RIL shareholder meet in May to demerge financial services arm

Demerger expected to create a behemoth in financial services space

ABHIJIT LELE
Mumbai, 30 March

Lenders and shareholders of Reliance Industries Ltd (RIL) will meet on May 2 to demerge the firm's financial services business. This is expected to create a big player in segments including the NBFC (non-banking financial company) space with net worth of ₹25,851 crore as of March 2022.

According to the plan, RIL shareholders will get a share in the demerged entity for each one held in the company. After demerger, the shares of Reliance Strategic Investments will be named Jio Financial Services, and will be listed on the National Stock Exchange and the BSE, the company said in a statement.

The meeting is being held following an order by the National Company Law Tribunal, Mumbai Bench.

Elaborating on the rationale for the demerger, the company said financial services were among the multiple busi-

nesses carried out by the conglomerate.

Further growth and expansion in financial services would require a differentiated strategy aligned to the industry-specific risks, market dynamics, and growth trajectory.

The nature of financial services is distinct from other businesses and they are capable of attracting a different set

of investors, strategic partners, lenders and other stakeholders, it said.

Dwelling on benefits from demerger, it said this would lead to an independent company focusing exclusively on financial services and exploring opportunities in the sector.

A financial services company can have higher leverage for growth and

would unlock the value for shareholders of the demerged company.

With emphasis on financial inclusion, the government, as well as regulators, has been developing policies for services including banking, NBFCs, insurance, mutual funds, etc.

According to rating agency ICRA, NBFCs and housing finance companies (HFCs) have embarked on a high growth trajectory compared to the trend in FY2020-22. Against this backdrop, access to timely and commensurate funding becomes the key, considering the tightening systemic liquidity and current inflationary conditions.

The loan books of retail, NBFCs and HFCs are estimated to grow 13-15 per cent in FY23. They are expected to touch ₹30 trillion by March 2024 compared to ₹23 trillion in March 2022, it added.

Growth could be in the range of 12-14 per cent in FY2024 compared to the average of 8.5 per cent seen during the previous three financial years.

Jindal Stainless steels itself for Chinese dumping

ISHITA AYAN DUTT
Kolkata, 30 March

Often called the metal for nation-building, stainless steel is one of the fastest-growing value-added materials in the country. And Jindal Stainless, as India's largest stainless steel producer, is putting most of its eggs in the domestic market, buoyed by strong demand. But the company's Managing Director Abhyuday Jindal says Chinese steel dumping has put the sector in jeopardy in the

"We remain bullish. Domestic demand is very strong and we welcome the announcement by the government in the Budget this year on infrastructure spending... Railway expenditure has been doubled," said Jindal, adding that the Chinese threat

remains omnipresent

A market leader in the home market, the major competition for Jindal Stainless is from imports. Imports from China, he said, are on a rise.

"They have gone up drastically from two/three years ago. The reason for the trend is that the whole world has gone for some kind of protectionist measure against China. We are the only country open to them for dumping."

According to data, China's share in stainless steel imports was at 30 per cent in 2020-21, 41 per cent in 2021-22, and 50 per cent in the first 10 months of 2022-23. Besides China, Indonesia is another major source of stainless steel imports.

Jindal Stainless, which has two manufacturing units in

Haryana and Odisha, will shortly launch into its 1 million tonne (mt) expansion to take its capacity to 2.9 mt. The expansion comes at a time when domestic demand is expected to pick up.

According to a CRISIL Ratings report released on Thursday, India's stainless steel demand is expected to surge

steel in the Railways — a focus area for government infrastructure spending — and rising application in the automotive and construction sectors,” the CRISI report added.

Jindal Stainless is expecting a volume growth of 25 per cent in 2023-24 and another 20-25 per cent in FY25. "If the market progresses and we see a faster uptick in demand, we can ramp up faster. Right now, the export market looks subdued and it would depend on how it moves," said Jindal.

Typically, 25-30 per cent of the company's sales are driven by exports. Jindal expects exports to gain traction in the second half of the calendar year. "We are seeing a pick-up in Europe. The US market has not picked up as we'd expected it to."

