TCS Named a Leader in SAP Cloud Migration Services by NelsonHall

Tata Consultancy Services' Crystallus™ Offering, Industry Cloud Focus, Tools and Automation Assets, and Broad SAP ERP Cloud Migration Experience, Highlighted as Key Strengths

LONDON | MUMBAI, March 17, 2021: Tata Consultancy Services (TCS), (BSE: 532540, NSE: TCS), a leading global IT services, consulting and business solutions organization, has been positioned as a Leader in the NelsonHall NEATs for SAP Cloud Migration Services, including SAP S/4HANA Transformation Services and Legacy Migration Services[1].

The report cites TCS' Crystallus™ offering and industry cloud focus, tools and automation assets to support the full migration lifecycle, and broad SAP ERP cloud migration experience, as key strengths.

"*TCS has been helping enterprises embark on purpose-led transformation journeys by building a future-ready, cloud-based digital core leveraging S/4HANA and facilitating innovation through new business models and transformation*," said **Akhilesh Tiwari, Global Head, Enterprise Application Services, TCS.** "*This Leadership positioning by an independent, third-party research firm is a testament to our vision, strategic focus on cloud and related services, deep expertise in SAP technologies, investments in innovation and intellectual property, and the resultant market success*."

TCS combines its market leading cloud capabilities with industry insights, its Machine First™ delivery model (MFDM™), proprietary tools and accelerators, and a contextualized client-centric approach to help customers accelerate their transformation journeys. TCS has streamlined its cloud services business into five strategic units – Amazon Web Services, Microsoft Azure, Google Cloud, TCS' own private cloud, and a cloud consulting arm, to help customers create and execute their cloud strategies. TCS' comprehensive SAP cloud services portfolio covers strategy, design, migration and modernization, implementation, business continuity and benefit realization.

TCS Crystallus is a set of pre-configured industry and business solutions that accelerate SAP S/4HANA-enabled digital transformations, giving enterprise customers a competitive edge. The ready-to-deploy solutions include assets and accelerators that kick-start enterprises' digital transformation journeys leveraging intelligent technologies and SAP S/4HANA as the digital core. The solutions ensure faster and superior business outcomes with reduced risks and assured business continuity during the transformation.

TCS leverages a host of automation tools across the conversion lifecycle. TCS Datasure helps migrate high volumes of master and transaction data from a legacy environment into the cloud, while an automated code remediation tool shortens the conversion timeline and enables effective tracking, and industry-specific test suites ensure accelerated and compliant deployment.

"*TCS is focusing on building capabilities and offerings that align with the growing demand from clients for cloud adoption along with business transformation. Migrating SAP to the cloud requires consulting, planning, and a tailored execution, specifically designed to an industry's requirements. TCS Crystallus positions it well to support clients across industry sectors as they seek to modernize their ERP landscapes*," said **David McIntire, IT Services Research Director, NelsonHall.**

TCS' SAP related services include design thinking, advisory, innovation consulting, implementation, and other digital support services. TCS help customers evaluate newer digital offerings such as SAP S/4HANA®, SAP® C/4HANA, SAP® SuccessFactors, SAP® Ariba, and SAP® Cloud Platform, SAP® HANA Data Management Suite and define their roadmap, architecture and strategy. Its innovation and demo centers in Cincinnati-US, Paris-France, Mumbai-India and Tokyo-Japan help customers gain a first-hand experience of SAP's new products and global innovations through a digital transformation ecosystem.

About NelsonHall

NelsonHall is the leading global analyst firm dedicated to helping organizations understand the 'art of the possible' in digital operations transformation. With analysts in the U.S., U.K., and Continental Europe, NelsonHall provides buy-side organizations with detailed, critical information on markets and vendors (including NEAT assessments) that helps them make fast and highly informed sourcing decisions. And for vendors, NelsonHall provides deep knowledge of market dynamics and user requirements to help them hone their go-to-market strategies. NelsonHall's research is based on rigorous, primary research, and is widely respected for the quality, depth and insight of its analysis.

About Tata Consultancy Services Ltd. (TCS)

Tata Consultancy Services is an IT services, consulting and business solutions organization that has been partnering with many of the world's largest businesses in their transformation journeys for over 50 years. TCS offers a consulting-led, cognitive powered, integrated portfolio of business, technology and engineering services and solutions. This is delivered through its unique Location Independent Agile™ delivery model, recognized as a benchmark of excellence in software development.

A part of the Tata group, India's largest multinational business group, TCS has over 469,000 of the world's best-trained consultants in 46 countries. The company generated consolidated revenues of US $22 billion in the fiscal year ended March 31, 2020, and is listed on the BSE (formerly Bombay Stock Exchange) and the NSE (National Stock Exchange) in India. TCS' proactive stance on climate change and award-winning work with communities across the world have earned it a place in leading sustainability indices such as the Dow Jones Sustainability Index (DJSI), MSCI Global Sustainability Index and the FTSE4Good Emerging Index.
