Jubilant FoodWorks saw its net profit surge 64.4 per cent during the April-June quarter (Q1) of FY26.

The company saw its profit before interest, depreciation and tax (PBITD) go up 44.6 per cent to ₹459.2 crore. Sales of the company were up 17 per cent to ₹2,260.9 crore.

According to an investor presentation, Domino's India revenue was up by 17.7 per cent year-on-year (Y-o-Y), driven by strong order growth of 17.3 per cent across all tiers and its like-for-like (LFL) rise of 1.6 per cent. This was on account of strong delivery LFL growth of 20.1 per cent.

It also said that its mature stores average daily sales came in at ₹85,396 for Domino's India stores.

The company added that delivery channel revenue was up by 24.6 per cent and dine-in channel revenue rose 2.5 per cent, mainly driven by lunch-hour meals.

Shyam S Bharia, chairman, and Hari S Bharia, co-chairman, Jubilant FoodWorks, said in its results release, "We are pleased with the strong start to the year, marked by healthy top-line growth and disciplined profitability. This performance sets a solid foundation for what we believe will be a high-impact year. Our unwavering commitment to putting the customer first combined with sustained investments in technology, innovation, and operational excellence — continue to power our competitive edge and promote long-term value creation."

Sameer Khetarpal, chief executive officer (CEO) and managing director (MD), said in the results release that Q1 has been a stellar start, setting the tone for a dynamic year ahead.

"We've accelerated menu innovation, significantly expanded the share of our own digital assets and made decisive strides towards achieving 20-minute delivery. In parallel, we continue to scale Popeyes with the ambition of making it India's most-loved chicken brand. Our focus remains firmly on margin expansion, while maintaining strong cash flows from our Turkey business," he added.

Micro markets see strong rental, capital growth since pandemic

SANKET KOUL
New Delhi, 13 August

India's housing micro markets have delivered remarkable gains post-pandemic, with prominent cities seeing an increase in both rental and capital appreciation between the end of 2021 and mid-2025, according to a report by real estate consultancy firm Anarock.

Capital appreciation in some parts was as high as 139 per cent, with Noida Sector 150 leading the race. "While property prices have nearly doubled in some areas, in other areas rents have climbed at a pace that out-

stripped inflation by a wide margin," the report said.

"This shift has been recorded on the back of strong employment-driven demand and steady infrastructure upgrades.

Delhi NCR's Noida Sector 150 micro market led with a 139 per cent growth in capital values at ₹13,600 per square feet in the second quarter of 2025 compared to ₹5,700 per square feet at the end of 2021. Rental values for the market too grew by 71 per cent during the period.

Following it was Gurugram's Sohna Road, which saw its capital values rise by 74 per cent, along with a 50 per cent

increase in rental values.

The report said that these locations benefit from planned urban development, which provides green spaces, and large-scale amenities, attracting both investors and end-users.

Hyderabad Information Technology and Engineering Consultancy City (HITEC City) and Gachibowli saw a similar trend, seeing a strong rental as well as capital value growth.

In the Mumbai Metropolitan Region (MMR), capital values in Chembur and Mulund grew by 53 per cent and 50 per cent respectively, while rental appreciation was lower at 46 per cent and 32

per cent.

Commenting on the reason, Anuj Puri, chairman at Anarock group, said that capital values have followed a trajectory of rapid appreciation between 2021 to 2023, followed by steadier gains as new supply hit the market and buyers became more price sensitive.

"In the early recovery years, annual rental increases of 12 to 24 per cent were common in prime employment hubs. By H12025, rental growth has moderated nationally to 7 to 9 per cent, which is still ahead of consumer inflation, but a lot more sustainable," he added.

While average capital values rose

faster than rental values in NCR, MMR, and Hyderabad, the reverse trend was

observed in Pune, Kolkata, and Chennai. In Pune's Hinjewadi, rental values appreciated by 60 per cent, compared to a 40 per cent rise in capital values.

Similarly, capital appreciation in Kolkata's Eastern Metropolitan Bypass was just 25 per cent between the end of 2021 and mid-2025, lower than the 53 per cent rental value growth over the same period.

In Kolkata's satellite city Rajarhat, rental values grew by 40 per cent, outpacing capital appreciation of 37 per cent over the period.

Micro markets see strong rental, capital growth since pandemic

SANKET KOUL
New Delhi, 13 August

India's housing micro markets have delivered remarkable gains post-pandemic, with prominent cities seeing an increase in both rental and capital appreciation between the end of 2021 and mid-2025, according to a report by real estate consultancy firm Anarock.

Capital appreciation in some parts was as high as 139 per cent, with Noida Sector 150 leading the race. "While property prices have nearly doubled in some areas, in other areas rents have climbed at a pace that out-

stripped inflation by a wide margin," the report said.

"This shift has been recorded on the back of strong employment-driven demand and steady infrastructure upgrades.

Delhi NCR's Noida Sector 150 micro market led with a 139 per cent growth in capital values at ₹13,600 per square feet in the second quarter of 2025 compared to ₹5,700 per square feet at the end of 2021. Rental values for the market too grew by 71 per cent during the period.

Following it was Gurugram's Sohna Road, which saw its capital values rise by 74 per cent, along with a 50 per cent

increase in rental values.

The report said that these locations benefit from planned urban development, which provides green spaces, and large-scale amenities, attracting both investors and end-users.