RIL shareholder meet in May to demerge financial services arm

Demerger expected to create a behemoth in financial services space

ABHIJIT LELE
Mumbai, 30 March

Lenders and shareholders of Reliance Industries Ltd (RIL) will meet on May 2 to demerge the firm's financial services business. This is expected to create a big player in segments including the NBFC (non-banking financial company) space with net worth of ₹25,851 crore as of March 2022.

According to the plan, RIL shareholders will get a share in the demerged entity for each one held in the company. After demerger, the shares of Reliance Strategic Investments will be named Jio Financial Services, and will be listed on the National Stock Exchange and the BSE, the company said in a statement.

The meeting is being held following an order by the National Company Law Tribunal, Mumbai Bench.

Elaborating on the rationale for the demerger, the company said financial services were among the multiple busi-

nesses carried out by the conglomerate. Further growth and expansion in financial services would require a differentiated strategy aligned to the industry-specific risks, market dynamics, and growth trajectory.

The nature of financial services is distinct from other businesses and they are capable of attracting a different set

of investors, strategic partners, lenders and other stakeholders, it said.

Dwelling on benefits from demerger, it said this would lead to an independent company focusing exclusively on financial services and exploring opportunities in the sector.

A financial services company can have higher leverage for growth and

would unlock the value for shareholders of the demerged company.

With emphasis on financial inclusion, the government, as well as regulators, has been developing policies for services including banking, NBFCs, insurance, mutual funds, etc.

According to rating agency ICRA, NBFCs and housing finance companies (HFCs) have embarked on a high growth trajectory compared to the trend in FY2020-22. Against this backdrop, access to timely and commensurate funding becomes the key, considering the tightening systemic liquidity and other inflationary conditions.

The loan books of retail, NBFCs and HFCs are estimated to grow 13-15 per cent in FY23. They are expected to touch ₹30 trillion by March 2024 compared to ₹23 trillion in March 2022, it added.

Growth could be in the range of 12-14 per cent in FY2024 compared to the average of 8.5 per cent seen during the previous three financial years.

Jindal Stainless steels itself for Chinese dumping

ISHITA AYAN DUTT
Kolkata, 30 March

Often called the metal for nation-building, stainless steel is one of the fastest-growing value-added materials in the country. And Jindal Stainless, as India's largest stainless steel producer, is putting most of its eggs in the domestic market, buoyed by strong demand. But the company's Managing Director Abhyuday Jindal says Chinese steel dumping has put the entire industry in peril.

"We remain bullish. Domestic demand is very strong and we welcome the announcement by the government in the Budget this year on infrastructure spending... Railway expenditure has been doubled," said Jindal, adding that the Chinese threat

remains omnipresent.

A market leader in the home market, the major competition for Jindal Stainless is from imports, imports from China, he said, are on a rise. "They have gone up drastically from two/three years ago. The reason for the trend is that the whole world has gone for some kind of protectionism measure against China. We are the only country open to them for dumping."

According to data, China's share in stainless steel imports was at 30 per cent in 2020-21, 41 per cent in 2021-22, and 50 per cent in the first 10 months of 2022-23. Besides China, Indonesia is another major source of stainless steel imports.

Haryana and Odisha, will shortly launch into its 1 million tonne (mt) expansion to take its capacity to 2.9 mt. The expansion comes at a time when domestic demand is expected to pick up.

According to a CRISIL Ratings report released on Thursday, India's stainless steel demand is expected to surge

through 2024-25 (FY25). Domestic demand for stainless steel, which was 4 mt in 2021-22, is projected to log a compound annual growth rate of 9 per cent in the three financial years through FY25, double the 4.5 per cent pace of the past five financial years, the report said.

"This will be driven by increasing adoption of stainless

steel in the Railways — a focus area for government infrastructure spending — and rising application in the automotive and construction sectors," the CRISIL report added.

