Investor Release

Total Income in Q1FY27 stands at ₹ 1780 million, Grew by 121% YoY

Noida, 14th August 2026: Solarworld Energy Solutions Limited, a leading provider of solar EPC and clean energy solutions, driving India's energy transition through advanced solar and storage solutions has announced its unaudited financial results for the quarter and year ended June 30th, 2026.

Financial Highlights – Q1FY27

Total Income	EBITDA	Profit After Tax
₹ 1780.3 Mn	₹ 206.6 Mn	₹ 95.0 Mn
121% YoY	-2% YoY	-26% YoY

Key Financial Performance

Particulars (₹ Mn)	Q1 FY27	Q1 FY26	YoY	FY26
Total Income	1780.3	805.5	121%	14160.7
EBITDA	206.6	211.4	-2%	1879.3
EBITDA Margin	**11.6%**	**26.2%**		**13.3%**
EBIT	187.6	209.7	-11%	1826.9
PAT	95.0	129.1	-26%	1204.7
PAT Margin	**5.3%**	**16.0%**		**8.5%**
Basic EPS	**1.10**	**1.74**		**14.95**

Key Highlights:

✓ Total Income stood at ₹ **1780.3 million** in Q1FY27, up by **121%** from ₹ **805.5 million** in Q1FY26, driven by robust performance in the EPC segment.

✓ Profit After Tax (PAT) reached **₹95.0 million** in **Q1FY27** over **₹129.1 million** reported in Q1FY26

Key Business Updates:

- The Company's **1.552GW** module manufacturing facility is spread across 7.5-acres in Roorkee, Uttarakhand is equipped with fully automated ATW and Horad lines, commissioned in July 2025, for manufacturing high-efficiency TOPCon solar panels ranging from 610 W to 750 W.

- The Company's **3.4 GW fully automated BESS facility**, equipped with KUKA robotics, is ready and company will launch product in the market shortly.

- The **5 GW junction box line** has been developed through a joint venture, and production has commenced.

- The Company is developing a **1.2 GW** solar cell facility, with commercial operations targeted by June 2027.

- The total order book value stood at **₹ 27,275 million** as of 30th June,2026.

- Execution capabilities continue to strengthen, supported by experience across more than 60 completed and pipeline projects and 348 MW DC of EPC capacity installed to date.

Commenting on the Results,

Mr. Kartik Teltia – Managing Director said, "Q1 FY27 reflected a resilient start to the financial year, underpinned by consistent execution across our solar EPC, manufacturing and energy storage businesses. Continued improvements in project mobilization, resource deployment and operating processes have positioned us to accelerate delivery in the quarters ahead.

Our established order book offers healthy revenue visibility, while our participation in several solar EPC and BESS tenders provides additional growth potential, subject to successful evaluation and award. We anticipate a gradual improvement in execution and financial performance as ongoing projects advance through key milestones.

Battery Energy Storage Systems remain central to our growth strategy, given the increasing role of storage in supporting renewable energy integration and grid reliability. We are building capabilities across BESS EPC delivery and manufacturing, while selectively pursuing projects that meet our commercial and return objectives.

Going forward, our priorities will be timely project completion, prudent bidding, stronger operational efficiency and the continued development of our energy storage platform and backward integration initiatives. With an expanding opportunity pipeline and strengthening execution readiness, we are confident of delivering improved performance over the coming quarters and creating sustainable value for all stakeholders.

About Solarworld Energy Solutions Limited:

SOLARWORLD is a leading renewable energy company with over 13 years of experience and a 1GW+ project portfolio across India. Headquartered in Noida, the company offers end-to-end Solar EPC, large-scale Solar Park Development, and customized rooftop and ground-mounted solar solutions for commercial, industrial, and utility clients. With a state-of-the-art 1.552 GW module manufacturing facility in Roorkee, Solarworld ensures world-class quality and performance in solar module production. The Company is also advancing grid-scale energy storage systems driving India's transition towards a sustainable and self-reliant clean energy future.
