Company Secretary and Compliance Officer

DRDO's Ghatak combat drone plan gathers pace

Defence Procurement Board recommends proposal to procure 60 units

BHASWAR KUMAR
New Delhi, 4 March

India's indigenous stealth flying-wing combat drone programme received a boost on Tuesday, with the Defence Procurement Board (DPB) of the Ministry of Defence (MoD) recommending that the proposal to procure 60 Ghatak unmanned combat aerial vehicles (UCAVs), currently under development by the Defence Research and Development Organisation (DRDO) for the armed forces, be taken forward, a defence source told *Business Standard*.

DRDO's autonomous flying wing technology demonstrator PHOTO: PIB

The programme now awaits approval from the Defence Acquisition Council (DAC).

Ghatak is a stealth-capable UCAV, based on a flying-wing configuration. It is designed for low radar cross-section and internal weapon carriage. Once operational, Ghatak could undertake deep-strike missions, penetrating heavily defended airspace to hit high-value targets without placing pilots at risk.

Operating autonomously or alongside manned aircraft, it could also be tasked with suppressing or destroying enemy air defences — including radar stations and missile systems — and striking strategic infrastructure with precision-guided munitions.

In November, while disclosing that the Indian Air Force (IAF) had drawn up a technology and capability road map titled "Vision 2047", Chief of the Air Staff (CAS) Air Chief Marshal AP Singh had said unmanned systems were not expected to fully replace manned fighter jets in the foreseeable future. However, he empha-

sized that the IAF was fully backing the Ghatak UCAV programme.

"There are certain areas where you don't want to risk human life, where unmanned systems are necessary — places where they can operate ahead of your manned systems. So, work is underway in that direction, and a number of research and development projects are ongoing," he had said, adding, "The UCAV programme is already on, and we are fully supporting it. We understand it has to be part of our overall force structure. The Vision 2047 document also talks about it."

On December 15, 2023, DRDO successfully conducted a flight trial of the "Autonomous Flying Wing Technology Demonstrator", described in an official release as an indigenous high-speed flying-wing UAV. The demonstrator is understood to be a precursor to the Gha-

tak UCAV. The trial, carried out in a tailless configuration at the Aeronautical Test Range in Karnataka's Chitradurga, was described in the same release as marking India's entry into an "elite club of countries to have mastered the controls for the flying-wing technology".

The UAV, designed and developed by DRDO's Aeronautical Development Establishment, also demonstrated autonomous landing without the need for ground radars, infrastructure or pilot intervention, enabling takeoff and landing from any runway with surveyed coordinates.

The UAV's maiden flight took place in July 2022.

The prototype is made of indigenously developed lightweight carbon composite material, with the structure impregnated with sensors for health monitoring.

ALL IN A DAY

Kerala gov signs Bill making Malayalam sole official language of state

Kerala Governor Rajendra Vishwanath Arlekar on Wednesday signed the Malayalam Language Bill 2025 which makes Malayalam the sole official language of administration in the state, Lok Bhavan sources said. The Bill, which was passed by the Assembly in October last year, had faced opposition from the Karnataka government, which was concerned that it would force students from the linguistic minorities living in the border region of the two states to compulsorily learn Malayalam. Kerala Chief Minister Pinarayi Vijayan had tried to allay the concerns by pointing out that the Bill contains a clear and unambiguous non-obstante clause to safeguard the rights of linguistic minorities. The Kerala CM said that students whose mother tongue is not Malayalam are free to choose languages available in schools in accordance with the National Education Curriculum. PTI

EAM: India backs 'Myanmar-led' peace process

India supports a Myanmar-led and Myanmar-owned peace process that can deliver lasting peace and development for all in the Southeast Asian country, External Affairs Minister S Jaishankar said on Wednesday. The external affairs minister also highlighted the importance India attaches to its ties with Myanmar saying the country lies at the confluence of New Delhi's three key foreign policy priorities: "Neighbourhood First", "Act East", and Mutual and Holistic Advancement for Security and Growth Across Regions. Myanmar has been witnessing widespread violent protests after the military seized power in a coup on February 1, 2021. PTI

Congress extends support to Sharad Pawar for RS polls

The Congress on Wednesday declared its support to Nationalist Congress Party chief Sharad Pawar as the Maha Vikas Aghadi candidate for Rajya Sabha polls from Maharashtra, where the Opposition bloc is in a position to win one of the seven seats falling vacant. AICC general secretary Ramesh Chennithala said that the Congress leadership has conveyed to him about the decision to support Pawar, a sitting Rajya Sabha MP, in the March 16 polls to the Upper House of Parliament from Maharashtra. Earlier, all three MVA allies had staked claim to the lone seat the Opposition alliance can win from the state given their strength in the assembly. PTI

Expect sharp rise in green hydrogen output capacity in 2-3 years: MNRE official

NANDINI KESHARI
New Delhi, 4 March

India is set for a jump in its capacity to produce green hydrogen in two-three years with a long list of projects waiting to be commissioned. Growth will ramp up decarbonisation in hard-to-abate sectors and bring the country closer to its "net zero" target for 2070.

The government has initiated projects in steel and transport, including shipping. Many are operational or have been partially completed, said Prasad Chaphekar, director, Ministry of New and Renewable Energy, adding that in the refinery segment, tenders had been awarded for around 20,000 tonnes, with another

10-12 tenders in the pipeline. "We have issued tenders for 1 MTPA (million tonne per annum) of green hydrogen-production capacity, supported by subsidies. Several plants under construction are expected to be commissioned soon. The commissioned green hydrogen capacity currently stands at 8,000 tonnes, and over the next three years, the government expects a sharp rise in capacity, targeting at least 200,000 tonnes," he said speaking at an event in New Delhi.