Jindal Stainless is expecting a volume growth of 25 per cent in 2023-24 and another 20-25 per cent in FY25. "If the market progresses and we see a faster uptick in demand, we can ramp up faster. Right now, the export market looks subdued and it would depend on how it moves," said Jindal.

Typically, 25-30 per cent of the company's sales are driven by exports. Jindal expects exports to gain traction in the second half of the calendar year. "We are seeing a pick-up in Europe. The US market has not picked up as we'd expected it to."

steel in the Railways — a focus area for government infrastructure spending — and rising application in the automotive and construction sectors," the CRISIL report added.

Jindal Stainless is expecting a volume growth of 25 per cent in 2023-24 and another 20-25 per cent in FY25. "If the market progresses and we see a faster uptick in demand, we can ramp up faster. Right now, the export market looks subdued and it would depend on how it moves," said Jindal.

Typically, 25-30 per cent of the company's sales are driven by exports. Jindal expects exports to gain traction in the second half of the calendar year. "We are seeing a pick-up in Europe. The US market has not picked up as we'd expected it to."

RIL shareholder meet in May to demerge financial services arm

Demerger expected to create a behemoth in financial services space

ABHIJIT LELE
Mumbai, 30 March

Lenders and shareholders of Reliance Industries Ltd (RIL) will meet on May 2 to demerge the firm's financial services business. This is expected to create a big player in segments including the NBFC (non-banking financial company) space with net worth of ₹25,851 crore as of March 2022.

According to the plan, RIL shareholders will get a share in the demerged entity for each one held in the company. After demerger, the shares of Reliance Strategic Investments will be named Jio Financial Services, and will be listed on the National Stock Exchange and the BSE, the company said in a statement.

The meeting is being held following an order by the National Company Law Tribunal, Mumbai Bench.

Elaborating on the rationale for the demerger, the company said financial services were among the multiple busi-

BREAKING DOWN

RIL's financial services business (in ₹ cr)

nesses carried out by the conglomerate. Further growth and expansion in financial services would require a differentiated strategy aligned to the industry-specific risks, market dynamics, and growth trajectory.

The nature of financial services is distinct from other businesses and they are capable of attracting a different set

of investors, strategic partners, lenders and other stakeholders, it said.

Dwelling on benefits from demerger, it said this would lead to an independent company focusing exclusively on financial services and exploring opportunities in the sector.

A financial services company can have higher leverage for growth and

would unlock the value for shareholders of the demerged company.

With emphasis on financial inclusion, the government, as well as regulators, has been developing policies for services including banking, NBFCs, insurance, mutual funds, etc.

According to rating agency ICRA, NBFCs and housing finance companies (HFCs) have embarked on a high growth trajectory compared to the trend in FY2020-22. Against this backdrop, access to timely and commensurate funding becomes the key, considering the tightening systemic liquidity and current inflationary conditions.

The loan books of retail, NBFCs and HFCs are estimated to grow 13-15 per cent in FY23. They are expected to touch ₹30 trillion by March 2024 compared to ₹23 trillion in March 2022, it added.

Growth could be in the range of 12-14 per cent in FY2024 compared to the average of 8.5 per cent seen during the previous three financial years.

Jindal Stainless steels itself for Chinese dumping

ISHITA AYAN DUTT
Kolkata, 30 March

Often called the metal for nation-building, stainless steel is one of the fastest-growing value-added materials in the country. And Jindal Stainless, as India's largest stainless steel producer, is putting most of its eggs in the domestic market, buoyed by strong demand. But the company's Managing Director Abhyuday Jindal says Chinese steel dumping has put the entire industry in peril.

"We remain bullish. Domestic demand is very strong and we welcome the announcement by the government in the Budget this year on infrastructure spending... Railway expenditure has been doubled," said Jindal, adding that the Chinese threat

remains omnipresent.

A market leader in the home market, the major competition for Jindal Stainless is from imports. Imports from China, he said, are on a rise. "They have gone up drastically from two/three years ago. The reason for the trend is that the whole world has gone for some kind of protectionism measure against China. We are the only country open to them for dumping."

