₹750-CR CENTRE BEING SET UP Hero Motocorp plans ₹3,200-cr Andhra scale-up

FE BUREAU
Chennai, July 1

HERO MOTOCORP, INDIA'S largest two-wheeler manufacturer, has committed an investment of ₹3,200 crore in Andhra Pradesh, aimed at transforming Tirupati district into a global manufacturing and electric mobility hub.

The announcement was made on Wednesday during the foundation stone-laying ceremony for its second Global Parts Centre (GPC) in Tirupati, being set up at an investment of ₹750 crore.

"This investment will enhance our global supply chain, support our expansion across markets, and reaffirm our commitment to 'Made in India, for India and the World'," Pawan Munjal, executive chairman, Hero MotoCorp, said.

The upcoming Global Parts Centre will serve as the strategic hub for Hero MotoCorp's domestic and international spare parts operations. The company also said, "100% of our electric vehicle portfolio is entirely designed, engineered and manufactured at the Tirupati plant."

VIDA, Hero MotoCorp's electric mobility business unit, delivered 185% year-on-year growth in electric two-wheeler sales to 21,812 units in June, as per VAHAN data.

"With this investment, the plant's annual production capacity is expected to scale aggressively to 1.2-1.5 million units," the company said. The expansion is expected to generate around 4,000 jobs.

Hero MotoCorp operates eight manufacturing facilities including six in India and one each in Colombia and Bangladesh. Hero MotoCorp's investment comes just months after Eicher Motor —

the maker of Royal Enfield brand of motorcycles — announced ₹2,200 crore investment to set up a green-field manufacturing plant in Tirupati district, Andhra Pradesh.

Andhra Pradesh Chief Minister N Chandrababu Naidu said Hero MotoCorp's decision to establish the Global Parts Centre in Tirupati "is a strong endorsement of our state's progressive policies, world-class infrastructure, investor-friendly ecosystem, and our commitment to the Speed of Doing Business."

Shares of Hero MotoCorp closed 1% higher at ₹4,828 on the NSE on Wednesday.

JSW Infra raises ₹7,503 cr via QIP, stock rises 2.7%

RAGHAVENDRA KAMATH
Mumbai, July 1

JSW INFRASTRUCTURE RAISED ₹7,503 crore through a qualified institutional placement (QIP). Global investors such as FMR, Capital Group and BlackRock and domestic mutual funds, including HDFC Mutual Fund and SBI Mutual Fund, participated in the fundraise.

Shares of JSW Infrastructure gained 2.72% to close at ₹330.92 on the National Stock Exchange on Wednesday.

The QIP is the first-of-its-kind in India — the combination of a primary issuance and a promoter offer for sale (OFS) within a single structure. It consisted of a primary issuance of ₹6,555 crore by the company, with the balance being raised through an OFS by the promoter.

The QIP garnered 6.7 times demand, attracting bids of around ₹50,530 crore from a diversified investor base, JSW Infrastructure said

AT A GLANCE

■ The QIP garnered **6.7 times demand**, attracting bids of around **₹50,530 cr** from a diversified investor base

■ It consisted of a primary issuance of **₹6,555 cr** by the firm, with balance being raised via an OFS

■ The transaction enables the firm to raise growth capital to support its **₹39,000-cr** capital expenditure programme

on Wednesday.

The transaction enables the company to raise growth capital to support its ₹39,000-crore multi-year capital expenditure programme, facilitate compliance with minimum public shareholding requirements and broaden its institutional shareholder base.

Rinkesh Roy, joint managing director and CEO, said:

"With this capital, we are well positioned to pursue our growth trajectory, including the expansion of port capacities to 400 MTPA by FY2030..."

JM Financial, Avendus Capital, Citigroup Global Markets, HSBC Securities and Capital Markets, SBI Capital Markets and Jefferies were the book running lead managers to the QIP.

Airtel arm starts commercial ops

PRESS TRUST OF INDIA
New Delhi, July 1

AIRTEL MONEY, THE NBFC arm of Bharti Airtel, has commenced commercial operations following the grant of a licence from the Reserve Bank of India.

