TCS Named 2021 MongoDB Global System Integrator Partner of the Year

Tata Consultancy Services Recognized for Leveraging its IP-based Solutions, Such as TCS MasterCraft™ TransformPlus to Accelerate Mainframe Offload to MongoDB and Drive Innovation

NEW YORK | MUMBAI, August 13, 2021: Tata Consultancy Services (TCS) (BSE: 532540, NSE: TCS), a leading global IT services, consulting and business solutions organization, has been named the MongoDB Global System Integrator Partner of the Year for its bold, innovative solutions that accelerate the growth and transformation journeys for businesses across industries.

TCS has been partnering with leading enterprises across the world in their application and data modernization initiatives as part of their multi-horizon cloud transformation journeys. It has been building innovative new applications that leverage the power of MongoDB's flexible document model to easily manage large datasets of structured as well as unstructured data and derive insights to enhance customer experience.

Enterprises embarking on digital transformation often find that their legacy systems of record, particularly monolithic mainframe systems, are inadequate to meet the increasing demands of volume, speed, and data diversity of their modern digital systems of engagement. Re-architecting and rewriting these applications can be time consuming, expensive, and risky. Consequently, they often prefer a tools-driven refactoring approach to intelligently automate code conversion.

TCS MasterCraft™ TransformPlus automates the migration of legacy applications and databases to modern, cloud or on-premises architectures, and to SQL or non-relational databases such as MongoDB. TransformPlus extracts business logic from legacy mainframe systems as a convertible, document data model for deployment. This makes extraction faster, easier, and more economical, and reduces the risk that comes with rewriting legacy applications. This, along with MongoDB's document data model platform, can help make development cycles up to 5 times faster. Businesses can drive innovation faster, cut costs by 70% or more, and reduce their risk at the same time.

*"We are pleased to recognize TCS as our Global System Integrator Partner of the Year," said **Alan Chhabra, Senior Vice President, Worldwide Partners, MongoDB**. "We're working closely with TCS to radically simplify and accelerate our customers' journey to the cloud. TCS MasterCraft's intelligent automation is helping migrate enterprise-level mainframe applications to MongoDB's leading application data platform. Streamlining and protecting data, while also laying the foundation for future success."*

*"TCS provides full scale modernization services to global enterprises, ranging from consulting and strategizing to execution. With the help of TCS MasterCraft products, TCS has industrialized multi-platform application development, as well as the end-to-end migration of application code and databases," said **Vijayalakshmi Gopal, Business Head, TCS MasterCraft**. "Our partnership with MongoDB helps enterprises accelerate the modernization and migration of their mainframe workloads, resulting in innovative new systems, greater agility, enhanced customer experience and competitive differentiation."*

About TCS MasterCraft™

TCS MasterCraft™ is TCS' suite of intelligent automation products that optimizes IT service delivery. The suite has three products, namely **TCS MasterCraft DevPlus** (for continuous delivery lifecycle management), **TCS MasterCraft TransformPlus** (for application analysis, modernization and

development) and **TCS MasterCraft DataPlus** (for enterprise data privacy and quality). The products have been used by 330+ customers across 840+ projects in TCS. The products are the outcome of TCS' decades of investment in research and development in automation, and experience in delivering various service delivery projects over the years. For more information on MasterCraft products, visit <https://mastercraft.tcsapps.com>.

About Tata Consultancy Services (TCS)

Tata Consultancy Services is an IT services, consulting and business solutions organization that has been partnering with many of the world's largest businesses in their transformation journeys for over 50 years. TCS offers a consulting-led, cognitive powered, integrated portfolio of business, technology and engineering services and solutions. This is delivered through its unique Location Independent Agile™ delivery model, recognized as a benchmark of excellence in software development.

A part of the Tata group, India's largest multinational business group, TCS has over 500,000 of the world's best-trained consultants in 46 countries. The company generated consolidated revenues of US \$22.2 billion in the fiscal year ended March 31, 2021 and is listed on the BSE (formerly Bombay Stock Exchange) and the NSE (National Stock Exchange) in India. TCS' proactive stance on climate change and award-winning work with communities across the world have earned it a place in leading sustainability indices such as the MSCI Global Sustainability Index and the FTSE4Good Emerging Index.