According to data, China's share in stainless steel imports was at 30 per cent in 2020-21, 41 per cent in 2021-22, and 50 per cent in the first 10 months of 2022-23. Besides China, Indonesia is another major source of stainless steel imports.

"Jindal Stainless, which has two manufacturing units in

MD, Jindal Stainless

Haryana and Odisha, will shortly launch into its 1 million tonne (mt) expansion to take its capacity to 2.9 mt. The expansion comes at a time when domestic demand is expected to pick up.

According to a CRISIL Ratings report released on Thursday, India's stainless steel demand is expected to surge

through 2024-25 (FY25). Domestic demand for stainless steel, which was 4 mt in 2021-22, is projected to log a compound annual growth rate of 9 per cent in the three financial years through FY25, double the 4.5 per cent pace of the past five financial years, the report said.

"This will be driven by increasing adoption of stainless

steel in the Railways — a focus area for government infrastructure spending — and rising application in the automotive and construction sectors," the CRISIL report added.

Jindal Stainless is expecting a volume growth of 25 per cent in 2023-24 and another 20-25 per cent in FY25. "If the market progresses and we see a faster uptick in demand, we can ramp up faster. Right now, the export market looks subdued and it would depend on how it moves," said Jindal.

Typically, 25-30 per cent of the company's sales are driven by exports. Jindal expects exports to gain traction in the second half of the calendar year. "We are seeing a pick-up in Europe. The US market has not picked up as we'd expected it to."

RIL shareholder meet in May to demerge financial services arm

Demerger expected to create a behemoth in financial services space

ABHIJIT LELE
Mumbai, 30 March

Lenders and shareholders of Reliance Industries Ltd (RIL) will meet on May 2 to demerge the firm's financial services business. This is expected to create a big player in segments including the NBFC (non-banking financial company) space with net worth of ₹25,851 crore as of March 2022.

According to the plan, RIL shareholders will get a share in the demerged entity for each one held in the company. After demerger, the shares of Reliance Strategic Investments will be named Jio Financial Services, and will be listed on the National Stock Exchange and the BSE, the company said in a statement.

The meeting is being held following an order by the National Company Law Tribunal, Mumbai Bench.

Elaborating on the rationale for the demerger, the company said financial services were among the multiple busi-

BREAKING DOWN

RIL's financial services business (in ₹ cr)

nesses carried out by the conglomerate. Further growth and expansion in financial services would require a differentiated strategy aligned to the industry-specific risks, market dynamics, and growth trajectory.

The nature of financial services is distinct from other businesses and they are capable of attracting a different set

of investors, strategic partners, lenders and other stakeholders, it said.

Dwelling on benefits from demerger, it said this would lead to an independent company focusing exclusively on financial services and exploring opportunities in the sector.

A financial services company can have higher leverage for growth and

would unlock the value for shareholders of the demerged company.

With emphasis on financial inclusion, the government, as well as regulators, has been developing policies for services including banking, NBFCs, insurance, mutual funds, etc.

According to rating agency ICRA, NBFCs and housing finance companies (HFCs) have embarked on a high growth trajectory compared to the trend in FY2020-22. Against this backdrop, access to timely and commensurate funding becomes the key, considering the tightening systemic liquidity and credit inflationary conditions.

The loan books of retail, NBFCs and HFCs are estimated to grow 13-15 per cent in FY23. They are expected to touch ₹30 trillion by March 2024 compared to ₹23 trillion in March 2022, it added.

Growth could be in the range of 12-14 per cent in FY2024 compared to the average of 8.5 per cent seen during the previous three financial years.

Jindal Stainless steels itself for Chinese dumping

ISHITA AVAN DUTT
Kolkata, 30 March

Often called the metal for nation-building, stainless steel is one of the fastest-growing value-added materials in the country. And Jindal Stainless, as India's largest stainless steel producer, is putting most of its eggs in the domestic market, buoyed by strong demand. But the company's Managing Director Abhyuday Jindal says Chinese steel dumping has put the entire industry in peril.