Airtel Money has a valid Certificate of Registration dated February 13, 2026, issued by the RBI under section 45 IA of the Reserve Bank of India Act, 1934, Bharti Airtel said in a regulatory filing on Wednesday.

Airtel Money has commenced its commercial operations as a Type II Non-Deposit

accepting Non-Banking Financial Company pursuant to its Certificate of Registration, issued by the RBI, it said.

"However, the Reserve Bank of India does not accept any responsibility or guarantee about the present position

as to the financial soundness of the company or for the correctness of any of the statements or representations made or opinions expressed by the company and for the repayment of deposits/discharge of liabilities by the company," the filing, citing the certificate, said.

Bharti Airtel in February had announced plans for its NBFC and said the subsidiary will be capitalised with ₹20,000 crore over the next few years.

Airtel will contribute 70% with the promoter group via Bharti Enterprises bringing in the balance 30%, it had said.

FROM THE FRONT PAGE At nearly 400,000 units, car sales move in the fast lane

THE COMPANY SAID production of the Sierra remained constrained because of localised supply issues despite healthy bookings. Electric vehicles continued to gain momentum, with domestic and export dispatches touching a record 14,800 units during the month, accounting for 23.4% of the company's passenger vehicle volumes.

Mahindra & Mahindra continued its strong run, reporting domestic SUV sales of 60,393 units, up 28% from a year earlier. Domestic passenger vehicle dispatches crossed the 60,000-unit milestone for the first time, rising from 58,021 units in May.

Hyundai Motor India reported domestic sales of 39,635 units, down nearly

10% year-on-year, after a fire at one of its suppliers disrupted the supply of critical components and resulted in a production loss of around 13,900 units. Managing Director and CEO Tarun Garg said the company has initiated alternate sourcing to stabilise production and restore output.

Among other manufacturers, Toyota Kirloskar Motor reported an 8% increase in domestic dispatches to 28,441 units. Executive Vice-President, sales-service-used car business, Sabari Manohar said the company's performance reflected sustained market momentum and a continue focus on customer-centricity. JSW MG Motor India posted its highest-ever monthly wholesales of 7,568 units, up 29.8% year-on-year, while Skoda Auto India recorded its best-ever first-half sales of 38,894 units. Nissan Motor India more than doubled domestic wholesales to 3,006 units, marking its fourth consecutive month of year-on-year growth.

Govt's message to WhatsApp: Pause

SOURCES SAID EVERY WhatsApp account will continue to be linked internally to a verified mobile number, with user names serving only as the public identity. Even so, officials are evaluating whether concealing phone numbers from users could affect the ease with which complaints are lodged and investigated.

The development comes amid the government's broader push to tighten oversight of digital platforms and tackle the growing incidence of online financial

fraud and cybercrime. The outcome of MeitY's consultations could determine whether WhatsApp rolls out the feature in its current form or is required to introduce additional safeguards for users in India.

Responding to the latest development, a WhatsApp spokesperson said, "We've announced the option for people to reserve their preferred username on WhatsApp. The ability to use a username is not yet live and will roll out slowly later this year. To protect against impersonation,

we've held the highest-profile names — think public figures, government entities, celebrities, verified Meta accounts — so they can only ever be claimed by their legitimate owners and lookalike derivatives of known names are

held as well". Meta said that users still require a phone number to use WhatsApp and it has built multiple layers of defence against scams into usernames. For instance, other users need to know the exact username to message, it will limit how many new people an account can contact, block repeated attempts to guess someone's username key, and have systems to detect and remove activity showing common impersonation and abuse patterns.

"When the feature becomes available and someone sends you a message for the first time via your username, we will show you if they're a new account, if they're your contact, if you have groups in common, and if they're based in a different country, so you can decide whether to respond," the spokesperson added.

AUTOMAKER FOCUSED ON EXPANDING PRODUCTION CAPACITY

Market for EVs in India at an inflection point: Tata Motors

AKBAR MERCHANT
Mumbai, June 30

THE COUNTRY'S ELECTRIC vehicle (EV) market has crossed an inflection point, with adoption moving beyond early enthusiasts into the mainstream, prompting Tata Motors to shift its focus from creating demand to expanding production capacity.

