company engaged in manufacturing and distributing automotive consumables, announced its business update for the quarter ended June 30, 2026. The Company reported a steady performance during the quarter, supported by its diversified product portfolio, established OEM relationships and pan-India distribution network.

Financial Highlights – Q1 FY27

- Revenue from Operations: **₹35.68 crore (4.46% YoY)**
- Profit After Tax (PAT): **₹3.50 crore (24.43% YoY)**

IPO Debut – A New Milestone

- Subsequent to the close of the quarter, Sumax Engineering Limited successfully made its debut on the NSE Emerge platform on September 2, 2026. The listing represents an important milestone in the Company's growth journey and marks its transition into a publicly listed organisation.
- The IPO proceeds are intended to support the Company's next phase of growth, including capital expenditure towards proposed manufacturing facilities in Rajasthan and Haryana, working capital requirements and general corporate purposes.

Key Business Highlights

- Continued engagement with automotive OEMs and aftermarket customers across India.
- Maintained focus on high-usage and repeat-demand product categories across vehicle manufacturing, refinishing, protection and maintenance applications.

- Continued leveraging manufacturing capabilities at Chennai and Manesar to support a diversified product portfolio.
- Strengthened customer relationships through customised product specifications, consistent quality and timely delivery.
- Continued development of the Company's Paint Protection Film product offering to participate in the growing vehicle surface-protection market.
- Maintained a pan-India distribution presence while continuing to serve customers across international markets.
- Focused on efficient sourcing, inventory management and resource utilisation to support operational scalability.

Outlook

The Company remains focused on expanding manufacturing capacity, deepening automotive OEM relationships, strengthening its aftermarket distribution network and introducing value-added products. Its established customer relationships, diversified portfolio and integrated operating model position it to benefit from long-term growth opportunities in the automotive sector.
