REpower and Vattenfall to install 122 MW wind farm in the Netherlands

Pune: REpower Systems SE – in which Suzlon Energy Limited is the majority shareholder with approximately 95 per cent holding – has concluded a contract with Zuidlob Wind B.V., now owned by Nuon, part of Swedish Vattenfall, for the delivery of a total of 36 wind turbines each of the 3.4M104 type aggregating 122 MW. The Turbines are to be installed in a wind farm near Zeewolde (Province Flevoland). With a total output of around 122 Megawatts (MW) the project is the largest wind farm in the Netherlands to date held by a single owner.

The turbine type 3.4M104 belongs to the latest generation of onshore wind turbines of the three-megawatt-class and is optimized for locations with strong wind conditions. The turbines have a hub height of 98 meters and a nominal output of 3.4 MW each. The installation of the wind farm is to be completed in spring 2013.

Andreas Nauen, CEO of REpower Systems SE: "After the successful installation of the alpha ventus and Ormonde offshore projects, we are very pleased to work together with Vattenfall also in the area of onshore wind. At the same time we are proud to jointly implement this flagship project – one of the country's largest wind farms."

About REpower:

REpower Systems SE, a Suzlon Group company, is one of the leading manufacturers of onshore and offshore wind turbines. REpower develops, produces and markets wind turbines with rated outputs of 1.8 MW to 6.15 MW and rotor diameters of 82 meters to 126 meters for almost any location. The company also offers a comprehensive portfolio of service and maintenance packages. The turbines are designed at the REpower TechCenter in Osterrönfeld and manufactured at its plants in Husum (North Friesland), Trampe (Brandenburg) and Bremerhaven as well as Portugal and China.

With just under 2,500 employees worldwide the company, which has been listed since March 2002 and is headquartered in Hamburg, can make use of the experience gained from the manufacture and installation of around 3,000 wind turbines around the world. REpower is represented by distribution partners, subsidiaries in European markets such as France, Belgium, the UK, Italy, Portugal, Sweden, Poland and Spain as well as on a global level in the USA, China, Australia and Canada.

About Suzlon Group:

The Suzlon Group is ranked as the world's fifth largest* wind turbine supplier, in terms of cumulative installed capacity, at the end of 2010. The company's global spread extends across Asia, Australia, Europe, Africa and North and South America with over 17,000 MW of wind energy capacity installed in 25 countries, operations across 32 countries, a workforce of over 13,000 and revenues of approximately US\$ 4 billion. The Group offers one of the most comprehensive product portfolios – ranging from sub-megawatt on-shore turbines at 600 Kilowatts (KW), to the world's largest commercial 6.15 MW offshore turbine – built on a

vertically integrated, low-cost, manufacturing base. The Group – headquartered at Suzlon One Earth in Pune, India – comprises Suzlon Energy Limited and its subsidiaries, including REpower Systems SE in which the company holds ~95 per cent share. Visit us at www.suzlon.com
