Dear Sirs,

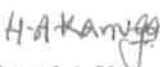

Sub.: REpower and Alerion CleanPower sign contract for 44 megawatt wind farm project in Italy.

Enclosed please find the copy of the press release in the subject matter.

This is for your information as also for the information of your members and the public at large.

Thanking you,

Yours faithfully,
For Suzlon Energy Limited

Hemal A. Kahuga,
Company Secretary.

Encl.: As above.

23 June, 2011

REpower and Alerion CleanPower sign contract for 44 megawatt wind farm project in Italy

Pune: REpower Systems SE (Prime Standard, WKN 617703) – in which Suzlon Energy Limited is the majority shareholder with approximately 95 per cent holding – and Alerion CleanPower SpA, an Italian-based renewable energy company, signed a contract for a wind project in the South of Italy. REpower will deliver 13 3.4M104 wind turbines to San Marco in Lamis, a 44 megawatt (MW) wind farm situated north-east of Foggia. The turbines will have a rated output of 3.4 megawatts (MW) and a hub height of 80 meters each. REpower is responsible for supplying, installing and commissioning the turbines. The company will also provide service in line with a 12 year service agreement with Alerion CleanPower. The Italian-based subsidiary of REpower Systems SE will start construction as early as the fall of 2011.

Andreas Nauen, CEO of REpower Systems SE, is pleased that REpower's 3.XM series is well accepted in the Italian market: "This is the second contract for the 3.4M104 in Italy. It confirms the excellent market-fit of this turbine and strengthens our market presence in this country."

Carlo Schiapparelli, Managing Director of REpower Italia S.r.l., comments: "We are delighted to be working with Alerion again. Our first project, Ortona, with 17 REpower MM92 turbines was completed in 2007. This second project confirms that Alerion – an important client for REpower Italia with a high level of renewable energy expertise – regards us as a reliable supplier."

Headquartered in the city of Milan, REpower Italia S.r.l. sells REpower multi-megawatt wind turbines in Italy and provides project management and full after-sales service. Founded in 2004, the company has installed wind turbines with a total output of more than 500 MW. In terms of annual installed capacity in 2010, REpower was ranked third among the wind turbine suppliers in Italy.

About REpower:

REpower Systems SE, a Suzlon Group company, is one of the leading manufacturers of onshore and offshore wind turbines. REpower develops, produces and markets wind turbines with rated outputs of 1.8 MW to 6.15 MW and rotor diameters of 82 meters to 126 meters for almost any location. The company also offers a comprehensive portfolio of service and maintenance packages. The turbines are designed at the REpower TechCenter in Osterrönfeld and manufactured at its plants in Husum (North Friesland), Trampe (Brandenburg) and Bremerhaven as well as Portugal and China.

With just under 2,500 employees worldwide the company, which has been listed since March 2002 and is headquartered in Hamburg, can make use of the experience gained from the manufacture and installation of around 3,000 wind turbines around the world. REpower is represented by distribution partners, subsidiaries in European markets such as France,

Belgium, the UK, Italy, Portugal, Sweden, Poland and Spain as well as on a global level in the USA, China, Australia and Canada.

About Suzlon Group:

The Suzlon Group is ranked as the world's fifth largest* wind turbine supplier, in terms of cumulative installed capacity, at the end of 2010. The company's global spread extends across Asia, Australia, Europe, Africa and North and South America with over 17,000 MW of wind energy capacity installed in 25 countries, operations across 32 countries, a workforce of over 13,000 and revenues of approximately US\$ 4 billion. The Group offers one of the most comprehensive product portfolios – ranging from sub-megawatt on-shore turbines at 600 Kilowatts (KW), to the world's largest commercial 6.15 MW offshore turbine – built on a vertically integrated, low-cost, manufacturing base. The Group – headquartered at Suzlon One Earth in Pune, India – comprises Suzlon Energy Limited and its subsidiaries, including REpower Systems AG in which the company holds ~95 per cent share.
