Sebi junks FII to FII trading window

Facility was extensively used to deal in HDFC Bank stock

PAVAN BURUGULA
Mumbai, 30 May

Market regulator Securities and Exchange Board of India (Sebi) has scrapped the special window for inter-se trading among foreign institutional investors (FIIs).

The move will hurt FIIs that used to avail this window to deal in stocks such as HDFC Bank, where FII investment limits are often fully utilised.

Also known as '6 lac series', the facility allowed shares to be traded in a window of 6 lakh shares. It was used extensively by the Mukesh Ambani-led Reliance Jio Infocomm for ₹181 billion.

"RCOM expects to now complete the sale of its assets within the next few weeks, having removed legal hurdles of cases by minority investors of Reliance Infratel, and Ericsson, thereby achieving an overall debt reduction of approximately ₹250 billion from the first phase of its asset monetization program," said RCom's spokesman.

NCLAT chairman Justice S J Mukhopadhyaya asked the parties to settle the matter, saying the fate of operational creditors in the corporate resolution process was not ideal, especially if Ericsson wished to recover the majority of its dues. The appellate tribunal asked RCom and Ericsson to file an affidavit by June 7, stating the two firms

would abide by the settlement.

Ericsson India, a subsidiary of the Swedish telecom equipment maker and service provider, had filed a case in the NCLT, Mumbai, last September, seeking liquidation of RCom and its subsidiaries, Reliance Infratel and Reliance Telecom, in order to recover ₹11.5 billion.

The three companies were subsequently admitted for insolvency proceedings, and the NCLT appointed a resolution professional to take over the management of each company. Ericsson argued it had in 2014 entered into a seven-year agreement with RCom and its subsidiaries for maintaining, upgrading the latter's telecommunications infrastructure, which was not honoured.

RCom and its subsidiaries

owed Ericsson around ₹16 billion for their services. Ericsson's counsel to NCLT, had increased to ₹16 billion, with delay ment despite several being issued to the co-

RCom filed its application in the NCLAT, and on Wednesday, the court admitted the three firms to the Insolvency and Bankruptcy Code. RCom's spokesman noted that through the company's board of directors has been reinstated.

The restructuring plan to reduce the company debt of ₹460 billion to ₹60 billion by the end of the plan put forward by the Ambani group on December 2017.

The NCLAT al-

No shortage of coal, rake supply at new high: Goyal

SHINE JACOB
New Delhi, 30 May

Firing a salvo at Delhi chief minister Arvind Kejriwal for his allegation that coal shortage touched "alarming levels" in the Capital, railway minister Piyush Goyal said on Wednesday that there is no shortage of coal for the power sector in India as availability touched an all-time high of 431.5 rakes a day in the April-May period.

Also, supply by Coal India Ltd (CIL) has gone up by 14 per cent during the same time.

"The coal and railways ministries are working together with all the discoms to ensure adequate coal availability throughout the country and no one needs to worry. Any speculation with nuclear power only show-

Piyush Goyal indicated that the supply of coal rakes to Delhi has shown a significant improvement in the last few days

The minister also indicated

Too many payment systems: RBI deputy governor

ADVAIT RAO PALEPU
Mumbai, 30 May

The country might be having too many products in the payments space; some of these have possibly outlived their utility, said B P Kanungo, one of the Reserve Bank of India's deputy governors.

The market and users should encourage some consolidation in this regard — exit routes for some of these payment service providers and products should be 'actively pursued', he suggested.

Another issue he raised was the low level of financial literacy across "all geographies and regions, not just

CBI books broker for manipulating NSE system

PRESS TRUST OF INDIA
New Delhi, 30 May

The Central Bureau of Investigation (CBI) has registered a first information report (FIR) against a stock broker who allegedly manipulated the National Stock Exchange's (NSE) system for two years to get first access to markets when they opened, officials said.

By manipulating the system, the accused would get access ahead of other brokers by some seconds, which was enough to make a difference in trade, they said.

Sanjay Gupta, the promoter of OPG Security, Aman Kokrady, and Ajay Shah, a data cruncher cum researcher, have been booked by the CBI along with unidentified officials of the NSE and stock market regulator SEBI, who could have connived with the trio to allow the illegal activity to continue for years, they said.

In the high-frequency algorithmic

trading in the NSE, an edge of a few seconds to a stock broker in a trade can make a huge difference, the officials said.

The probe agency carried out searches at multiple locations in Delhi, Mumbai and Bengaluru today, they said.

"It is alleged that Sanjay Gupta, the owner and promoter of OPG Security Pvt Ltd abused the server architecture of NSE in criminal conspiracy with unknown officials of NSE.

"The officials.... provided unfair access to OPG Securities Pvt Ltd using the co-location facility during the period 2010-12 that enabled to login first to the exchange server of the stock exchange that helped to get the data before any other broker in the market," the FIR said.

The co-location facility offered by the NSE, allows low latency and fast execution to trading members, officials said.
