TCS Launches Jile™ 5.0, a Major Release of its SaaS-based Enterprise Agile Tool, with Enhanced Portfolio Capabilities

Tata Consultancy Services' New Release is Available in Two Editions Catering to the Needs of Organizations at Different Maturity Levels, and Enables Better Collaboration

MUMBAI, July 06, 2021: Tata Consultancy Services (TCS) (BSE: 532540, NSE: TCS), a leading global IT services, consulting, and business solutions organization, launched [Jile™](#) 5.0, a major release of its on-the-cloud Enterprise Agile planning and delivery tool that enables enterprises to meet the large-scale development needs of multiple distributed teams. With enhanced Agile portfolio capabilities and Lean portfolio budgeting, Jile enables better collaboration and accelerates value creation.

Jile 5.0 enables organizations to better align execution with strategy by providing a unified view of portfolios and programs, helping business stakeholders and teams to collaborate effectively, and speeding up time-to-market for new software. Through its Lean portfolio budgeting, Jile further helps business stakeholders make informed investment decisions to achieve targeted business goals.

The new release is available in two editions: A Standard edition for medium and large enterprises that are beginning to scale agile practices to multiple team-of-teams, and an Enterprise edition for large enterprises that have mature agile practices and are looking at agility at the business layer. In addition to the features available in the Standard edition, the Enterprise edition allows teams to track budget allocation versus consumption as well as portfolio, program, and team performance using customizable dashboards.

Durga Maruwada, Business Head, Jile, TCS, said, *“With its intuitive user interface, Jile is easy to learn and enables our customers to embrace industry-proven Agile methods and frameworks across the enterprise and accelerate their growth and transformation journeys. The new release of Jile comes in two editions catering to the needs of organizations at different maturity levels, and helps customers manage their portfolios better to align execution with strategy.”*

The Standard and Enterprise editions have a free trial of 30 days for 20 users. For more information, please visit <https://www.jile.io/pricing>.

About Jile™

Jile is an Enterprise Agile planning and delivery tool on the cloud to help enterprises in building and shipping reliable software faster to the market. Jile enables enterprises in any stage of their Agile transformation journey to grow and continuously evolve by making it easier to plan, develop, and deliver high quality software—which accelerates value delivery—and supports innovation, reduces the time to market, increases efficiency, and aligns software delivery with business initiatives. Jile is a product offering from Tata Consultancy Services Ltd. Visit www.jile.io for more information.

About Tata Consultancy Services

Tata Consultancy Services is an IT services, consulting and business solutions organization that has been partnering with many of the world's largest businesses in their transformation journeys for over 50 years. TCS offers a consulting-led, cognitive powered, integrated portfolio of business, technology and engineering services and solutions. This is delivered through its unique Location Independent Agile™ delivery model, recognized as a benchmark of excellence in software development.

A part of the Tata group, India's largest multinational business group, TCS has over 488,000 of the world's best-trained consultants in 46 countries. The company generated consolidated revenues of US \$22.2 billion in the fiscal year ended March 31, 2021, and is listed on the BSE (formerly Bombay Stock Exchange) and the NSE (National Stock Exchange) in India. TCS' proactive stance on climate change and award-winning work with communities across the world have earned it a place in leading sustainability indices such as the MSCI Global Sustainability Index and the FTSE4Good Emerging Index.
