Re: News item in the Hindustan Times dated 30th September 2017, captioned "Tata Motors wins Government's ₹1,120 crore electric car order"

With reference to your email dated October 3, 2017 seeking clarification/confirmation in respect of the above news item at the outset, we would like to inform that the information is not considered material as required in Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 as the Company has been developing hybrids and electric vehicles in both passenger and commercial vehicles.

The Company has made an official statement on September 29, 2017, a copy of which is attached with regard to the Electric car tender from Energy Efficiency Services Limited ("EESL"). As per the price-bid opening process, we have qualified at L1. However we are yet to receive the formal Letter of Award from EESL.

This is for the information of the exchange and the members.

Yours Faithfully,
Tata Motors Limited

H K Sethna
Company Secretary

TATA

for immediate use **PRESS RELEASE**

Mumbai, September 29, 2017

OFFICIAL STATEMENT FROM TATA MOTORS

Welcoming the initiative of EESL, **Guenter Butschek, CEO & MD, Tata Motors** said,

"Tata Motors is extremely proud to partner with the Government of India in its journey to facilitate faster adoption of electric vehicles and to build a sustainable India. Tata Motors has been collaboratively working to develop electric powertrain technology for its selected products. EESL tender provided us the opportunity to participate in boosting e-mobility in the country, at the same time accelerate our efforts to offer full range of electric vehicles to the Indian consumers."

-Ends-

About Tata Motors

Tata Motors Limited, a USD 42 billion organisation, is a leading global automobile manufacturer of cars, utility vehicles, buses, trucks and defence vehicles. As India's largest automobile company and part of the USD 100 billion Tata group, Tata Motors has operations in the UK, South Korea, Thailand, South Africa, and Indonesia through a strong global network of 76 subsidiary and associate companies, including Jaguar Land Rover in the UK and Tata Daewoo in South Korea. In India, Tata Motors has an industrial joint venture with Fiat. Engaged in engineering and automotive solutions, with a focus on future-readiness and a pipeline of tech-enabled products, Tata Motors is India's market leader in commercial vehicles and among the top in passenger vehicles with 9 million vehicles on Indian roads. The company's innovation efforts are focused on developing auto technologies that are sustainable as well as suited. With design and R&D centres located in India, the UK, Italy and Korea, Tata Motors strives to pioneer new products that fire the imagination of GenNext customers. Abroad, Tata cars, buses, and trucks are being marketed in Europe, Africa, the Middle East, South Asia, South East Asia, South America, Australia, CIS, and Russia.
