Existing Capex at DDPY Unit

The Company's major expansion project at its Dope Dyed Polyester Yarn (DDPY) plant at Kala Amb, Himachal Pradesh, is currently in full swing and is expected to be completed in January, 2017.

The Production capacity is as under:

Product	Present	Current expansion	Total
FDY	33 TPD	NIL	33 TPD
POY	NIL	20 TPD	20 TPD
Value Added Products *	30 TPD	15 TPD	45 TPD

(tons per day referred as TPD)

*Includes Air Textured Yarn, Draw Textured Yarn, Twisting, Heat setting and Cabling

The ongoing expansion shall have an outlay of approximately Rs.35 crs. Consequent to the completion of the ongoing expansion, there shall be a significant increase in sales of the DDPY business. The EBIDTA margins are also expected to grow significantly as the product portfolio shall have more value-added products.
