TCS MasterCraft™ Products are Now Available on the Microsoft Azure Marketplace

Tata Consultancy Services' Suite of Intelligent Automation Products Will Help Enterprises Speed-up their Application Modernization and Accelerate their Movement to the Cloud

MUMBAI, August 24, 2021: Tata Consultancy Services (TCS), (BSE: 532540, NSE: TCS), a leading global IT services, consulting, and business solutions organization, announced that TCS MasterCraft™, a suite of intelligent automation products that optimize IT service delivery, is now available on the Microsoft Azure Marketplace. Additionally, MasterCraft TransformPlus, TCS' intelligent automation product for end-to-end enterprise application modernization, has been listed as a Microsoft preferred solution. Enterprises can choose the solution for accelerating application and data modernization, while embarking on their cloud transformation journey.

Using TCS MasterCraft TransformPlus, organizations can analyze their legacy mainframe and distributed applications for cloud-readiness and migrate them to Azure through automated refactoring. They can build new, cloud-ready application components using microservices architecture and containerize their applications. Organizations can also seamlessly migrate their data from legacy to one or more new-age databases. This significantly speeds up modernization initiatives, and thereby accelerates enterprises' move to the cloud. The MasterCraft product suite is also 'IP co-sell ready' on Azure Marketplace, which further increases the availability of the offerings for Azure customers.

Vijayalakshmi Gopal, Business Head, TCS MasterCraft, said, *"The TCS MasterCraft suite's availability on Azure Marketplace will now enable the vast community of Microsoft customers to harness the power of intelligent automation to accelerate their migration to the cloud and power their growth and transformation*."

TCS is a Microsoft Gold Competency Partner, the highest-level in the Microsoft Partner Network community, and has best-in-class capabilities to deploy an array of Microsoft business solutions. Additionally, it is a designated Microsoft Azure Expert Managed Service Partner, recognizing TCS' proven expertise in delivering the highest quality of service on Azure. Recently, TCS won two 2021 Microsoft Partner of the Year Awards – Azure Intelligent Cloud in France and Dynamics 365 Field Service in the US, for demonstrating excellence in innovation and providing outstanding solutions and services based on Microsoft technology.

About Tata Consultancy Services (TCS)

Tata Consultancy Services is an IT services, consulting and business solutions organization that has been partnering with many of the world's largest businesses in their transformation journeys for over 50 years. TCS offers a consulting-led, cognitive powered, integrated portfolio of business, technology and engineering services and solutions. This is delivered through its unique Location Independent Agile™ delivery model, recognized as a benchmark of excellence in software development.

A part of the Tata group, India's largest multinational business group, TCS has over 500,000 of the world's best-trained consultants in 46 countries. The company generated consolidated revenues of US $22.2 billion in the fiscal year ended March 31, 2021 and is listed on the BSE (formerly Bombay Stock Exchange) and the NSE (National Stock Exchange) in India. TCS' proactive stance on climate change and award-winning work with communities across the world have earned it a place in leading sustainability indices such as the MSCI Global Sustainability Index and the FTSE4Good Emerging Index.
