Sub. : Petronet brings first LNG Cargo at Kochi LNG Terminal

Dear Sir,

We wish to inform that on 20th August 2013, Petronet LNG's second LNG Terminal, located at Kochi in the state of Kerala, received its first LNG Cargo.

This commissioning cargo has come from RasGas, Qatar, a reliable supplier and world leader in LNG which supplies 7.5 mmt per year of LNG to Petronet at its Dahej Terminal.

Being a commissioning cargo, the vessel would be berthed at PLL's jetty till the whole terminal including storage tanks are cooled down to cryogenic temperatures. This one-time operation is a slow and meticulous process and would take six to seven days to complete.

Commercial supplies from the terminal may start in a week's time. FACT and BPCL refineries will be among the first consumers of R-LNG from PLL's Kochi terminal.

This is for your kind information please.

Thanking You,

Yours faithfully,

(R. K. Garg)
Director (Finance)
