TAKE Limited Reports Consolidated Total Income of ₹615.54 Million for the Half Year Ended September 2026; Advances Its Vision Across Digital Healthcare, AI and Longevity Sciences Through Innovation-Led Growth

Returns to Profitability with Consolidated PAT of ₹32.75 Million in H1 FY27, While Strengthening Its Focus on Innovation-Led and Technology-Enabled Healthcare Solutions

Chennai, November 13, 2026: TAKE Limited, a technology-driven company with a focus on healthcare, life sciences and digital solutions, has reported its financial performance for the half year ended September 30, 2026. The company recorded consolidated Total Income of ₹615.54 Million during H1 FY27, marking a notable transition in its Financial performance compared to the corresponding period of the previous financial year.

The company reported consolidated Profit After Tax (PAT) of ₹32.75 Million for H1 FY27, compared to a loss of ₹12.13 Million in H1 FY26. On a standalone basis, during the half year ended September 2026, Total Income stood at ₹280.52 Million, while Net Profit reached ₹31.89 Million, compared with a loss of ₹27.83 Million in the corresponding six-month period of the previous financial year.

For Q2 FY27, consolidated Total Income stood at ₹298.52 Million, with Revenue from Operations contributing ₹294.17 Million. Consolidated Net Profit increased to ₹22.12 Million, registering a strong 108.17% quarter-on-quarter growth over ₹10.63 Million in Q1 FY27.

On a standalone basis, Q2 FY27 Total Income stood at ₹147.55 Million, growing 10.97% quarter-on-quarter from ₹132.97 Million in Q1 FY27. Standalone Net Profit increased to ₹22.21 Million, registering a 129.36% quarter-on-quarter growth compared to ₹9.68 Million in the preceding quarter.

The return to profitability across both consolidated and standalone operations represents an important development in the company's financial performance and provides a foundation for its next phase of business development.

Alongside its financial progress, TAKE Limited has been pursuing a broader strategic direction centered on healthcare innovation, digital platforms, Artificial Intelligence and emerging wellness opportunities. The company's recent initiatives reflect an effort to combine its domain expertise in healthcare and life sciences with technology-driven business models and new avenues for revenue generation.

A key development in this direction has been the launch of **TAKE.Health**, an intelligent digital health companion designed to bring together lifestyle and medical data and translate them into personalized, actionable health insights. The platform follows an integrated approach to health management, enabling users to connect their health information, analyze trends, understand their health indicators and take informed actions. Through this initiative, the company aims to participate in the growing digital health and preventive healthcare ecosystem.

Further strengthening its innovation strategy, the company announced the launch of a **₹50 Million Innovation Fund** with an initial corpus commitment of ₹5 crore to identify, invest in and support high-potential startups operating across Artificial Intelligence, deep technology and digital health. The fund is intended to support emerging businesses through capital, domain expertise, industry networks and technology-led capabilities, with a focus on areas such as AI-powered diagnostics, predictive analytics, longevity sciences and digital health platforms.

The company has also announced its strategic entry into India's **longevity and anti-ageing market**, with plans to develop science-backed nutraceuticals, biohacking-focused products and technology-enabled preventive healthcare solutions. The proposed approach combines product innovation with digital wellness capabilities, including solutions that can help consumers monitor areas such as metabolic health, sleep, cognition and biological ageing.

Together, these initiatives represent the company's broader ambition to develop a connected business ecosystem spanning digital health platforms, consumer wellness products, healthcare technology and innovation-led investments.

Going forward, TAKE Limited intends to focus on strengthening its presence across digital healthcare, preventive wellness, longevity sciences and technology-enabled healthcare solutions. The company's future priorities include expanding the capabilities of TAKE.Health, developing its proposed longevity and wellness offerings, evaluating investment opportunities through its Innovation Fund and exploring the application of AI and advanced technologies across healthcare and life sciences.

Its approach will focus on developing commercially viable offerings, strengthening execution capabilities, leveraging existing domain expertise and maintaining financial discipline. The company intends to evaluate growth opportunities based on their market potential, scalability, commercial viability and ability to contribute to sustainable business performance. TAKE Limited believes that its next phase of development will be shaped by its ability to combine financial recovery with the successful execution of its evolving business strategy.

"The first half of FY2026–27 represents an important period for TAKE Limited as we have made progress in strengthening our financial performance while advancing our strategic priorities. Our return to profitability across consolidated and standalone operations is an encouraging development.

We are particularly focused on the convergence of healthcare, science and technology. Initiatives such as TAKE.Health, our Innovation Fund and our strategic entry into the longevity and preventive healthcare segment reflect our ambition to develop businesses that address evolving healthcare needs through innovation and technology. Going forward, our emphasis will be on execution, developing commercially sustainable offerings and building complementary business verticals. We remain focused on strengthening our financial fundamentals, pursuing disciplined growth opportunities and creating sustainable long-term value for our shareholders." **said Mr. Sunil Patra, Managing Director of TAKE Limited.**

About TAKE Limited

TAKE Limited (formerly known as TAKE Solutions Limited) is a technology-driven company focused on healthcare, life sciences and emerging technology-enabled solutions. The company is expanding its business interests across digital healthcare, Artificial Intelligence, preventive wellness and longevity sciences, with an emphasis on innovation and technology-led business development. Through initiatives spanning digital health platforms, science-backed wellness solutions, strategic investments and emerging healthcare technologies, TAKE Limited aims to develop an integrated ecosystem that addresses evolving healthcare and consumer wellness needs. By combining technology capabilities with healthcare innovation and strategic business development, the company seeks to unlock new growth opportunities, strengthen its business portfolio and create sustainable long-term value for its stakeholders.
