Subject : REpower Systems AG – Squeeze-out of minority shareholders

Dear Sirs,

In the Fiscal Year 2008, the Company, through its subsidiary, acquired stake in REpower Systems AG, Germany ("REpower"), a German stock corporation. Thereafter, additional shares were acquired in REpower.

As of the date of this announcement, the Company's subsidiary AE-Rotor Holding B.V. ("AERH") directly and indirectly holds 95.16% of the registered share capital of REpower. Under the German Stock Corporation Act, a shareholding of 95.0% in a German stock corporation enables the majority shareholder to initiate squeeze-out proceedings in respect of minority shareholders. The Company, through AERH, provided a notice today to the management board of REpower requesting the conduct of a squeeze-out procedure.

The management board of REpower must now take certain necessary steps in relation to the squeeze-out procedure. This will result in REpower being a wholly-owned subsidiary of the Company. The squeeze-out will be subject to additional expenditure, completion of procedural steps and timing requirements as may be required by German laws and regulations.

This is for your information as also for the information of your members and the public at large.

Yours faithfully,
For Suzlon Energy Ltd.

Ashok Jangid
Vice President and Company Secretary
