MANAGEMENT COMMENTARY

Commenting on the performance, **Mr. Gaurav Gupta, Managing Director, Suntech Infra Solutions Limited**, said:

"During H1 FY27, Revenue from Operations grew 47.6% YoY to ₹99.84 crore, EBITDA stood at ₹18.09 crore and Net Profit nearly doubled to ₹6.02 crore, up 98.9% YoY. Profit grew faster than revenue, with PBT margin rising to 9.1% from 6.4% and PAT margin to 6.0% from 4.5% a year ago. We secured construction and piling foundation orders worth ₹87.7 crore during the period.

From our beginnings in equipment rental, we have grown into an integrated foundation engineering company delivering turnkey piling solutions across refineries, petrochemicals, power, renewable energy, high-rise buildings, metro and rail infrastructure. Our owned equipment fleet, now over 100

machines, together with in-house maintenance and a workforce of over 700 professionals, gives us strong control over execution.

Our priorities for FY27 are timely order execution, selective investment in higher-capacity rigs and strengthening our engineering and site-supervision teams, supported by stronger project monitoring and cost controls."

BUSINESS UPDATES AND OUTLOOK

- **Fleet Expansion:** The Company invested ₹8.05 crore in capital expenditure during H1 FY27, expanding its operating fleet from 100 to over 103 machines.
- **Diversified Project Portfolio:** The Company has executed projects across refineries, petrochemicals, renewable energy, high-rise buildings and IT parks, including projects at Mundra, Dahej and Pachpadra.
- **Stronger Operational Systems:** The Company strengthened project monitoring through activity-wise SOPs, KPI-linked reviews, weekly MIS, ERP-based fleet tracking and tighter project costing.
