## **TCS Introduces New Version of its Cloud Assurance Platform Services for Microsoft Azure**

*Curated Version of Tata Consultancy Services' Comprehensive Solution Automates Application and Infrastructure Testing for Superior Customer Experience*

**MUMBAI, January 21, 2021:** Tata Consultancy Services (TCS) (BSE: 532540, NSE: TCS), a leading global IT services, consulting and business solutions organization, has introduced a curated version of its Cloud Assurance Platform services for organizations embarking on cloud migration or modernization with Microsoft Azure.

Complex cloud modernization programs carry risks ranging from infrastructure configuration and application integration issues to performance bottlenecks. TCS' Cloud Assurance Platform services address these issues with holistic automated test coverage which includes automated infrastructure testing, data migration validation, functional and non-functional testing, thus equipping organizations with the ability to benchmark key business goals. Its comprehensive, automated Azure test suite enables 100% test coverage and is known to deliver over 70% improvement in speed to market.

TCS' Quality Engineering and Transformation (QET) Platform services incorporate its Machine First™ and factory-based approach to quality, resulting in leaner and faster assurance processes across both infrastructure and applications for Microsoft Azure. The assembly line approach entails a step-wise migration of each application to Azure, with assurance services performed at each step to ensure no rollback is required at a later stage, thereby accelerating outcomes, reducing business impact and lowering cost.

Through its intelligent strategy recommendation engine and a robust automation ecosystem, TCS' Cloud Assurance Platform services solve major bottlenecks when it comes to modernization programs and ensure accelerated and optimal testing. Furthermore, TCS offers organizations elasticity in procurement, predictability in cost and reduction of capex through a subscription-based commercial model.

*"Enterprises require a comprehensive assurance ecosystem in place to manage risks while ensuring the business goals of the modernization are met," said Siva Ganesan, Global Head, Microsoft Business Unit, TCS. "The purpose driven focus of TCS' Cloud Assurance Platform services curated for Microsoft Cloud helps assure certainty across an organization's cloud journey."*

**Karamsetty Prabhakar, Global Head, Quality Engineering & Transformation Unit, TCS,** said *"The success of modernization programs is heavily dependent on designing and implementing a robust quality architecture which can assure business objectives. Our offering equips customers with an on-demand automated assurance ecosystem to ensure quality, resilience, flexibility and agility."*

---

### **About Tata Consultancy Services Ltd. (TCS)**

Tata Consultancy Services is an IT services, consulting and business solutions organization that has been partnering with many of the world's largest businesses in their transformation journeys for over 50 years. TCS offers a consulting-led, cognitive powered, integrated portfolio of business, technology and engineering

services and solutions. This is delivered through its unique Location Independent Agile™ delivery model, recognized as a benchmark of excellence in software development.

A part of the Tata group, India's largest multinational business group, TCS has over 469,000 of the world's best-trained consultants in 46 countries. The company generated consolidated revenues of US \$22 billion in the fiscal year ended March 31, 2020, and is listed on the BSE (formerly Bombay Stock Exchange) and the NSE (National Stock Exchange) in India. TCS' proactive stance on climate change and award-winning work with communities across the world have earned it a place in leading sustainability indices such as the Dow Jones Sustainability Index (DJSI), MSCI Global Sustainability Index and the FTSE4Good Emerging Index.
