For Immediate Release

REpower signs contract for 51 MW US wind farm project

- Agreement upon option to purchase additional 85 units
- First project between REpower USA and EverPower

Pune: REpower Systems AG (WKN 617703) – in which Suzlon Energy Limited is a majority shareholder with over 90 per cent holding – has concluded a contract for the delivery of 25 wind turbines with EverPower Wind Holdings, Inc. with an option to purchase an additional 85 units. The REpower MM92 turbines, each with a rated power of 2.05 megawatts (MW) and a hub height of 80 metres, are destined for EverPower's development projects located across the US states of New York, Ohio, Pennsylvania and Washington. EverPower has planned projects totaling more than 600 MW of capacity targeted for construction over the next three years.

The 25 turbines will have a total power output of 51 megawatts. The project will be commissioned by the end of 2011. Each turbine produces up to 6.5 million kilowatt hours (kWh) of wind electricity per year. This is the first project between EverPower and the Germany-based wind turbine manufacturer's USA subsidiary. In addition to installation and commissioning of the turbines, REpower and EverPower have entered into a long term service and maintenance agreement.

Mr. Steve Dayney, Managing Director of REpower USA said, "We are happy to be working with the team at EverPower and are looking forward to a successful completion of this project."

"We are very excited to partner with REpower USA," said **Mr. Jim Spencer, President and CEO of EverPower Wind Power**. "REpower has some of the industry's highest yields and is known for quality and reliability."

REpower USA Corp., headquartered in Denver, Colorado, has now installed or sold more than 400 wind turbines with a total power of more than 800 MW in the USA. Wind farms with REpower turbines have been installed in the states of Washington, Oregon, California, Michigan, and Indiana for a diverse group of customers.

About REpower Systems AG:

REpower Systems AG, a Suzlon group company, is one of the leading manufacturers of onshore and offshore wind turbines. The international mechanical engineering company develops, produces and markets wind turbines with rated outputs of 1.8 MW to 6.15 MW and rotor diameters of 82 meters to 126 meters for almost any location. The company also offers a comprehensive portfolio of service and maintenance packages. The profitable and reliable systems are designed at the REpower TechCenter in Osterröfneld and manufactured at its plants in Husum (North Friesland), Trampe (Brandenburg) and Bremerhaven as well as Portugal and China.

With more than 2,200 employees worldwide, the company, which has been listed since March 2002 and is headquartered in Hamburg, can make use of the experience gained from the manufacture and installation of around 3,000 wind turbines around the world. REpower is represented by distribution partners, subsidiaries and participations in European markets such as France, Belgium, the UK, Italy, Portugal, Sweden, Poland and Spain as well as on a global level in the USA, Japan, China, Australia and Canada.

About EverPower

EverPower is focused on the development and management of wind energy generation assets across the United States. The business employs 41 people and is headquartered in New York, with satellite offices in Pittsburgh, Pennsylvania and Portland, Oregon. EverPower currently has one wind farm facility, located in Cambria County, Pennsylvania, which commenced commercial activity in 2009 with a 62.5 MW operating capacity. In addition to the Howard Wind Farm, the company has advanced stage projects in Ohio, Pennsylvania, New York and Washington totaling 600MW of capacity targeted for construction within the next three years.

Established in 2002, EverPower is owned by its employees and by Terra Firma Capital Partners III, a global investment firm. Over 40 percent of Terra Firma's partners invested in the EverPower fund are based in the United States.

About Suzlon Energy Limited

Suzlon is ranked as the world's third* leading wind turbine supplier in terms of market share in 2009. Suzlon has its corporate offices in Pune, India and company's global spread reflects in its projects and markets portfolio - extending across Asia, Australia, Europe and North and South America. Suzlon is a highly vertically integrated wind turbine manufacturer with manufacturing capability along the full value chain – from components to complete wind turbine systems. Please visit www.suzlon.com

NOTES:

* Suzlon and REpower, if taken together, stand as the world's third leading wind turbine supplier group in terms of market share. Market share of 9.8 per cent is derived from BTM Consult ApS World Market Update 2009 (March 2010), ranking Suzlon with 6.4 per cent of global market share and REpower with 3.4 per cent of global market share.
