TCS Recognized as a Leader in IDC MarketScape for Asia-Pacific Cloud Security Services

According to the Report, Tata Consultancy Services Has One of the Most Comprehensive Cloud Security Portfolios in the Market, Addressing the Entire Lifecycle Stages of Cloud Adoption

SINGAPORE | MUMBAI, July 19, 2021: Tata Consultancy Services (TCS) (BSE: 532540, NSE: TCS), a leading global IT services, consulting and business solutions organization, has been positioned as a Leader in the IDC MarketScape for Asia/Pacific Cloud Security Services[1].

According to the report, "TCS has one of the most comprehensive cloud security portfolios in the market, addressing the entire lifecycle stages of cloud adoption." It goes on to say, "Having worked with clients from various industries and sectors, TCS is able to bring what it considers 'contextual knowledge' to develop product and service packages that fit clients' needs in the region."

"*The speed of evolution of cyber threats in the cloud ecosystem is increasingly seen as the biggest risk to enterprises. TCS' innovative and responsive suite of services and solutions helps enterprises secure their cloud-led transformations and become cyber resilient,"* said **Santha Subramoni, Global Head, Cyber Security, TCS**. "*Our positioning as a Leader is a reflection of our vision and strategy, capabilities, strong focus on delivering purpose-driven solutions and the resultant market impact*."

TCS offers comprehensive, state-of-the-art, consulting-led cloud security services, which are highly digitized and tailor-made to client requirements. These offerings help customers in Asia/Pacific design a Zero-Trust based resilient architecture, modernizing their business, IT and security stack, build cloud-agnostic solutions, extend enterprise security to the cloud and design automated and vigilant operations.

TCS offers a full suite of security services around areas such as managed detection and response, identity and access management, enterprise vulnerability management, governance, risk and compliance, data privacy and protection, digital forensics and incident response, cloud security, data security and IT/OT security services.

Additionally, TCS addresses customers' security needs, ensuring business resilience and agility with a zero trust framework as well as various solutions, tools and platforms, including a cyber vigilance platform, automated vulnerability remediation platform, consent management solution, vendor risk management solution and a digital identity as a managed service platform – TCS IdentiFence™. TCS' Threat Management Centers located across the globe help customers with rapid and expert security services locally, while ensuring compliance with local data protection laws. Customers are partnering with TCS to secure their digital transformations and proactively defend their digital estate from cyber-attacks and vulnerabilities.

About IDC MarketScape

IDC MarketScape vendor assessment model is designed to provide an overview of the competitive fitness of ICT (information and communications technology) suppliers in a given market. The research methodology utilizes a rigorous scoring methodology based on both qualitative and quantitative criteria that results in a single graphical illustration of each vendor's position within a given market. IDC MarketScape provides a clear framework in which the product and service offerings, capabilities and strategies, and current and