Hyderabad Information Technology and Engineering Consultancy City (HITEC City) and Gachibowli saw a similar trend, seeing a strong rental as well as capital value growth.

In the Mumbai Metropolitan Region (MMR), capital values in Chembur and Mulund grew by 53 per cent and 50 per cent respectively, while rental appreciation was lower at 46 per cent and 32

per cent.

Commenting on the reason, Anuj Puri, chairman at Anarock group, said that capital values have followed a trajectory of rapid appreciation between 2021 to 2023, followed by steadier gains as new supply hit the market and buyers became more price sensitive.

faster than rental values in NCR, MMR, and Hyderabad, the reverse trend was

observed in Pune, Kolkata, and Chennai. In Pune's Hinjewadi, rental values appreciated by 60 per cent, compared to a 40 per cent rise in capital values.

Similarly, capital appreciation in Kolkata's Eastern Metropolitan Bypass was just 25 per cent between the end of 2021 and mid-2025, lower than the 53 per cent rental value growth over the same period.

In Kolkata's satellite city Rajarhat, rental values grew by 40 per cent, outpacing capital appreciation of 37 per cent over the period.

SHARLEEN D'SOUZA
Mumbai, 13 August

Jubilant FoodWorks saw its net profit surge 64.4 per cent during the April-June quarter (Q1) of FY26.

The company saw its profit before interest, depreciation and tax (PBITD) go up 44.6 per cent to ₹459.2 crore. Sales of the company were up 17 per cent to ₹2,260.9 crore.

According to an investor presentation, Domino's India revenue was up by 17.7 per cent year-on-year (Y-o-Y), driven by strong order growth of 17.3 per cent across all tiers and its like-for-like (LFL) rise of 1.6 per cent. This was on account of strong delivery LFL growth of 20.1 per cent.

It also said that its mature stores average daily sales came in at ₹85,396 for Domino's India stores.

The company added that delivery channel revenue was up by 24.6 per cent and dine-in channel revenue rose 2.5 per cent, mainly driven by lunch-hour meals.

Shyam S Bhartiya, chairman, and Hari S Bhartiya, co-chairman, Jubilant FoodWorks, said in its results release, "We are pleased with the strong start to the year, marked by healthy top-line growth and disciplined profitability. This performance sets a solid foundation for what we believe will be a high-impact year. Our unwavering commitment to putting the customer first combined with sustained investments in technology, innovation, and operational excellence — continue to power our competitive edge and promote long-term value creation."

Sameer Khetarpal, chief executive officer (CEO) and managing director (MD), said in the results release that Q1 has been a stellar start, setting the tone for a dynamic year ahead.

"We've accelerated menu innovation, significantly expanded the share of our own digital assets and made decisive strides towards achieving 20-minute delivery. In parallel, we continue to scale Popeyes with the ambition of making it India's most-loved chicken brand. Our focus remains firmly on margin expansion, while maintaining strong cash flows from our Turkey business," he added.

Micro markets see strong rental, capital growth since pandemic

SANKET KOUL
New Delhi, 13 August

India's housing micro markets have delivered remarkable gains post-pandemic, with prominent cities seeing an increase in both rental and capital appreciation between the end of 2021 and mid-2025, according to a report by real estate consultancy firm Anarock.

Capital appreciation in some parts was as high as 139 per cent, with Noida Sector 150 leading the race.

"While property prices have nearly doubled in some areas, in other areas rents have climbed at a pace that out-

stripped inflation by a wide margin," the report said.

"This shift has been recorded on the back of strong employment-driven demand and steady infrastructure upgrades.

Delhi NCR's Noida Sector 150 micro market led with a 139 per cent growth in capital values at ₹13,600 per square feet in the second quarter of 2025 compared to ₹5,700 per square feet at the end of 2021. Rental values for the market too grew by 71 per cent during the period.

Following it was Gurugram's Sohna Road, which saw its capital values rise by 74 per cent, along with a 50 per cent

increase in rental values.

The report said that these locations benefit from planned urban development, which provides green spaces, and large-scale amenities, attracting both investors and end-users.

Hyderabad Information Technology and Engineering Consultancy City (HITEC City) and Gachibowli saw a similar trend, seeing a strong rental as well as capital value growth.

In the Mumbai Metropolitan Region (MMR), capital values in Chembur and Mulund grew by 53 per cent and 50 per cent respectively, while rental appreciation was lower at 46 per cent and 32

per cent.

Commenting on the reason, Anuj Puri, chairman at Anarock group, said that capital values have followed a trajectory of rapid appreciation between 2021 to 2023, followed by steadier gains as new supply hit the market and buyers became more price sensitive.

"In the early recovery years, annual rental increases of 12 to 24 per cent were common in prime employment hubs. By H12025, rental growth has moderated nationally to 7 to 9 per cent, which is still ahead of consumer inflation, but a lot more sustainable," he added.

While average capital values rose

faster than rental values in NCR, MMR, and Hyderabad, the reverse trend was

observed in Pune, Kolkata, and Chennai.

In Pune's Hinjewadi, rental values appreciated by 60 per cent, compared to a 40 per cent rise in capital values.

Similarly, capital appreciation in Kolkata's Eastern Metropolitan Bypass was just 25 per cent between the end of 2021 and mid-2025, lower than the 53 per cent rental value growth over the same period.

In Kolkata's satellite city Rajarhat, rental values grew by 40 per cent, outpacing capital appreciation of 37 per cent over the period.
