Mumbai | 14 November 2026: TAC InfoSec Limited (NSE: TAC), the company behind global cybersecurity brand TAC Security, has delivered a landmark first half of FY27, with total income of ₹46.65 crore and profit after tax (PAT) of ₹19.13 crore for the six months ended 30 September 2026.

The performance combines substantial year-on-year growth with a sharp improvement over the preceding half year, as TAC Security broadens its business across vulnerability management, AI-enabled compliance and Web3 security. Total income increased 53.7%, EBITA rose 16.2% and PAT grew 22.7% year on year.

TAC InfoSec added ₹16.30 crore in total income and ₹3.56 crore in PAT compared with H1 FY26, taking its income and earnings base to a substantially larger scale.

Approaching a full year of income in six months

H1 FY27 total income already represents approximately 81.6% of FY26 full-year total income, while first half PAT equals approximately 72.5% of the previous full year. The company generated more than four-fifths of the preceding year's total income in the first six months of FY27.

Financial Performance at a New Scale

TAC InfoSec delivered double-digit year-on-year growth in total income, EBITA and PAT. The latest half year also saw earnings grow faster than total income on a sequential basis, accompanied by an improvement in both profitability margins.
