# TAC Security's Socify.ai Adds Another 100 Clients in Just Three Months

*After taking six months to reach its first 100 clients, Socify.ai added the next 100 in half the time, signaling rapid market adoption of AI-led SOC 2 compliance automation*

*TAC Security's milestone on Socify.ai client acquisitions, a defining achievement that positions the Company among the fastest-growing AI-driven SOC 2 compliance products globally.*

New York (U.S.), Mumbai (India), June 30, 2026: Socify.ai, the AI compliance automation platform by TAC Security (NSE: TAC), has added another 100 clients in just three months, marking a sharp acceleration in its global growth.

The milestone follows Socify.ai's first 100 clients, achieved in first six months from the launch. With the next 100 added in **only three months**, the platform has doubled its client-acquisition pace, reflecting rising demand for faster, simpler, and more affordable SOC 2 compliance.

SOC 2 has become a critical requirement for modern businesses selling to enterprises, especially across AI, SaaS, fintech, cybersecurity, and digital infrastructure. Yet the process remains costly, manual, and time-consuming for many companies.

***Socify.ai is built to change that.***

The platform simplifies SOC 2 readiness through automation, continuous monitoring, and real-time visibility, helping companies move from audit-led compliance to always-on trust.

***"Reaching our first 100 Socify.ai clients in six months proved the need. Adding the next 100 in just three months proves the speed of the market," said Trishneet Arora, Founder & CEO, TAC Security. "Companies do not want compliance to slow growth. They want it to unlock growth. Socify.ai is built to make SOC 2 simple, affordable, and scalable globally."***

The rapid adoption strengthens TAC Security's ambition to scale Socify.ai to 10,000 clients worldwide by making SOC 2 compliance accessible to growing companies across markets.

***Socify.ai is backed by TAC Security, a global cybersecurity company serving more than 10,000 clients across 100+ countries.***

## About TAC Security (TAC InfoSec Limited) – Symbol - NSE: TAC
