Consolidated revenue from operations for the quarter ended 30 June 2026 at ₹ 4,255 Cr and EBITDA at ₹ 555 Cr

27 July 2026: Tata Chemicals Limited today declared its financial results for the quarter ended June 30, 2026.

Commenting on the results, **R. Mukundan, Managing Director & CEO, Tata Chemicals Limited**, said, *“During Q1FY27, amidst challenging external environment, the Company delivered a resilient performance, supported by higher sales and production volumes, strong operating efficiencies and disciplined cost management. However, exports from USA to Southeast Asia remained under pressure due to persistent unremunerative soda ash pricing.*

Financial results of the Company are aligned with the LIFE (Living, Industrial, Farm Essentials) strategy, reshaping portfolio towards sustainability-led, application-focused businesses while maintaining strength in core capabilities. Thus, transitioning the portfolio to non-cyclical segments, with focused capital allocation to build a structurally resilient growth platform with stable earnings.

Living Essentials:

Demand outlook remains positive, supported by premiumization in food, feed, pharma and beverage. Core products such as salt and bicarbonates should deliver stable growth, while prebiotics are expected to grow faster due to rising health and wellness consumption trends.

Industrial Essentials (mainly Soda Ash):

The near-term outlook remains challenging due to global oversupply, weak demand conditions, and excess industry capacity. Geopolitical tensions and elevated energy, raw material, and freight costs continue to pressure margins and realisations.

Farm Essentials (mainly Rallis):

India's farm sector outlook remains moderately positive, supported by improved irrigation, technology adoption, government initiatives, and resilient rural demand. However, monsoon variability, potential El Niño conditions, and higher input costs remain key risks to agricultural output.”

Standalone Highlights Q1FY27

- Revenue from operations stood at ₹ 1,281 Cr, up by 10% compared to Q1FY26 due to higher volumes and realisation.
- EBITDA at ₹ 364 Cr, up by 35% compared to Q1FY26, due to higher volumes and realisations partially offset by increase in costs.
- Profit After Tax from continuing operations at ₹ 343 Cr, up by 12% compared to Q1FY26.

Consolidated Highlights Q1FY27

- Revenue from operations at ₹ 4,255 Cr, up by 14% compared to Q1FY26, driven by higher volumes offsetting lower realisations.
- EBITDA at ₹ 555 Cr as compared to ₹ 649 Cr in Q1FY26, mainly due to lower realisations in overseas subsidiaries, especially US exports to South-East Asia markets.

- Profit After Tax at ₹ 60 Cr compared to ₹ 316 Cr for Q1FY26 primarily due to lower realisations, reduced other income, and lower JV income.
- Net debt (without leases) as on June 30, 2026, stood at ₹ 5,692 Cr, lower than PQ on account of monetisation of assets

About Tata Chemicals Ltd.
