Tata Power's Joint-Venture Maithon Power Limited (MPL) Commences flow of energy to Kerala on a Long Term Agreement basis

National, December 21st, 2015: Tata Power, India's largest integrated power company's Joint-Venture Maithon Power Limited [a Tata Power and DVC joint venture Company] completed its tie-up of power through Long term PPA with the commencement of power flow to Kerala State Electricity Board Ltd from 00.00 hrs of 17.12.2015. In what has happened as a major turnaround across the country, Southern region which was poorly connected with the NEW (Northern-Eastern-Western) grid has now enhanced its capacity with the commissioning of 765 KV and 400 KV lines.

This is considered as significant development for the 1050 MW Maithon Power Plant which could ultimately tie up the entire capacity of the station.

Speaking on the development, CEO & Executive Director of MPL, **Mr. K. Chandrashekhar** said "It's *indeed a significant development in the interest of consumers of Southern States of India in general, paving the way to wheel competitive power available from generating stations across India to leverage this newly commissioned corridor. We appreciate the new lines delivered by PGCIL. MPL too has benefited in firming up its un-allocated power and gave us the much needed impetus to now look forward to surge ahead with its expansion plan too. We take this opportunity to thank officials of KSEBL in pursuing the matter and we look forward to a long-term fruitful association with them*".

About Tata Power:

Tata Power is India's largest integrated power company with a growing international presence. The Company together with its subsidiaries and jointly controlled entities has an installed gross generation capacity of [8669] MW and a presence in all the segments of the power sector viz. Fuel Security and Logistics, Generation (thermal, hydro, solar and wind), Transmission, Distribution and Trading. It has successful public-private partnerships in Generation, Transmission and Distribution in India namely "Tata Power Delhi Distribution Limited" with Delhi Vidyut Board for distribution in North Delhi, 'Powerlinks Transmission Ltd.' with Power Grid Corporation of India Ltd. for evacuation of Power from Tala hydro plant in Bhutan to Delhi and 'Maithon Power Ltd.' with Damodar Valley Corporation for a 1050 MW Mega Power Project at Jharkhand. Tata Power has developed the country's first 4000 MW Ultra Mega Power Project at Mundra (Gujarat) based on super-critical technology. It is also one of the largest renewable energy players in India. Its international presence includes strategic investments in Indonesia through a 30% stake in the leading coal company PT Kaltim Prima Coal (KPC), 26% stake in mines at PT Baramulti Suksessarana Tbk ("BSSR") and a geothermal project; in Singapore through Trust Energy Resources to securitise coal supply and the shipping of coal for its thermal power generation operations; in South Africa through a joint venture called 'Cennergi' to develop projects in South Africa, Botswana and Namibia; in Australia through investments in enhanced geothermal and clean coal technologies and in Bhutan through a

hydro project in partnership with The Royal Government of Bhutan. With its track record of technology leadership, project execution excellence, world class safety processes, customer care and driving green initiatives, Tata Power is poised for a multi-fold growth and committed to 'lighting up lives' for generations to come.
