

## **Tata Power signs MoU with Enviro to deploy EV charging points in Gurugram**

*~ Under the Agreement, Tata Power will install 59 EV charging points at Vatika Group's properties spread across 18 locations ~*

**National, 10<sup>th</sup> March 2022:** Tata Power, one of India's leading electric-vehicle charging infrastructure providers, has collaborated with Enviro - the facility management wing of the NCR-based real estate developer Vatika Group to install 59 EV charging points at its properties across Gurugram, Haryana. The EV chargers will be installed at 18 locations across the properties of Vatika Group in Gurugram. These chargers will be made available as Public Charging Stations and Semi-Public based on the nature of the premises. As a result, commuters can have easy access to the chargers, thus encouraging them to use battery-powered vehicles. This collaboration will be vital in accelerating e-mobility adoption across EV users in NC National Capital Region (NCR).

On this occasion, **Mr Sandeep Bangia, Head- EV - Tata Power** said " *Our collaboration with the Vatika Group to deploy electric vehicle charging stations in Gurugram is proof of our relentless support to green mobility. The millennial city will see EV adoption at a far faster rate as a result of our partnership and will set an example for other cities in terms of EV adoption.*"

*"Latest estimate shows a need of more than 400000 EV charging stations in the country, by 2026. We at Enviro are equally excited about this collaboration with Tata Power, as this pre-empt's the customer's ever-growing curiosity regarding the EV. This would indeed increase the acceptability among the masses and push the use case for EV as the new choice".*

**Mr Ajay Kumar Singh, President and CEO, Enviro.**

Tata Power has been rapidly setting up EV charging infrastructure across the country, helping India adopt environment-friendly mobility. The company already has a partnership with Apollo Tyres, HPCL, TVS Motors, amã Stays & Trails, Lodha Group, and others to set up and enhance the EV charging infrastructure. The company has deployed over 1300 EV charging points across different cities under the EZ Charge brand along with a digital platform to facilitate an easy & smooth customer experience.

This network of public EV charging stations provides innovative and seamless EV charging experiences for EV customers across Offices, Malls, Hotels, Retail Outlets, and places of public access, enabling clean mobility and freedom from range anxiety.

Enviro has been a pioneer in Delhi – NCR ever since 2019, with the concept of E-Scooters and E-Rickshaws as a means of last-mile connectivity for the residential and commercial sites managed by the group.

**About Enviro:**

Enviro is an end-to-end integrated facility management services company adept with the latest technology, backed by App, SAAS and IOT that allows the Properties managed by us to perform efficiently and seamlessly. Enviro also looks into the sustainability of the environment, we are constantly making efforts to reduce the carbon footprints and adopt practices that conserve energy, such as solar power panels, vermicomposting, plantation drives etc. Our clientele spans across various industries from hospitality, real estate.

**About Tata Power:**

Tata Power (NSE: TATAPOWER; BSE:500400) is one of India's largest integrated power companies and together with its subsidiaries and jointly controlled entities, has an installed/managed capacity of 13,171 MW. The Company has a presence across the entire power value chain - generation of renewable as well as conventional power including hydro and thermal energy, transmission & distribution, coal & freight, logistics, and trading. The Company had developed the country's first Ultra Mega Power Project at Mundra (Gujarat) based on super-critical technology. With 4.3 GW of clean energy generation from solar, wind, hydro, and waste heat recovery accounting for 33% of the overall portfolio, the company is a leader in clean energy generation.

It has successful public-private partnerships in generation, transmission & distribution in India viz: Powerlinks Transmission Ltd. with Power Grid Corporation of India Ltd. for evacuation of Power from Tala hydro plant in Bhutan to Delhi, Maithon Power Ltd. with Damodar Valley Corporation for a 1,050 MW Mega Power Project at Jharkhand. Tata Power is currently serving more than 12 million consumers via its Discoms, under public-private partnership model viz Tata Power Delhi Distribution Ltd. with Government of Delhi in North Delhi, TP Northern Odisha Distribution Limited, TP Central Odisha Distribution Limited, TP Western Odisha Distribution Limited, and TP Southern Odisha Distribution Limited with Government of Odisha.

With a focus on sustainable and clean energy development, Tata Power is steering the transformation as an integrated solutions providers by looking at new business growth in distributed generation through rooftop solar and microgrids, storage solutions, EV charging infrastructure, ESCO, home automation & smart meters et al. With its 107 years track record of technology advancements, project execution excellence, world-class safety processes, customer care, and green initiatives, Tata Power is well poised for multi-fold growth and is committed to lighting up lives for generations to come.