"We remain bullish. Domestic demand is very strong and we welcome the announcement by the government in the Budget this year on infrastructure spending... Railway expenditure has been doubled," said Jindal, adding that the Chinese threat

remains omnipresent.

A market leader in the home market, the major competition for Jindal Stainless is from imports, imports from China, he said, are on a rise.

"They have gone up drastically from two/three years ago. The reason for the trend is that the whole world has gone for some kind of protectionist measure against China. We are the only country open to them for dumping."

According to data, China's share in stainless steel imports was at 30 per cent in 2020-21, 41 per cent in 2021-22, and 50 per cent in the first 10 months of 2022-23. Besides China, Indonesia is another major source of stainless steel imports.

"Jindal Stainless, which has two manufacturing units in

Haryana and Odisha, will shortly launch into its 1 million tonne (mt) expansion to take its capacity to 2.9 mt. The expansion comes at a time when domestic demand is expected to pick up.

According to a CRISIL Ratings report released on Thursday, India's stainless steel demand is expected to surge

through 2024-25 (FY25). Domestic demand for stainless steel, which was 4 mt in 2021-22, is projected to log a compound annual growth rate of 9 per cent in the three financial years through FY25, double the 4.5 per cent pace of the past five financial years, the report said.

"This will be driven by increasing adoption of stainless

steel in the Railways — a focus area for government infrastructure spending — and rising application in the automotive and construction sectors," the CRISIL report added.

Jindal Stainless is expecting a volume growth of 25 per cent in 2023-24 and another 20-25 per cent in FY25. "If the market progresses and we see a faster uptick in demand, we can ramp up faster. Right now, the export market looks subdued and it would depend on how it moves," said Jindal.

Typically, 25-30 per cent of the company's sales are driven by exports. Jindal expects exports to gain traction in the second half of the calendar year. "We are seeing a pick-up in Europe. The US market has not picked up as we'd expected it to."

SKIMT CONDUCTS SESSION ON VALUES FOR LIFE

Today's life is focused more on materialism and in the pursuit of earning it, the knowledge and skills are being spent on it while the values have lost its significance. But our values form the foundation of our life and they dictate the choices we make and the direction of our life. As a means of imparting values to the present day students a guest Lecture on "VALUES FOR LIFE" was organized. Dr.Venkataraman, HOD of Gandhian Studies, Madurai Kamaraj University was the resource person. In his special address, he pointed out that virtues such as truth, honesty, hard work, love and sacrifice are very necessary to succeed in human life. He emphasized that knowledge and ability are needed and may be the basis for joining a job, but one's values are considered important for getting promotion and assuming leadership position. He also recalled that there is a widely held myth that it is practically

impossible to maintain values in the business and industry. But in reality, the long run sustainability of the organizations depend on their value system. He quoted with examples that people with good values are never defeated in life.

All first year and second year MBA students and professors participated in the program.

RIL shareholder meet in May to demerge financial services arm

Demerger expected to create a behemoth in financial services space

ABHIJIT LELE
Mumbai, 30 March

Lenders and shareholders of Reliance Industries Ltd (RIL) will meet on May 2 to demerge the firm's financial services business. This is expected to create a big player in segments including the NBFC (non-banking financial company) space with net worth of ₹25,851 crore as of March 2022.

According to the plan, RIL shareholders will get a share in the demerged entity for each one held in the company. After demerger, the shares of Reliance Strategic Investments will be named Jio Financial Services, and will be listed on the National Stock Exchange and the BSE, the company said in a statement.

The meeting is being held following an order by the National Company Law Tribunal, Mumbai Bench.

Elaborating on the rationale for the demerger, the company said financial services were among the multiple busi-

BREAKING DOWN

RIL's financial services business (in ₹ cr)

nesses carried out by the conglomerate. Further growth and expansion in financial services would require a differentiated strategy aligned to the industry-specific risks, market dynamics, and growth trajectory.

The nature of financial services is distinct from other businesses and they are capable of attracting a different set

of investors, strategic partners, lenders and other stakeholders, it said.

Dwelling on benefits from demerger, it said this would lead to an independent company focusing exclusively on financial services and exploring opportunities in the sector.

