Dear Sirs,

Sub.: REpower wins 47 MW order for wind projects in France.

Enclosed please find the copy of the press release in the subject matter.

This is for your information as also for the information of your members and the public at large.

Thanking you,

Yours faithfully,
For Suzlon Energy Limited

H.A. Kanuga

Hemal A. Kanuga,
Company Secretary.

Encl.: As above.

REpower wins 47 MW order for wind projects in France

Pune: REpower Systems SE – in which Suzlon Energy Limited is the majority shareholder with approximately 95 per cent holding – has concluded a contract with La Compagnie du Vent, GDF SUEZ Group for the delivery of a total of 23 wind turbines. The turbines are to be installed in two wind farm projects in the French Burgundy region; 15 turbines of the MM92 type are destined for the wind farm La Bretelle, eight turbines of the same series are to be erected in the project Echalot. The wind farms will generate a total output of more than 47 megawatts (MW).

With a hub height of 100 meters and a nominal output of 2.05 MW each, the first delivery for the construction will start during summer 2012 and the commissioning is planned for December 2012.

Olivier Perot, Managing Director of REpower's French subsidiary REpower S.A.S. comments: "We are very pleased that REpower turbines are employed in two projects of La Compagnie du Vent. This highlights the strong partnership built with GDF SUEZ and its subsidiaries. With both wind farms the installed capacity in the region of Bourgogne will almost double from 70 to 120 MW in the future."

Jean-François Innocenti, Director for construction of La Compagnie du Vent, GDF SUEZ Group, states: "These two wind farms represent the most important project that our company has ever built in France. At the end of 2012 La Compagnie du Vent will almost operate 300 MW of wind energy capacity, of which 80 MW are realized with REpower turbines." He also added "La Compagnie du Vent builds its first wind farms in the Bourgogne region."

With a market share of 26 per cent regarding new installations in 2010 according to MAKE Consulting, REpower S.A.S., a fully owned subsidiary of REpower Systems SE, was the second largest manufacturer of wind turbines on the French market. The company was established in 2002 and now employs around 150 people.

About REpower:

REpower Systems SE, a Suzlon Group company, is one of the leading manufacturers of onshore and offshore wind turbines. REpower develops, produces and markets wind turbines with rated outputs of 1.8 MW to 6.15 MW and rotor diameters of 82 meters to 126 meters for almost any location. The company also offers a comprehensive portfolio of service and maintenance packages. The turbines are designed at the REpower TechCenter in Osterrönfeld and manufactured at its plants in Husum (North Friesland), Trampe (Brandenburg) and Bremerhaven as well as Portugal and China.

With just under 2,500 employees worldwide the company, which has been listed since March 2002 and is headquartered in Hamburg, can make use of the experience gained from the manufacture and installation of around 3,000 wind turbines around the world. REpower is represented by distribution partners, subsidiaries in European markets such as France,

Belgium, the UK, Italy, Portugal, Sweden, Poland and Spain as well as on a global level in the USA, China, Australia and Canada.

About Suzlon Group:

The Suzlon Group is ranked as the world's fifth largest* wind turbine supplier, in terms of cumulative installed capacity, at the end of 2010. The company's global spread extends across Asia, Australia, Europe, Africa and North and South America with over 17,000 MW of wind energy capacity installed in 25 countries, operations across 32 countries, a workforce of over 13,000 and revenues of approximately US\$ 4 billion. The Group offers one of the most comprehensive product portfolios – ranging from sub-megawatt on-shore turbines at 600 Kilowatts (KW), to the world's largest commercial 6.15 MW offshore turbine – built on a vertically integrated, low-cost, manufacturing base. The Group – headquartered at Suzlon One Earth in Pune, India – comprises Suzlon Energy Limited and its subsidiaries, including REpower Systems SE in which the company holds ~95 per cent share.
