TPT South Africa Partners with TCS for Pioneering Logistics Supply Chain Transformation

Tata Consultancy Services to Help TPT Develop an Integrated Online Logistics Marketplace Platform, a First of its Kind in Africa

JOHANNESBURG | MUMBAI, September 7, 2020: Tata Consultancy Services (TCS) (BSE: 532540, NSE: TCS), a leading global IT services, consulting and business solutions organization, has partnered with Transnet Port Terminals (TPT) in South Africa, part of Transnet SOC Ltd, a state-owned freight transport and handling company, to help the latter develop an integrated online marketplace platform by bringing together cargo owners, shipping lines, clearing and forwarding agents, and road/rail haulers.

TPT saw an opportunity to simplify the South African logistics market by creating a connected portal that would provide comprehensive logistics information to cargo owners and logistics players. It partnered with TCS to create the new platform named Cargo Connect, which will function as an online logistics marketplace where customers can submit logistics related requests and allow service providers to bid online. Customers will be able to select the preferred proposal and award the cargo contract to that bidder.

This will make the entire request and bid selection process completely transparent, delivering greater value to TPT's customers. The platform will also help customers remotely track the cargo at every point of the container journey and send automated alerts with critical information, whenever a cargo event occurs. Expected to be ready in 12 months, the Cargo Connect marketplace will reshape the industry and drive TPT's growth.

Sharla Chetty, Chief Information Officer, TPT, said, *"A major feature of this solution is a logistics marketplace which will function in the same manner as existing market platforms in the transportation and hospitality industry. Customers could tender logistics requests on the platform and allow logistics service providers to bid and potentially be selected to undertake a logistics service."*

Siyabulela Mhlaluka, General Manager, Sales and New Business Development, TPT, said: *"We chose TCS for, amongst other things, its deep domain knowledge, technology expertise and reputation as a global leader in IT services, consulting and business solutions. The new solution will help us bring all logistics players under one platform, create transparency in the industry, as well as power the next leg of our growth journey."*

"TCS has been partnering with progressive organizations across the world to develop new technology-enabled business models that power their growth and transformation journeys," said **Sumanta Roy, Head, TCS Middle East, Africa, and Mediterranean.** *"We are delighted to work with TPT in bringing to life this innovative idea, using state of the art digital technologies and agile processes, and establishing the first such marketplace in Africa."*

About Tata Consultancy Services Ltd. (TCS)

Tata Consultancy Services is an IT services, consulting and business solutions organization that has been partnering with many of the world's largest businesses in their transformation journeys for over 50 years. TCS offers a consulting-led, cognitive powered, integrated portfolio of business, technology and engineering

services and solutions. This is delivered through its unique Location Independent Agile™ delivery model, recognized as a benchmark of excellence in software development.

A part of the Tata group, India's largest multinational business group, TCS has over 443,000 of the world's best-trained consultants in 46 countries. The company generated consolidated revenues of US \$22 billion in the fiscal year ended March 31, 2020, and is listed on the BSE (formerly Bombay Stock Exchange) and the NSE (National Stock Exchange) in India. TCS' proactive stance on climate change and award-winning work with communities across the world have earned it a place in leading sustainability indices such as the Dow Jones Sustainability Index (DJSI), MSCI Global Sustainability Index and the FTSE4Good Emerging Index.
