Vehicle Business

- In Q1 FY26, industry volumes improved marginally by 0.7% YoY. TIV in HCV and SCVPU dropped whereas ILMCV and CVP grew YoY
- Trucks portfolio transitioned to AC, complemented by the launch of higher power-to-weight ratio variants
- HCV volumes declined primarily due to regional demand shifts and early onset of monsoons.
- The ILMCV segment witnessed volume growth, driven by strong MCV performance in Q1 FY26
- SCVPU volumes have stabilized albeit at lower level. Expected to grow from here with the introduction of Ace Pro
- Passenger Carrier volumes grew 11.8% YoY in Q1 FY26, with performance influenced by segment salience shifts and tender-driven business dynamics.

Electric Mobility

- E Buses:
 - 43 EV buses registered in Q1 FY26; total ~3700 EV Buses registered till date
- Ace EV:
 - 8,700+ vehicles currently operating across Indian roads
 - AcePro EV launched – India’s most affordable 4W electric truck, offering better TCO than 3W EVs
 - PLI certification received for AcePro EV
- Sustainability targets on track

Smart City Mobility Solutions

- Deployment completed in J&K, Bengaluru and Delhi.
- TML e-bus fleet cumulatively crossed 400+ million Kms with >95% uptime
- Consistently delivering performance above contractual terms despite operating in extreme conditions
- Emerged as L1 in the tender for 18m articulated, flash charging electric buses (25 units) from Nagpur Municipal Corporation, as a technology pilot

Digital Business: Continuing to scale up

- **Fleet Edge (connected vehicles)**
 - 825K+ active vehicles, 80% monthly active users and 59% weekly active users on platform.
 - Mileage Saarathi has led to a ~6% improvement (median) in fuel efficiency
- **E-Dukaan (on-line spare part sales)**
 - Third Party Logistics services Launched - Standard & Express
 - 9.1K Customers and 31K retailers onboarded on platform
- **Fleet Verse (on-line vehicle sales)**
 - 10K+ platform assisted retails in Q1 FY26
 - Digital Contribution to Retail at ~28% in Q1 FY26, 1% higher than Q4 FY25

- Q2 FY26 TIV is likely to improve YoY on a lower base in Q2 FY25, with normalization of monsoons, festive season build up, and anticipated recovery in rural and infrastructure led demand.
- TML's focus areas:
 - Drive Trucks market share while maintaining realizations, aided by improving geographical salience and recovery of tipper demand
 - Continue share gain in MCV buses and volume ramp up in vans
 - Volume ramp up on the back of Ace Pro product range, which has received encouraging response across the country.
 - Sustain robust financial performance by consistently delivering double-digit EBITDA margins, healthy cash flows, and strong ROCE

Business update – Q1 FY26

New launches receiving strong traction as industry demand tapers

Tata Passenger and Electric Vehicles

Industry Highlights

- In Q1 FY26, the PV industry saw moderation with flat volumes YoY, reflecting softness in demand
- Volumes stress more pronounced in lower segments (sub 10 lakh), as industry salience continues to shift
- High extent of discounting present across OEMs to drive demand in this environment
- Channel inventories for the industry continued to grow ahead of the festive season
- EV Industry remained a bright spot – with strong positive momentum due to new EV model launches across OEMs

Tata Motors Highlights

- Tata Motors moderated wholesales for the quarter to ensure controlled channel inventory growth
- Transitions for new models for Altroz, Harrier & Safari affected volumes & profitability
- Despite industry trend, strong demand for our new hatch launches – Tiago & Altroz – resulting in 22% booking increase in Jun'25
- Harrier.ev launch has been received extremely positively by the market, driving our highest-ever EV volumes, retails & bookings in Jul'25

Focus Areas – Q2 & Q3 FY26

Drive retails in the festive period while uplifting dealer sentiments through a revamped S&OP process. Well poised to fully leverage the buoyancy seen in EVs

Tata Passenger and Electric Vehicles

Key actions & initiatives

- Institutionalization of dealer stock policy & focus on driving retails
- Uplift dealer sentiments by ensuring sustainable channel inventories & dealer profitability, enabled by a revamped S&OP process
- Supportive retail incentive schemes & enquiry generation through strong festive period campaigns
- Product interventions ensuring strong demand for our products & better mix with curated variants of Harrier/Safari
- Leverage first mover advantage in EVs with the most comprehensive product portfolio across price and driving ranges

Greenshoots of recovery in EVs in July '25

- Highest ever bookings on existing portfolio (excl. Harrier.ev): up 25% over levels seen in Q1
- Nexon.ev, continues seeing strong consumer interest with bookings up 55%+ over Q1
- Sustained strong booking momentum on Harrier.ev, after registering 10k+ bookings on opening
- Highest ever retails in Jul'25, up 40% over Q1 levels. Full impact of Harrier.ev retails expected from August onwards as we continue to ramp up supplies
- EV Vahan market share at 40% in July 25. On track for 50%+ leadership position in the coming quarters

Outlook

- Global demand likely to remain challenging in the short term
- Underlying domestic demand to improve gradually with government infrastructure spends, lower interest rate conditions and exciting product launches
- Focus remains on executing our strategies flawlessly and continuing to strengthen our fundamentals even as markets remain choppy

Key priorities

JLR	CV	PV	EV
<ul style="list-style-type: none"> • Effectively navigate tariff-related challenges by driving demand, optimizing geographic mix, and lowering cash breakeven levels • Focus on our strengths, building the power of our brands 	<ul style="list-style-type: none"> • Improve Vahan market shares in all segments by focusing on customer value proposition • Continue to deliver growth, double digit EBITDA margins, strong cash flows and ROCE focus • Focus on downstream, digital and international business 	<ul style="list-style-type: none"> • Activate the strong portfolio with high impact launches during festive season • Strengthen S&OP processes to streamline demand and supplies and reduce system inventory whilst remaining focused on improving Vahan shares • Improve profitability with better mix, structural cost reductions and driving operating leverage 	<ul style="list-style-type: none"> • Accelerate growth further with targeted channel interventions • Leverage the high impact launches to step up volumes beyond 8K per month • Continue actions to mainstream EVs • Secure PLI benefits
