

For Immediate Release

TAKE Solutions Named to Software Magazine's 30th Annual Software 500

~Software Magazine Ranks TAKE Solutions as one of the World's Largest Software and Service Companies~

Chennai, India, October 16, 2012: TAKE Solutions, a leader in the Supply Chain Management (SCM) and Life Sciences (LS) domains, today announces its inclusion in Software Magazine's Software 500 ranking of the world's largest software and service providers, now in its 30th year.

"TAKE Solutions remains dedicated to aligning our goals with those of our users as we expand and refine our business, and to continually improving our software offerings, which will ultimately better serve our customers and adjust to their ever changing needs," **said Young Kim, Director of Product Management, TAKE Solutions.** "Keeping these priorities on top of mind, we have had a tremendous year of growth and are excited to be held among this list of successful and growing companies."

"The 2012 Software 500 results show that revenue growth in the software and services industry was again healthy, with a total Software 500 revenue of \$643.6 billion worldwide for 2011, representing approximately 17 percent growth from the previous year's list," **says John P. Desmond, Editor, Software Magazine.**

The Software 500 is a revenue-based ranking of the world's largest software and services suppliers, targeting medium to large enterprises, their IT professionals, software developers, and business managers involved in software and services purchasing.

The ranking is based on total worldwide software and services revenue for 2011. This includes revenue from software licenses, maintenance and support, training, and software-related services and consulting. Suppliers are not ranked on total corporate revenue, since many have other lines of business, such as hardware. The financial information was gathered by a survey prepared by Rockport Custom Publishing, LLC. and posted at www.softwaremag.com, as well as from public documents.

About TAKE Solutions:

TAKE Solutions, Ltd. [BSE: 532890 | NSE: TAKE] is a leading global business technology company with domain expertise in Life Sciences (LS) and Supply Chain Management (SCM).
