

Tata Power Renewable successfully commissions 150 MW Solar PV Project at Loharki, Rajasthan

National, India, August 24, 2021: Tata Power Renewable Energy Limited (TPREL), 100% subsidiary of Tata Power announced commissioning of 150 MW Solar Power project in Village Loharki, Rajasthan. Spreading across 756 acre of land, this landmark project has been completed by TPREL within the stipulated timelines. The plant is expected to generate more than 350 million units annually. Approximately 656,700 modules were used in the project and the installation is expected to reduce 3.34 lakh tons of carbon emission every year. For the smooth processing of the installation, 48 Inverters, 720 KM of DC cable and 550 manpower have been used in the project.

Speaking on the achievement, **Dr. Praveer Sinha, CEO & MD, Tata Power** said, “The commissioning of the 150 MW project in Loharki, Rajasthan has further fortified our position as one of the leading renewable energy company in the country with a strong presence in solar power generation. We will continue to seek potential of sustainable growth of renewable power in India.”

Despite the various COVID 19 challenges faced by the industry, TPREL through Tata Power’s EPC arm Tata Power Solar Systems Limited has successfully completed the project within the project timelines due to its excellent project execution experience & capabilities.

Power Purchase Agreement (PPA) was signed between TPREL & TPC-D. With this addition of 150 MW, the total renewables installed capacity of Tata Power will be 2947 MW with 2015 MW of Solar and 932 MW of wind. It has another 1084 MW of renewable projects under implementation.

About Tata Power:

Tata Power together with its subsidiaries and jointly controlled entities, has an installed / managed capacity of 13,061 MW. The Company has presence across the entire power value chain - generation of renewable as well as conventional power including hydro and thermal energy, transmission & distribution, coal & freight, logistics and power trading . With 4.2 GW of clean generation capacity from solar, wind, hydro and waste heat recovery accounting for 32% of the overall portfolio the company is committed to clean energy generation. It has successful public-private partnerships in generation, transmission & distribution in India viz: Powerlinks Transmission Ltd. with Power Grid Corporation of India Ltd. for evacuation of Power from Tala hydro plant in Bhutan to Delhi, Maithon Power Ltd. with Damodar Valley Corporation for a 1,050 MW Mega Power Project at Jharkhand. Tata Power is currently serving around 12 million consumers via its Discoms viz Tata Power Delhi Distribution Ltd. with Government of Delhi for distribution in North Delhi; TP Northern Odisha Distribution Limited, TP Central Odisha Distribution Limited, TP Western Odisha Distribution Limited and TP Southern Odisha Distribution Limited with Government of Odisha. With a focus on sustainable and clean energy development, Tata Power is steering the transformation into integrated solutions providers by looking at new business growth in distributed generation through rooftop solar and micro grids, storage solutions, EV charging infrastructure, ESCO, home automation & smart meters et al .
