Zomato net loss widens to ₹356 cr in IPO quarter

Revenue rises 217% YoY; higher expenses and 2nd Covid wave hurt business

NEHA ALAWADHI
New Delhi, 10 August

In its first quarterly results after its listing last month, food delivery platform Zomato said its net loss widened in the first quarter (Q1) ended June 30 due to increased expenses and a hit on dining out as the second wave of the Covid-19 pandemic upended lives and livelihoods. The total loss attributable to equity shareholders rose to ₹356 crore, from ₹99.8 crore a year ago. Adjusted earnings before interest, tax, depreciation, and amortisation (Ebitda) loss widened nearly 42 per cent to ₹170 crore on a

quarterly basis. Revenue from operations in Q1 rose to ₹844.40 crore, from ₹266 crore a year ago. Chief Executive Officer and Co-Founder Deepinder Goyal

and Chief Financial Officer Akshant Goyal in a blogpost filed to the BSE and on the company's website said the reported loss in Q1 was "largely on account of non-cash

employee stock option plan (ESOP) expenses, which have increased meaningfully in Q1 of 2021-22 (FY22) due to significant ESOP grants made in the quarter pursuant to creation of a new ESOP 2021 scheme. This divergence in reported profit/loss and adjusted Ebitda will continue, going forward". They said Zomato will do earnings/analyst calls once a year, at the end of each financial year, where the firm will share a more detailed commentary on the year gone by, along with key metrics. They added that revenue growth was largely on the back of growth in Zomato's core food delivery business.

Vedanta lines up \$20-bn capex

ADITI DIVEKAR
Mumbai, 10 August

With a robust outlook for mineral-led growth in India, Anil Agarwal-led Vedanta is looking to invest up to \$20 billion across its businesses, which includes doubling of silver production and steel capacities. The company has not given a timeline for the \$20-billion investment.

Agarwal in a virtual press conference last month had said the company had planned a capital expenditure (capex) of \$5 billion over a period of three years.

The company, already India's largest producer of aluminum, aims to double its production of silver, which is not only a precious metal, but has uses in the high-tech industry and renewable energy. In steel, which is a significant component of its business, it intends to double its capacity, said

"THE GDP CONTRIBUTION OF MINING AND METALS MUST DOUBLE, POSSIBLY EVEN TREBLE. IT IS THE ONLY WAY TO AVOID IMPORT DEPENDENCE OF THE KIND WE HAVE SEEN IN CRUDE OIL"

ANIL AGARWAL
Founder and Chairman, Vedanta

Agarwal, founder and chairman of Vedanta Resources, on Tuesday.

He was speaking at the 56th annual general meeting of Vedanta. In the last 10 years, the company has contributed ₹2.7 trillion to the exchequer, he added.

"The acquisition of Ferro Alloys Corporation and its niche ferro-alloys business is yet another example of our diversification and future

readiness," he added.

With regard to oil demand, Vedanta is looking to increase domestic production in oil and gas by up to 50 per cent to meet demand.

The company reported the highest-ever earnings before interest, tax, depreciation, and amortisation of ₹27,341 crore, up 30-per cent year-on-year (YoY).

The company's 2020-21 revenue was at ₹86,863 crore,

up 4-per cent YoY.

According to an International Finance Corporation report, Vedanta's operations contribute 1 per cent to India's gross domestic product (GDP). From an overall sector-perspective, mining contributes 1.5 per cent to GDP; metals contribute an additional 2 per cent.

"The GDP contribution of mining and metals must double, possibly even treble. It is the only way to avoid import dependence of the kind we have seen in crude oil," said Agarwal.

Vedanta is also of the view that both technology and digitisation are becoming the core of each of its businesses.

The company has implemented industry-first digital smelters at one of its plants in Jharsuguda in Odisha. Also, Hindustan Zinc has developed technologies to efficiently manage operations remotely.

Swiggy IPO can give good returns: SoftBank

Zomato's stellar listing and a strong performance on the Indian bourses has given Softbank's founder Masayoshi Son confidence that Swiggy will be able to deliver "good returns" if it goes for an IPO. "If they go public, I believe that we will be able to see good returns from here too. That's our expectation," said Son in post-earnings call with analysts. Softbank recently led a \$1.26-billion investment into Swiggy, taking its valuation to over \$5 billion. Son also talked about some of Softbank's other investment in the food-tech segments like the US-listed DoorDash and Uber Eats. He compared the competition between DoorDash and Uber Eats to Zomato and Swiggy. "Swiggy and Zomato, these are the two competitors and they are taking about 50:50 market share and we have invested in Swiggy. They are one of the largest scale delivery platform in India with 20 million active users." Son said Swiggy has 120,000 partner restaurants and 1.5 million orders per day with 200,000 drivers. "The number of orders per day has increased by about 2.5 times in one year, revenue has increased by 2.8 times," he added.

The Japanese investment firm is also hopeful of the listing of payments company Paytm and Policybazaar.