Speaking on the sidelines of the Sierra EV launch, Shailesh Chandra, managing director of Tata Motors Passenger Vehicles and Tata Passenger Electric Mobility, said India's EV journey is diverging from global trends. "As far as India is concerned, the story is completely different from what is happening across the world," he said. According to Chandra, EV penetration has risen from around 2.5% in FY25 to 4.5% in FY26 and has already reached 6.5-7% in the first quarter of FY27.

"As we exit this quarter, it will be closer to 7.5%. So you can clearly see that electrification is penetrating significantly faster than the notion people might have," he said. Monthly EV volumes have also climbed sharply, from fewer than 10,000 units in FY25 to 15,000-18,000 units in FY26, and are now averaging 27,000-

Shailesh Chandra, managing director of Tata Motors Passenger Vehicles and Tata Passenger Electric Mobility, at the launch of Sierra EV on Tuesday. The model was launched with introductory prices starting at ₹18.79 lakh

28,000 units, according to Chandra. He attributed the growth to newer and better products offering consumers a wider choice, along with the removal of barriers such as high upfront prices, limited driving range and concerns over battery ownership. "The industry has transitioned from early adopters to mainstream customers. Today, we are clearly seeing the vast majority of customers coming forward to buy EVs," he said. He added that the industry's biggest challenge has now

shifted to meeting demand. "Supply has increased, but the inherent potential is even higher," Chandra said, noting that demand has broadened beyond premium EVs to entry-level models, compact SUVs and larger electric SUVs, aided by improved affordability, longer driving ranges and lifetime battery warranties. The trend is reflected in Tata Motors' own portfolio. While industry-wide EV penetration is around 7%, electric vehicles now account for nearly one-fifth of the company's pas-

senger vehicle sales. "Our penetration would be closer to 20%. From a revenue perspective, it is closer to 25%," he said, reiterating Tata Motors' target of achieving more than 40% EV penetration by FY31. Meanwhile, Tata Motors on Tuesday launched the Sierra EV at an introductory price of ₹18.79 lakh. Offered with 63kWh and 75kWh battery packs, the SUV delivers a claimed range of up to 665 km, supports 120kW DC fast charging, offers all-wheel drive on select variants.

CCI clears ₹16,660-cr RCB buyout

PRESS TRUST OF INDIA
New Delhi, June 30

FAIR TRADE REGULATOR Competition Commission of India (CCI) on Tuesday cleared the acquisition of IPL franchise Royal Challengers Bangalore by a consortium of Aditya Birla Group, The Times of India Group, Bolt Ventures and Blackstone in a ₹16,660 crore all-cash deal.

In March this year, United Spirits (USL) announced the sale of IPL franchise Royal Challengers Bangalore (RCB) in a ₹16,660 crore all-cash deal to the consortium.

The CCI said it has approved the proposed deal.

"CCI approves acquisition of 100% shareholding of Royal Challengers Sports by a consortium comprising Big Banyan, Bolt IPL, Times Internet, Times Cricket, ICQ Opportunities, Asia Investment Topco II and others," the regulator said in a post on X. Deals beyond a certain threshold require approval from the regulator, which keeps a tab on unfair business practices as well as promotes fair competition in the marketplace.

June E2W registrations surge 64% to 181,000

NARAYANAN V
Chennai, June 30

BUMPER SALES

INDIA'S ELECTRIC TWO-wheeler (E2W) industry registered more than 6,000 vehicles a day in June, helping the segment post its second-highest monthly sales on record as rising fuel prices, lower running costs and wider product availability accelerated EV adoption.

E2W registrations rose 64% year-on-year to 181,168 units in June, according to Vahan data.

Average daily registrations stood at over 6,000 units, compared with around 3,600 in June last year.

June was the industry's second-best month on record after the all-time high of 192,508 registrations in March 2026, when year-end buying and advance purchases ahead of expected price hikes due to higher raw material costs during the peak of the West Asia conflict boosted demand.

