Dear Sirs,

We are sending herewith copy of the Press Release titled “**TCS’ Supply Chain Solution Powers New Government Initiative to Double India’s Covid-19 Testing Capacity**” which will be disseminated shortly.

The Press release is self-explanatory.

Thanking you,

Yours faithfully,
For **Tata Consultancy Services Limited**

TCS' Supply Chain Solution Powers New Government Initiative to Double India's Covid-19 Testing Capacity

Tata Consultancy Services' Solution is Helping the Gov's C-CAMP Build, Manage and Scale an Ecosystem of MSMEs to Indigenously Produce a Million Covid-19 Test Kits a Day

MUMBAI, December 01, 2020: Tata Consultancy Services (TCS), (BSE: 532540, NSE: TCS), a leading global IT services, consulting and business solutions organization, announced that it has deployed a blockchain-based digital supply chain platform that powers an ambitious new project launched by the Government of India's Centre for Cellular and Molecular Platforms (C-CAMP) to scale up indigenous Covid-19 diagnostic test-kit production capacity to a million test kits a day.

C-CAMP's newly launched project, funded by the Rockefeller Foundation, is called Indigenisation of Diagnostics (InDx), and aims to build a robust, scalable supply-chain ecosystem of Indian MSMEs capable of producing large quantities of reagents and other components needed for RT-qPCR-based and other diagnostic test kits for Covid-19. The project entails eliminating supply-chain bottlenecks, and handholding MSMEs to help them bridge capability gaps, meet necessary quality standards and expand capacities to be able to indigenously produce a million test kits a day.

As C-CAMP's technology partner, TCS has developed and deployed a dynamic digital supply-chain platform to manage the MSME ecosystem, powered by the TCS Data Marketplace solution. The solution enables organizations to embrace new ecosystem-based business models, giving them the ability to democratize data and monetize it to create value. It facilitates standardized, controlled data exchanges across ecosystem participants with the necessary security and privacy protection, using blockchain at the back-end to ensure the immutability of audit logs.

This capability has been harnessed in the InDx project to build a supply-chain platform that aggregates test kit supply data of Tier 2 and 3 manufacturers of kits, enzymes, primers and antibodies, and provides ready visibility to Tier 1 suppliers as well as to C-CAMP on supplier-specific quality levels, capacities and inventories across the ecosystem, enabling the latter to respond to the demand for those test kits from the Government as testing programs are ramped up across the country.

"As a purpose-driven organization, we are delighted to partner with C-CAMP in this bold new initiative to scale up India's testing capacity, and make Covid-19 testing accessible to every Indian who needs it. The TCS Data Marketplace solution is the lynchpin that anchors InDx's supplier ecosystem of micro, small and medium enterprises, democratizing supplier data, enhancing supply-chain visibility, and driving superior outcomes for all stakeholders. The success of this initiative sets an example for how ecosystem-based partnerships can be put to work for other mission-mode programs of national importance," said **Dinanath Kholkar, Global Head – Analytics and Insights, TCS.**

About Tata Consultancy Services Ltd. (TCS)

Tata Consultancy Services is an IT services, consulting and business solutions organization that has been partnering with many of the world's largest businesses in their transformation journeys for over 50 years. TCS offers a consulting-led, cognitive powered, integrated portfolio of business, technology and engineering services and solutions. This is delivered through its unique Location Independent Agile™ delivery model, recognized as a benchmark largest of excellence in software development.

For immediate use **PRESS RELEASE**

A part of the Tata group, India's multinational business group, TCS has over 453,000 of the world's best-trained consultants in 46 countries. The company generated consolidated revenues of US \$22 billion in the fiscal year ended March 31, 2020 and is listed on the BSE (formerly Bombay Stock Exchange) and the NSE (National Stock Exchange) in India. TCS' proactive stance on climate change and award-winning work with communities across the world have earned it a place in leading sustainability indices such as the Dow Jones Sustainability Index (DJSI), MSCI Global Sustainability Index and the FTSE4Good Emerging Index.
