TCS Named a Large Player in Now Tech Report for Asia Pacific IoT Consultancies

Tata Consultancy Services is Helping Firms Deploy IoT Solutions at Scale, Accelerating Digital Transformation

SINGAPORE | MUMBAI, February 2, 2022: Tata Consultancy Services (TCS) (BSE: 532540, NSE: TCS) has been named in the Large Player market presence segment in the Forrester Now Tech: Internet of Things (IoT) Consultancies in APAC, Q1 2022¹.

The report provides an overview of 17 IoT service providers in Asia Pacific. According to the report, “Working with IoT consultancies shortens your time-to-value and helps you realize a future-fit technology strategy to make your organization more resilient, adaptive, and creative.”

The report said that TCS’ most significant geographic presence in Asia Pacific by revenue is across Japan (60%), South Asia and India (25%), ANZ (10%), and Southeast Asia (5%) and its vertical market focus is in Manufacturing, Consumer Packaged Goods and, Transportation and Logistics.

“TCS’ unique consulting-led approach, investments in domain-specific IoT solutions, and experienced talent pool, make it a preferred partner to enterprises looking to drive IoT-led innovation, enhance customer experience and accelerate their growth and transformation journeys,” said **Regu Ayyaswamy, Global Head, Internet of Things & Digital Engineering, TCS.**

TCS offers a comprehensive portfolio of IoT services spanning strategy and consulting services, implementation, technical and business integration services, and post deployment managed services. These services help organizations create new, boundaryless and pervasive business models, seamless customer experiences, optimized and responsive value chains, as well as enhance safety and security at the workplace.

Leveraging its [Bringing Life to Things™](#) IoT business framework and its deep domain knowledge across industry verticals, TCS has built a rich set of industry-specific IoT solutions with predictive and self-aware systems that use artificial intelligence (AI) and machine learning to sense and intelligently respond to changes in the physical environment.

These include:

- **TCS IP2™**: Combines IoT with AI and digital twin technologies to support critical assets, enhance reliability, improve flexibility, cut emissions, enable a better digital experience for workers, and help thermal power plant operators improve plant cycle efficiency by one to two percent.
- **TCS Clever Energy™**: An award-winning enterprise-level energy and emissions management system, powered by IoT, AI, machine learning and cloud, that helps commercial and industrial organizations drive energy and cost efficiency, decrease carbon emissions, and become more sustainable.
- **TCS DigiFleet™**: Award winning suite of solutions focused on providing real-time actionable insights for assets on the move, and helping organization reimagine supply chains. Powered by an IoT and AI-ML engine, the suite provides contextual and situational insights on fleet and supply chain operations by analyzing real-time data from the heterogeneous ecosystem. The suite offers modular, industry-specific features on software as a service model to accelerate digitalization of fleet and supply chains through two pre-built modules:
 - dPulse: Increases fleet reliability and utilization, helping reduce fuel and maintenance costs and driving sustainability strategies.

¹ Now Tech: IoT Consultancies in APAC, Q1 2022, Achim Granzen, Forrester Research, January 27, 2022

- dMove: Predicts supply chain disruptions in a multi-modal, multi-carrier network. It provides insights and unified visibility on route optimization, parcel condition and ETA prediction.

TCS uses these solutions to help customers in APAC solve their toughest problems, adopt new business models like servitization and gain agility from improved operational awareness.

About Tata Consultancy Services (TCS)

Tata Consultancy Services is an IT services, consulting and business solutions organization that has been partnering with many of the world's largest businesses in their transformation journeys for over 50 years. TCS offers a consulting-led, cognitive powered, integrated portfolio of business, technology and engineering services and solutions. This is delivered through its unique Location Independent Agile™ delivery model, recognized as a benchmark of excellence in software development.

A part of the Tata group, India's largest multinational business group, TCS has over 556,000 of the world's best-trained consultants in 46 countries. The company generated consolidated revenues of US \$22.2 billion in the fiscal year ended March 31, 2021 and is listed on the BSE (formerly Bombay Stock Exchange) and the NSE (National Stock Exchange) in India. TCS' proactive stance on climate change and award-winning work with communities across the world have earned it a place in leading sustainability indices such as the MSCI Global Sustainability Index and the FTSE4Good Emerging Index.
