## Syrma SGS sets up one of the largest Electronics Manufacturing Facility in Pune

*The campus facility set to bolster company's global operations and complement its growth momentum*

**Pune, October 23, 2024:** Syrma SGS Technology Limited, one of the leading electronics systems design and manufacturing companies in India, today announced the opening of one of its largest state of art integrated electronics manufacturing facility in Ranjangaon near Pune. The facility was formally inaugurated by key customers and Mr. Sandeep Tandon, Executive Chairman, Syrma SGS.

The new campus is spread across 26.5 acres of land and will have a manufacturing area of 1.20 million square feet at its peak. This new campus will strengthen the company's PCB (Printed Circuit Board) assembly capabilities and will primarily serve the growing domestic demand for PCBAs, especially in the automotive and industrial sectors. The first phase of the facility commissioned today, measuring over 60,000 square feet, is expected to create approximately 1,000 direct employments.

With a clear vision, the company has positioned itself to quickly expand its capabilities and stay ahead of the curve in dynamic market trends. The new facility will complement company's existing manufacturing capacities by bringing operational efficiencies and positioning Syrma SGS as a key player in meeting the increasing demand for cutting-edge electronics manufacturing.

Speaking on this milestone inauguration, Mr. Sandeep Tandon, Chairman, Syrma SGS stated, "Syrma SGS is a pioneer in Electronic Systems Design and Manufacturing (ESDM), committed to driving industry advancements through innovative solutions. Our dedication to excellence ensures sustainable growth and sets new benchmarks in the field". Mr J S Gujral, Managing Director, Syrma SGS added "Our focus remains on strengthening our capabilities and expanding capacities to meet the evolving market demands. With the 'Make in India' initiative gaining momentum, the launch of our Pune facility positions us perfectly to capitalize on the vast business opportunities ahead."

"This new Pune campus is our first multi-facility campus with capability to serve customers in multiple sectors and at global scale" said Satendra Singh, CEO, SyrmaSGS.

Syrma SGS continue to offer an extensive range of solutions, tailored to meet the diverse Electronics Manufacturing needs of both Indian and global OEMs. These include product design, rapid prototyping, PCB assembly, box builds, and customised end-to-end solutions such as RFID tags, high-frequency magnetic components, repair, rework, and automatic tester development services, ensuring comprehensive support at every step of the product life cycle.

### About Syrma SGS Technology Limited:

*Syrma SGS is a leading Indian Electronic Systems Design and Manufacturing company. With over 45 years of expertise, Syrma SGS has been the preferred partner for customers seeking innovative and efficient solutions. The Company serves more than 270 customers across 20+ countries. It has a pan-India manufacturing footprint*
