Bengaluru, India, July 30, 2026

Swiggy (Swiggy Ltd, NSE: SWIGGY / BSE: 544285), India's pioneering on-demand convenience platform, reported results today for the quarter ended June 30, 2026.

"Food delivery economics continue to strengthen as we innovate across affordability and consumer propositions to broaden adoption and unlock the next 100 million users in the category. Out-of-home consumption remains a profitable, fast-growing part of our business, making meaningful progress. In quick commerce, we delivered contribution breakeven exactly as we guided a year ago- a milestone that marks a real inflection point for the business. As base-level assortment in quick commerce becomes increasingly commoditized, we believe our differentiated assortment strategy will be the engine for our next phase of growth, with further EBITDA improvement driven by scale-led efficiencies," said **Sriharsha Majety, MD & Group CEO, Swiggy.**

Key financial and operational highlights for the quarter:

Swiggy's Food Delivery business Gross Order Value (GOV) grew 17.4% YoY (+5.4% QoQ), to INR 9,490 crore. Normalised for restaurant driven cancellations (due to LPG supplies) during the initial part of Q1FY27, the like for like GOV growth would have been ~18% YoY. Food delivery MTUs grew 17.8% YoY to reach 19.2 million. Adjusted EBITDA improved by INR 100 Cr YoY to INR 292 Cr and 3.1% Adjusted EBITDA margin (+70bps YoY). Q1 also saw a seasonal impact on margins which will normalise through the year and annual hike during the quarter.

Toing (Standalone budget food delivery) expanded to 50 cities, with 2 out of 3 new users on Toing being new category users, enabling a substantial number of restaurant partners to achieve unprecedented economies of scale through high-volume demand. Out of Home (OOH) GOV grew 44.8% YoY (+22.8% QoQ) and Adjusted EBITDA margin improved to 0.9% of GOV.