A financial services company can have higher leverage for growth and

would unlock the value for shareholders of the demerged company.

With emphasis on financial inclusion, the government, as well as regulators, has been developing policies for services including banking, NBFCs, insurance, mutual funds, etc.

According to rating agency ICRA, NBFCs and housing finance companies (HFCs) have embarked on a high growth trajectory compared to the trend in FY2020-22. Against this backdrop, access to timely and commensurate funding becomes the key, considering the tightening systemic liquidity and other inflationary conditions.

The loan books of retail, NBFCs and HFCs are estimated to grow 13-15 per cent in FY23. They are expected to touch ₹30 trillion by March 2024 compared to ₹23 trillion in March 2022, it added.

Growth could be in the range of 12-14 per cent in FY2024 compared to the average of 8.5 per cent seen during the previous three financial years.

Jindal Stainless steels itself for Chinese dumping

ISHITA AVAN DUTT
Kolkata, 30 March

Often called the metal for nation-building, stainless steel is one of the fastest-growing value-added materials in the country. And Jindal Stainless, as India's largest stainless steel producer, is putting most of its eggs in the domestic market, buoyed by strong demand. But the company's Managing Director Abhyuday Jindal says Chinese steel dumping has put the entire industry in peril.

"We remain bullish. Domestic demand is very strong and we welcome the announcement by the government in the Budget this year on infrastructure spending... Railway expenditure has been doubled," said Jindal, adding that the Chinese threat

remains omnipresent.

A market leader in the home market, the major competition for Jindal Stainless is from imports, imports from China, he said, are on a rise. "They have gone up drastically from two/three years ago. The reason for the trend is that the whole world has gone for some kind of protectionist measure against China. We are the only country open to them for dumping."

According to data, China's share in stainless steel imports was at 30 per cent in 2020-21, 41 per cent in 2021-22, and 50 per cent in the first 10 months of 2022-23. Besides China, Indonesia is another major source of stainless steel imports.

"Jindal Stainless, which has two manufacturing units in

ABHYUDAY JINDAL
MD, Jindal Stainless

Haryana and Odisha, will shortly launch into its 1 million tonne (mt) expansion to take its capacity to 2.9 mt. The expansion comes at a time when domestic demand is expected to pick up.

According to a CRISIL Ratings report released on Thursday, India's stainless steel demand is expected to surge

through 2024-25 (FY25). Domestic demand for stainless steel, which was 4 mt in 2021-22, is projected to log a compound annual growth rate of 9 per cent in the three financial years through FY25, double the 4.5 per cent pace of the past five financial years, the report said.

"This will be driven by increasing adoption of stainless

steel in the Railways — a focus area for government infrastructure spending — and rising application in the automotive and construction sectors," the CRISIL report added.

Jindal Stainless is expecting a volume growth of 25 per cent in 2023-24 and another 20-25 per cent in FY25. "If the market progresses and we see a faster uptick in demand, we can ramp up faster. Right now, the export market looks subdued and it would depend on how it moves," said Jindal.

Typically, 25-30 per cent of the company's sales are driven by exports. Jindal expects exports to gain traction in the second half of the calendar year. "We are seeing a pick-up in Europe. The US market has not picked up as we'd expected it to."

RIL shareholder meet in May to demerge financial services arm

Demerger expected to create a behemoth in financial services space

ABHIJIT LELE
Mumbai, 30 March

Lenders and shareholders of Reliance Industries Ltd (RIL) will meet on May 2 to demerge the firm's financial services business. This is expected to create a big player in segments including the NBFC (non-banking financial company) space with net worth of ₹25,851 crore as of March 2022.

According to the plan, RIL shareholders will get a share in the demerged entity for each one held in the company. After demerger, the shares of Reliance Strategic Investments will be named Jio Financial Services, and will be listed on the National Stock Exchange and the BSE, the company said in a statement.

The meeting is being held following an order by the National Company Law Tribunal, Mumbai Bench.