Monthly registration data, based on RTI records, typically comes with a lag, while actual retail sales may be higher.

"The growth is being driven by favourable running-cost economics, improving product availability and stronger participation by established OEMs, which have expanded their distribution and service reach," said Poonam Upadhyay, director, Crisil Ratings.

Petrol prices have risen by about ₹7 a litre since the West Asia conflict began on February 28, prompting more consumers to consider electric vehicles.

E2W registrations have steadily climbed from

139,000 units in April to 173,000 units in May before reaching 181,000 units in June. "While higher fuel prices may have accelerated purchase decisions, the sustained gain in registration share indicates that E2Ws are steadily becoming a mainstream choice for buyers," Upadhyay said.

She added that the increase in E2Ws' share of new two-wheeler registrations to 10.5% in June 2026 from 7.3% a year earlier suggests the trend extends beyond fuel-price sensitivity alone.

Most Dell servers now made in India

DRIVEN BY A growing emphasis on data sovereignty and the rapid adoption of artificial intelligence, US tech major Dell Technologies is significantly expanding its domestic manufacturing footprint in India, with a majority of its servers now being produced locally, a senior company executive said on Tuesday.

Venkat Sitaram, Senior Director and Country Head, Infrastructure Solutions Group, India, Dell Technologies, said that while the locally manufactured products primarily serve the Indian mar-

ket, the company will be open to exporting when the need arises. "A large part of our portfolio, spanning across the client solutions group and infrastructure solutions group ... a majority of those servers are made in India. Locally, we participated in PLI 1.0; now in 2.0, we are a major player. We have that roadmap for continuing to serve our customers here with Make in India

requirements," Sitaram told PTI. The push for local infrastructure is being heavily influenced by Indian enterprises re-evaluating their cloud strategies. He noted a distinct shift towards hybrid architectures, where companies are choosing to keep sensitive and critical workloads on-premises rather than relying entirely on public clouds.

The demand for robust local infrastructure is further accelerated by the integration of AI into core business strategies, led by sectors such as banking, financial services and insurance (BFSI), telecommunications, healthcare, and government.

Addressing concerns about advanced AI systems replacing traditional IT and back-office jobs, Sitaram maintained a positive outlook for the tech job market. "It's not replacing; it's in fact creating more and more... It's having a multiplier effect," he said. —PTI

Uber drivers can now record in-cab video

ASHUTOSH MISHRA
New Delhi, June 30

CAB-AGGREGATOR UBER is now going to provide an option to drivers to record encrypted in-cab video during trips within the Uber app on their phones.

The update, aimed at enhancing driver's safety, will allow them to record and store video on their phones locally if they feel unsafe during a trip, said the company.

"The recording remains compliant with applicable laws, encrypted, meaning neither the driver nor Uber can access them and is only accessible if the driver chooses to submit it as part of a safety report, ensuring strong privacy

protections," the company said in a release.

Addressing questions over rider privacy, Soraaj Nair, head of safety operations at Uber India and South Asia, said that the recordings are just a privacy feature and it won't be accessible to either the company or the driver, unless it is reported as a proof of any inci-

dent. "If the driver faces a safety issue, they will be able to attach the recording while reporting the incident. And when the driver explicitly does that, that's when we get access to this recording, and can look at it, but unless they explicitly report it as a safety issue, we will not have access to the recording," Nair said.

"The recording gets automatically deleted in a seven day period, so if a report is not made, it gets deleted forever," he added.

For people taking an Uber, there will be an intimation that the ride could be recorded, and they will have an option to decide whether to continue with the ride, Nair explained.

The company has also partnered with medical logistics provider Dial 4242 to integrate ambulance assistance directly within its platform.

The feature will allow riders and drivers to quickly request medical support following an accident during a trip on the platform. It will be available through Uber's existing 24x7 Safety Line.

Introducing another safety measure, Uber said that it will restrict manual typing functionalities while the vehicle is in motion, urging drivers to pull over safely before responding to messages.

Additionally, the company will now also give riders the option to make their own ride PINs.
