TCS Named a Leader in IDC MarketScape for Supply Chain Oracle Ecosystems Services

Tata Consultancy Services' SCM Services, Consulting-led Approach, and Extensive Digital Capabilities, Highlighted as Key Strengths

NEW YORK | MUMBAI, May 24, 2021: Tata Consultancy Services (TCS) (BSE: 532540, NSE: TCS), a leading global IT services, consulting and business solutions organization, has been positioned as a Leader in the IDC MarketScape for Worldwide Supply Chain Oracle Ecosystems Services¹.

According to the report, "TCS SCM services are deeply rooted in Ecosystem Thought Leadership and delivered in a consulting-led approach that leverages its extensive digital capabilities." It goes on to say that "Manufacturers in industries such as automotive, high tech, heavy machinery, and life sciences with a focus on application development, systems implementation, or business process outsourcing should consider TCS when looking for a partner that can drive Oracle Supply Chain Management (SCM) value and supply chain transformation on a global scale."

"TCS' consulting-led, Oracle-centric transformations help drive supply chain resiliency for our clients, an issue of critical importance to today's boardrooms. We help customers transform and de-risk their supply chains by making them responsive and adaptable. Our SCM transformations on the Oracle platforms harness our domain and technology expertise, deep customer contextual knowledge, partner ecosystem and global presence to deliver agile, intelligent and connected supply networks for our customers," said **Dave Jordan, Global Head, Consulting & Services Integration, TCS**. *"Being named a Leader in the IDC MarketScape is a reflection of our vision, strategy, comprehensive portfolio of consulting-led solutions, and the resultant market success."*

TCS' Oracle supply chain ecosystem solutions drive both value definition and value realization for clients. Its solutions span across technology, key horizontals, and the major functions of the supply chain. TCS utilizes best of breed Oracle applications, leverages digital capabilities, and incorporates industry-leading practices and standards into its solutions. TCS' 360-degree partnership with Oracle is built on a powerful framework of co-innovation and delivery, and transforms its clients' supply chains using framework-based business solutions.

The TCS Enterprise Navigator™ framework includes assessment tools, industry benchmarking, change management, location independent agile, TCS PACE™ and intelligent enterprise related accelerators such as MFDM™, BizDevOps tools and process monitoring dashboards. TCS' large team of global Oracle practitioners bring contextual knowledge, domain, industry, and product expertise to drive Oracle-enabled solutions across the supply chain.

TCS' Supply Chain practice envisions, designs, and builds digital enterprise supply networks which are adaptive, non-linear, omnidirectional, real-time sense and respond networks. TCS is advising, designing, and creating supply chain strategies for customers to operate in today's environment while thinking and building for the future.

TCS' Oracle services portfolio encompasses interactive design, advisory, consulting and implementation services. The company helps customers evaluate digital offerings across SaaS, PaaS and IaaS and define their roadmap including architecture and strategy for modernization and innovation. TCS' pre-configured industry solutions provide an insight-driven and digitally integrated platform to accelerate customer

journeys to the cloud. TCS' solutions enable enterprises to confidently embrace digital technologies as part of their ecosystems so they can benefit from innovation and agility.

About IDC Marketscape

IDC MarketScape vendor analysis model is designed to provide an overview of the competitive fitness of ICT (information and communications technology) suppliers in a given market. The research methodology utilizes a rigorous scoring methodology based on both qualitative and quantitative criteria that results in a single graphical illustration of each vendor's position within a given market. IDC MarketScape provides a clear framework in which the product and service offerings, capabilities and strategies, and current and future market success factors of IT and telecommunications vendors can be meaningfully compared. The framework also provides technology buyers with a 360-degree assessment of the strengths and weaknesses of current and prospective vendors.
