Sumax Engineering Limited Receives Approval from Tata Motors for Introduction of Paint Protection Film (PPF) Solutions Through BTST model

Secunderabad, India – 23rd September 2026: Sumax Engineering Limited is one of the leading players in automotive consumables and solutions, has received approval from **Tata Motors Passenger Vehicles Limited** for introducing its **Paint Protection Film (PPF)** through the Tata Motors BTST (Bill to Ship to) model.

The approval marks an important milestone for Sumax as the Company expands its product portfolio and strengthens its presence in the premium automotive protection segment. Through this association, Sumax's Paint Protection Film will be offered as a value-added service to Tata Motors customers, helping protect vehicle painted surfaces.

Paint Protection Film (PPF) is a high-quality, Thermoplastic Polyurethane (TPU) Film designed to safeguard vehicle paint surfaces from scratches, stone chips, UV rays, environmental contaminants and shield the factory paint from physical damage.

Key features of Sumax Paint Protection Film includes :

- **Superior Gloss & Clarity** – Enhances the vehicle's paint shine and finish
- **Self-Healing Properties** – Helps minor scratches disappear with sunlight heat
- **Durable & Long-Lasting Protection** – Helps retain the vehicle's new look for a longer duration
- **Non-yellowing** – Retains natural colour of the vehicle
- **Stain Resistance** – Protects against bird droppings, tree sap and pollution-related damages

Under the approved framework, Tata Motors dealerships will facilitate customer orders for PPF installation, while the application process will be carried out through trained and dedicated applicators as per prescribed guidelines. The product portfolio includes 5-year and 10-year Paint Protection Film options supplied through Sumax Engineering Limited.

Commenting on this development, **Mr. Sudeep Mehta, Chairman and Managing Director of Sumax Engineering Limited**, said: *"We are pleased to receive approval from Tata Motors for introducing our Paint Protection Film solutions through their BTST model. This association reflects our continued focus on bringing high-quality automotive solutions to customers and strengthening our presence across the automotive ecosystem. We believe PPF represents an emerging value-added opportunity, offering enhanced protection and long-term value to vehicle owners."*

The approval from Tata Motors further strengthens Sumax's capabilities in providing innovative automotive solutions and aligns with the Company's objective of expanding its product offerings across the automotive OEMs and after-market segment.