Elaborating on the rationale for the demerger, the company said financial services were among the multiple busi-

nesses carried out by the conglomerate.

Further growth and expansion in financial services would require a differentiated strategy aligned to the industry-specific risks, market dynamics, and growth trajectory.

The nature of financial services is distinct from other businesses and they are capable of attracting a different set

of investors, strategic partners, lenders and other stakeholders, it said.

Dwelling on benefits from demerger, it said this would lead to an independent company focusing exclusively on financial services and exploring opportunities in the sector.

A financial services company can have higher leverage for growth and

would unlock the value for shareholders of the demerged company.

With emphasis on financial inclusion, the government, as well as regulators, has been developing policies for services including banking, NBFCs, insurance, mutual funds, etc.

According to rating agency ICRA, NBFCs and housing finance companies (HFCs) have embarked on a high growth trajectory compared to the trend in FY2020-22. Against this backdrop, access to timely and commensurate funding becomes the key, considering the tightening systemic liquidity and current inflationary conditions.

The loan books of retail, NBFCs and HFCs are estimated to grow 13-15 per cent in FY23. They are expected to touch ₹30 trillion by March 2024 compared to ₹23 trillion in March 2022, it added.

Growth could be in the range of 12-14 per cent in FY2024 compared to the average of 8.5 per cent seen during the previous three financial years.

Jindal Stainless steels itself for Chinese dumping

ISHITA AYAN DUTT
Kolkata, 30 March

Often called the metal for nation-building, stainless steel is one of the fastest-growing value-added materials in the country. And Jindal Stainless, as India's largest stainless steel producer, is putting most of its eggs in the domestic market, buoyed by strong demand. But the company's Managing Director Abhyuday Jindal says Chinese steel dumping has put the entire industry in peril.

"We remain bullish. Domestic demand is very strong and we welcome the announcement by the government in the Budget this year on infrastructure spending... Railway expenditure has been doubled," said Jindal, adding that the Chinese threat

remains omnipresent.

A market leader in the home market, the major competition for Jindal Stainless is from imports, imports from China, he said, are on a rise.

"They have gone up drastically from two/three years ago. The reason for the trend is that the whole world has gone for some kind of protectionist measure against China. We are the only country open to them for dumping."

According to data, China's share in stainless steel imports was at 30 per cent in 2020-21, 41 per cent in 2021-22, and 50 per cent in the first 10 months of 2022-23. Besides China, Indonesia is another major source of stainless steel imports.

Haryana and Odisha, will shortly launch into its 1 million tonne (mt) expansion to take its capacity to 2.9 mt. The expansion comes at a time when domestic demand is expected to pick up.

According to a CRISIL Ratings report released on Thursday, India's stainless steel demand is expected to surge

through 2024-25 (FY25). Domestic demand for stainless steel, which was 4 mt in 2021-22, is projected to log a compound annual growth rate of 9 per cent in the three financial years through FY25, double the 4.5 per cent pace of the past five financial years, the report said.

"This will be driven by increasing adoption of stainless

steel in the Railways — a focus area for government infrastructure spending — and rising application in the automotive and construction sectors," the CRISIL report added.

Jindal Stainless is expecting a volume growth of 25 per cent in 2023-24 and another 20-25 per cent in FY25. "If the market progresses and we see a faster uptick in demand, we can ramp up faster. Right now, the export market looks subdued and it would depend on how it moves," said Jindal.

Typically, 25-30 per cent of the company's sales are driven by exports. Jindal expects exports to gain traction in the second half of the calendar year. "We are seeing a pick-up in Europe. The US market has not picked up as we'd expected it to."

RIL shareholder meet in May to demerge financial services arm

Demerger expected to create a behemoth in financial services space

ABHIJIT LELE
Mumbai, 30 March

Lenders and shareholders of Reliance Industries Ltd (RIL) will meet on May 2 to demerge the firm's financial services business. This is expected to create a big player in segments including the NBFC (non-banking financial company) space with net worth of ₹25,851 crore as of March 2022.

