TCS Positioned as a Leader in IoT Services by Zinnov

Report Recognizes Tata Consultancy Services' Capabilities in Strategy and Consulting, Engineering, Systems Integration and Deployment, and Managed Services and Support

SANTA CLARA | MUMBAI, July 1 , 2020: Tata Consultancy Services (TCS) (BSE: 532540, NSE: TCS), a leading global IT services, consulting and business solutions organization, has been named a Leader in the Zinnov Zones for Internet of Things (IoT) Services[1], for the fourth consecutive year.

The report recognized TCS' leadership in sub-service areas of IoT services such as – strategy and consulting, engineering, system integration and deployment, and managed services and support. TCS was also positioned as a leader in vertical-specific ratings across energy and utilities, retail, telecom and public infrastructure; and in use-case based ratings such as Industry 4.0, connected assets, connected products, connected worker and connected logistics.

"*Using our Bringing Life to Things™ IoT business framework, we are helping customers develop a clear path to value in their enterprise-wide growth and transformation initiatives,"* said **Regu Ayyaswamy, Global Head, IoT and Enterprise and Industrial Services, TCS**. *"This leadership positioning is a testament to our vision, innovation, capabilities, and value driven approach."*

Bringing Life to Things helps customers build predictive and self-aware systems that can sense and intelligently respond to changes in the physical environment. Using this framework, organizations can create new, boundaryless and pervasive business models, seamless customer experiences, optimized and responsive value chains, and enhanced safety and security at the workplace.

TCS offers a comprehensive portfolio of IoT services spanning strategy and consulting services, implementation, technical and business integration services, and post deployment managed services. With its deep contextual knowledge and engineering expertise, TCS supports enterprise-wide transformations across industries like manufacturing, consumer packaged goods, retail, energy, utilities, transportation, logistics, healthcare, hi-tech and telecom. A unique consulting-led Value Discovery Approach is used to develop a roadmap and identify the right use cases to derive maximum business benefits. TCS' proprietary IoT solutions include:

- **TCS Connected Workforce Safety Solution:** It creates a safer and trusted workplace, helping customers resume plant operations in the COVID-19 context and ensure business continuity. It provides digital safety fencing, real time health insights, proximity alerts and personal protection equipment monitoring and compliance, as well as other features that continuously enhance the productivity of the workforce.
- **TCS Gen-4 workAR:** An IoT and mixed reality connected worker solution that provides real-time contextual information for better decision support. It enables augmented collaboration with remote teams to improve operational efficiency at the work site.

[1] Zinnov Zones 2019: IoT Technology & Services, Sidhant Rastogi, Zinnov, October 2019

- **Image and Video Analytics Toolkit:** A comprehensive suite of perception-based classical video analytics and deep learning tools, and AI and computer vision accelerators to quickly build solutions for industry problems. Accelerators include face recognition, 2D object recognition, 3D position estimation of target subjects and optical/ handwritten character recognition.

"TCS is a leader in IoT Services with strong focus on Industry 4.0, Retail, and Telecom. The firm's wide set of offerings including connected products, connected factories, connected workforce and smart cities and its IoT consulting led approach has helped it drive enterprise business outcomes. Its wide connected partner ecosystem and growing focus on Platform, Industrial Analytics, Edge and Security offerings have help the firm in its positioning as well," said **Sidhant Rastogi, Partner & Practice Head, Zinnov.**

"*Our investments in innovation, deep contextual knowledge, vast portfolio of industry-specific solutions, and expanding partner ecosystem, make us a trusted strategic partner for enterprises in their digital transformation journeys,*" added **Regu Ayyaswamy.**

About Tata Consultancy Services Ltd. (TCS)

Tata Consultancy Services is an IT services, consulting and business solutions organization that has been partnering with many of the world's largest businesses in their transformation journeys for over 50 years. TCS offers a consulting-led, cognitive powered, integrated portfolio of business, technology and engineering services and solutions. This is delivered through its unique Location Independent Agile™ delivery model, recognized as a benchmark of excellence in software development.

A part of the Tata group, India's largest multinational business group, TCS has over 448,000 of the world's best-trained consultants in 46 countries. The company generated consolidated revenues of US $22 billion in the fiscal year ended March 31, 2020, and is listed on the BSE (formerly Bombay Stock Exchange) and the NSE (National Stock Exchange) in India. TCS' proactive stance on climate change and award-winning work with communities across the world have earned it a place in leading sustainability indices such as the Dow Jones Sustainability Index (DJSI), MSCI Global Sustainability Index and the FTSE4Good Emerging Index.