Chaphekar said smaller plants, which do not require connectivity and land support and can be commissioned faster, were being left out of the current subsidy system. He added that the govern-

ment was introducing a subsidy scheme for small-scale plants, but this was yet to be approved. "We have worked on standards, regulations and enabling frameworks, including policies related to special economic zones, environmental clearances, and transmission waivers," he said, commenting on the government's efforts to increase the deployment of green hydrogen.

Recently, India recorded the country's lowest ever price of green hydrogen at ₹279 (\$3.08) per kg. It was recorded in a bid to supply 10,000 tonnes annually to the Numaligarh Refinery in Assam. Oil India, a state-run company, owns a majority stake in the refinery. In contrast, grey hydrogen

is priced below ₹200 per kg. Introducing a carbon tax or a clear carbon taxonomy framework would drive a faster adoption of green hydrogen, said Anuj Sharma, chief executive officer, Waaree Energies' hydrogen business, speaking at the same event.

"With continued research, development and efficiency improvement in electrolysis, this gap can close further. Demand mandates would scale up the industry, attract investment in research and development and accelerate cost reduction," he said.

Under the National Green Hydrogen Mission, launched in 2023 with an initial outlay of ₹19,744 crore, India is targeting a capacity to produce 5 million tonnes annually by 2030.

RBI's CMI norms to impact private banks more

The Association of NSE Members of India (ANMI) estimated ₹1.2 trillion BGs across exchanges, with the segment's non-performing asset (NPA) level remaining almost zero in the past two decades. While requesting that the norms be kept in abeyance for at least six months, the industry body said NSE Clearing Limited (NCL) currently has ₹9 trillion of total collateral, of which about ₹90,000 crore collateral is in the form of BGs.

"An estimated ₹45,000 crore of this relates to proprietary trading firms, which have already furnished around ₹22,500 crore as cash collateral. Increasing the BG collateral requirement from 50 per

cent to 100 per cent would, therefore, reduce overall collateral by only about ₹22,500 crore — roughly 2.5 per cent of total collateral," ANMI said.

While the banks' exposure to CMI will be impacted — a negative for them in the near term — the decision is seen as positive over the medium term. This is because the expected credit loss (ECL) norms, which are proposed to come into effect from April 1, 2027, mandate provision requirement for non-fund exposure like BGs. If banks cut down their exposure from non-fund facilities, they will have to set aside lesser capital once the ECL norms come into effect.

For financing to brokers for margin trading facility (MTF), the new norms said the facility shall be fully secured by collateral of cash, cash-equivalents, and government securities, out of which a minimum 50 per cent shall be cash. Commenting that the cost of capital will increase, the chief executive officer (CEO) of a broking firm said, "In margin trading, one has to figure out one's own capital and deploy more of it. On the MTF side, brokers currently using bank lines may have to move towards commercial papers (CPs). Bank funding will not completely dry up, but it may not make sense in many cases."

Citing broking firm Angel One, JM Financial said the company will need to borrow through CPs/non-convertible debentures (NCDs). JM said Angel One has been borrowing through CPs for the last few years. Now it may first move to non-banking financial companies (NBFCs) for funding and expand further into NCD offerings.

In a recent interaction with the media, RBI Governor Sanjay Malhotra had said the banking regulator is not contemplating changes to its new norms tightening bank lending for proprietary trading. The new norms of bank finance to CMI come into effect from April 1.

NOTICE NO. 8/2026

Declaration of Income Distribution cum Capital Withdrawal ("IDCW") under Mahindra Manulife Aggressive Hybrid Fund

Notice is hereby given that, in accordance with the Dividend Distribution Policy, as approved by Mahindra Manulife Trustee Private Limited, the Trustee to Mahindra Manulife Mutual Fund ("the Fund"), the Income Distribution cum Capital Withdrawal ("IDCW") has been declared under Monthly IDCW Option(s) of Mahindra Manulife Aggressive Hybrid Fund, an open ended hybrid scheme investing predominantly in equity and equity related instruments ("the Scheme"), as per the details given below:

Plan(s)/Option(s)	Quantum of IDCW # (Rs. per unit)	Record Date*	Face Value (Rs. per unit)	NAV as on March 2, 2026 (Rs. per unit)
Regular Plan - Monthly IDCW Option	0.18	March 09, 2026	10	18.9346
Direct Plan - Monthly IDCW Option	0.18		10	21.9023

* As reduced by the amount of applicable statutory levy. Distribution of the above IDCW is subject to the availability of distributable surplus and may be lower, depending on the distributable surplus available on the Record Date.

* If in any case the Record Date falls on a non-business day, the immediately following business day shall be deemed to be the Record Date.

Pursuant to payment of IDCW, the NAV of the IDCW Option(s) of the Scheme/Plan(s) would fall to the extent of payout and statutory levy, if any.

All Unit holders / Beneficial Owners under the IDCW Option(s) of the abovementioned Scheme / Plan(s) whose names appear in the records of the Registrar, Computer Age Management Services Ltd. / Statement of Beneficial Owners maintained by the Depositories, as applicable, as at the close of the business hours on the Record Date shall be eligible to receive the IDCW.

With regard to Unit holders under the IDCW Option(s) of the abovementioned Scheme/ Plan(s), who have opted for IDCW Reinvestment facility, the IDCW due will be reinvested by allotting units for the IDCW amount (on the next Business Day after the Record Date) at a price based on the prevailing ex-IDCW NAV per unit on the Record Date.