According to the plan, RIL shareholders will get a share in the demerged entity for each one held in the company. After demerger, the shares of Reliance Strategic Investments will be named Jio Financial Services, and will be listed on the National Stock Exchange and the BSE, the company said in a statement.

The meeting is being held following an order by the National Company Law Tribunal, Mumbai Bench.

Elaborating on the rationale for the demerger, the company said financial services were among the multiple busi-

RIL's financial services business (in ₹ cr)

nesses carried out by the conglomerate. Further growth and expansion in financial services would require a differentiated strategy aligned to the industry-specific risks, market dynamics, and growth trajectory.

The nature of financial services is distinct from other businesses and they are capable of attracting a different set

of investors, strategic partners, lenders and other stakeholders, it said.

Dwelling on benefits from demerger, it said this would lead to an independent company focusing exclusively on financial services and exploring opportunities in the sector.

A financial services company can have higher leverage for growth and

would unlock the value for shareholders of the demerged company.

With emphasis on financial inclusion, the government, as well as regulators, has been developing policies for services including banking, NBFCs, insurance, mutual funds, etc.

According to rating agency ICRA, NBFCs and housing finance companies (HFCs) have embarked on a high growth trajectory compared to the trend in FY2020-22. Against this backdrop, access to timely and commensurate funding becomes the key, considering the tightening systemic liquidity and current inflationary conditions.

The loan books of retail, NBFCs and HFCs are estimated to grow 13-15 per cent in FY23. They are expected to touch ₹30 trillion by March 2024 compared to ₹23 trillion in March 2022, it added.

Growth could be in the range of 12-14 per cent in FY2024 compared to the average of 8.5 per cent seen during the previous three financial years.

Jindal Stainless steels itself for Chinese dumping

ISHITA AYAN DUTT
Kolkata, 30 March

Often called the metal for nation-building, stainless steel is one of the fastest-growing value-added materials in the country. And Jindal Stainless, as India's largest stainless steel producer, is putting most of its eggs in the domestic market, buoyed by strong demand. But the company's Managing Director Abhyuday Jindal says Chinese steel dumping has put the entire industry in peril.

"We remain bullish. Domestic demand is very strong and we welcome the announcement by the government in the Budget this year on infrastructure spending... Railway expenditure has been doubled," said Jindal, adding that the Chinese threat

remains omnipresent.

A market leader in the home market, the major competition for Jindal Stainless is from imports. Imports from China, he said, are on a rise. "They have gone up drastically from two/three years ago. The reason for the trend is that the whole world has gone for some kind of protectionist measure against China. We are the only country open to them for dumping."

According to data, China's share in stainless steel imports was at 30 per cent in 2020-21, 41 per cent in 2021-22, and 50 per cent in the first 10 months of 2022-23. Besides China, Indonesia is another major source of stainless steel imports.

Jindal Stainless, which has two manufacturing units in

ABHYUDAY JINDAL
MD, Jindal Stainless

Haryana and Odisha, will shortly launch into its 1 million tonne (mt) expansion to take its capacity to 2.9 mt. The expansion comes at a time when domestic demand is expected to pick up.

According to a CRISIL Ratings report released on Thursday, India's stainless steel demand is expected to surge

through 2024-25 (FY25). Domestic demand for stainless steel, which was 4 mt in 2021-22, is projected to log a compound annual growth rate of 9 per cent in the three financial years through FY25, double the 4.5 per cent pace of the past five financial years, the report said.

"This will be driven by increasing adoption of stainless

steel in the Railways — a focus area for government infrastructure spending — and rising application in the automotive and construction sectors," the CRISIL report added.

Jindal Stainless is expecting a volume growth of 25 per cent in 2023-24 and another 20-25 per cent in FY25. "If the market progresses and we see a faster uptick in demand, we can ramp up faster. Right now, the export market looks subdued and it would depend on how it moves," said Jindal.

Typically, 25-30 per cent of the company's sales are driven by exports. Jindal expects exports to gain traction in the second half of the calendar year. "We are seeing a pick-up in Europe. The US market has not picked up as we'd expected it to."
