PAT	**765.21**	**366.89**	**108.57%**	**1,620.90**
PAT Margins %	**13.66%**	**11.36%**	-	**16.32%**
EPS (in ₹)	**8.61**	**5.65**	-	**20.87**

Speaking on the financial results, Mr. Yashvardhan Sumit Bajla, Managing Director, Taurian MPS Limited, said: *"At Taurian MPS Limited, we believe we are entering one of the most promising phases of our growth journey. Over the past few years, we have built a strong foundation through product innovation, manufacturing capabilities, international market development and strategic investments in human capital.* ***Having addressed key operational and working capital bottlenecks, we are now aggressively positioning ourselves to capitalise on the strong industry tailwinds across domestic and global markets.***

Our growth strategy is centred on strengthening the organisation with experienced leadership. Over the past year, we have onboarded senior professionals with over two decades of specialised experience across niche industrial segments, and we intend to continue building this talent pool. Simultaneously, we are expanding our international sales network by appointing experienced

regional sales heads and strengthening dealer relationships across key geographies. We believe this will significantly enhance our market reach, customer acquisition and order-book growth.

*One of the most important developments has been the **₹59.97 Crore fund-raise**, which has addressed a major working capital constraint that previously limited our ability to scale execution. With improved access to growth capital, we are better positioned to accelerate inventory and component procurement, shorten execution timelines and undertake a larger volume of orders. Alongside this, we are deploying capital towards expanding manufacturing capacity at our existing facility, allowing us to leverage our established infrastructure and improve operating efficiencies.*

Beyond our existing crushing, screening, washing and mineral-processing portfolio, we are actively exploring opportunities to apply our engineering capabilities to adjacent industries, including plastic waste processing and sewage waste management. We believe our technological expertise and product development capabilities provide a strong platform to enter these emerging segments over time.

***Our focus has now decisively shifted from building capabilities to accelerating growth.** With key bottlenecks addressed, an expanding global sales network, stronger leadership and planned capacity additions, **we are targeting topline growth of 45–50% CAGR over the coming years**. Supported by rising infrastructure investments, mining activity and demand for advanced processing equipment globally, we remain confident in our ability to scale operations, improve capital efficiency and create sustainable long-term value for our stakeholders."*

Fund-raise Update:

The Company successfully raised **₹59.97 Cr** through preferential allotment and warrants, comprising **₹20.94 Cr from promoters** and **₹39.03 Cr from non-promoters**. The proceeds are earmarked for working capital requirements (₹42.00 Cr), capital expenditure (₹10.22 Cr) and general corporate purposes (₹7.75 Cr), supporting its next phase of growth and expansion.

About Taurian MPS Limited:

Taurian MPS designs and manufactures a comprehensive range of crushing, screening and mineral-processing equipment including jaw, cone and vertical shaft impact (VSI) crushers, track-mounted mobile plants, and washing and classification systems serving aggregate producers, stone-crushing operators and mineral-processing customers across India and international markets.

Founded in 2010 and headquartered in Mumbai, the Company began by supplying aggregates and spare parts before transitioning into full-scale manufacturing under the Taurian brand. Its manufacturing base in Roorkee, Haridwar (Uttarakhand), has supported over 2,000 installations

across 20+ countries through a global dealer network of 25+ partners, with a presence spanning Uttarakhand, Karnataka, Chhattisgarh, Rajasthan, Gujarat, Maharashtra and several other Indian states, alongside export markets in the Gulf, the Caribbean and the Americas.
