TCS Recognized as a Leader in Gartner® Magic Quadrant™ for Data Center Outsourcing & Hybrid Infrastructure Managed Services, Global

Tata Consultancy Services Leverages its Strong Investments in Agile Data Center Offerings, Hyper Automation and Cloud to Help Customers Achieve Scalability, Agility, and Operational Excellence

NEW YORK | MUMBAI, October 26, 2021: Tata Consultancy Services (TCS) (BSE: 532540, NSE: TCS), a leading global IT services, consulting and business solutions organization, has been positioned as a Leader in the Gartner Magic Quadrant for Data Center Outsourcing (DCO) and Hybrid Infrastructure Managed Services, Global¹. In an assessment of 19 global DCO and hybrid infrastructure service providers, TCS is positioned highest for Ability to Execute.

"With the dramatic impact that distributed applications, cognitive technologies, data proliferation, and work from home dynamics have on the adoption of digital business models, enterprises need to transform their IT infrastructure core and embrace a hybrid infrastructure fabric that delivers secure, scalable, agile, resilient and intelligent operations," said Krishnan Ramanujam, Business Group Head, Business & Technology Services, TCS. "We believe our continued leadership position in this assessment over the years is a reflection of our vision, strategy, comprehensive capabilities, investments in innovative, future-ready and differentiated hybrid infrastructure offerings, and the resultant market success."

TCS helps enterprises achieve their digital transformation agendas with TCS Cognix™, an AI-driven human-machine collaboration suite. TCS Cognix for Agile Infrastructure helps enterprises manage their core data centers autonomously, while also modernizing the digital infrastructure. It delivers agile, resilient, and scalable operations.

Powered by the Machine First™ Delivery Model (MFD™), it uses an ecosystem of pre-built, configurable, and reusable digital solutions called value builders, which are contextualized by harnessing know-how from a vast expanse of customer operations. Some examples of value builders are a container maturity analyzer, Edge orchestrator, infrastructure stack deployer and system security qualifier.

TCS enables hybrid infrastructure delivery models for customers by leveraging its investments in private cloud infrastructure and partnerships with all major public cloud providers. These include:

1. **TCS Enterprise Cloud:** Provides end-to-end full stack dynamic hybrid cloud services that enable enterprises to build and synergize their cloud strategies accelerating business value with new business models. The enterprise cloud platform TCS Alpha is integrated with software-defined and Platform as a Service capabilities, enabling automation and resilience at all levels. The TCS Enterprise Cloud also supports its industry solutions such as TCS Optumera™, TCS BaNCS™, and TCS Advanced Drug Discovery (ADD).
2. **AWS Cloud Services:** TCS' AWS Business Unit focuses on delivering full-stack enterprise transformation on the cloud, ensuring superior business outcomes to every business stakeholder in a global enterprise. The multidisciplinary group provides a comprehensive suite of offerings spanning cloud advisory, migration, application and infrastructure modernization, SAP, data and analytics, storage, security, and specific industry solutions powered with next-generation technologies like AI/ML, Edge/IoT, serverless, and low-code/no-code. The TCS-AWS partnership

¹ Magic Quadrant for Data Center Outsourcing and Hybrid Infrastructure Managed Services, Global, Claudio Da Rold, Stephanie Stoudt-Hansen, Alexandra Chavez, DD Mishra, Gartner, July 26, 2021

is powered by a decade of joint value creation, deep industry knowledge, technology expertise, and delivery wisdom. TCS is an AWS Premier Consulting and Global Reseller Partner. TCS has 21 solutions and 33 managed services on AWS, along with 12 AWS competencies and service deliveries and over 8,000 AWS certifications.

3. **Microsoft Azure Services:** TCS' Microsoft Business Unit offers services to help organizations leverage the power of AI, automation and cloud to accelerate Business 4.0™ transformations. TCS has built future-ready industry solutions on Azure to accelerate transformation journeys for customers with cloud as the unifying digital fabric. TCS focuses on digital reimagination of workplaces, effective implementation of business processes, and building edge-to-cloud solutions, leveraging its deep domain expertise and capabilities on Microsoft Azure, Microsoft 365, Dynamics 365 and Power Platform.
4. **Google Cloud Services:** TCS offers a full complement of services and solutions leveraging its domain-focused innovation and Google Cloud's suite of technologies. These services help companies achieve superior business outcomes from cloud transformation initiatives to gain resilience, better customer experience and the flexibility of an open, scalable, and democratized ecosystem. TCS has a rich suite of cloud accelerators rendered on the Google Garage, a digital lab that allows sprinting for experimentation with an experiential and immersive experience. TCS has seven specializations – Application Development, Infrastructure, Work Transformation – Enterprise, Data Analytics, Machine Learning, Cloud Migration and Security as well as 58 Expertise Badges.

About Tata Consultancy Services (TCS)

Tata Consultancy Services is an IT services, consulting and business solutions organization that has been partnering with many of the world's largest businesses in their transformation journeys for over 50 years. TCS offers a consulting-led, cognitive powered, integrated portfolio of business, technology and engineering services and solutions. This is delivered through its unique Location Independent Agile™ delivery model, recognized as a benchmark of excellence in software development.

A part of the Tata group, India's largest multinational business group, TCS has over 528,000 of the world's best-trained consultants in 46 countries. The company generated consolidated revenues of US \$22.2 billion in the fiscal year ended March 31, 2021, and is listed on the BSE (formerly Bombay Stock Exchange) and the NSE (National Stock Exchange) in India. TCS' proactive stance on climate change and award-winning work with communities across the world have earned it a place in leading sustainability indices such as the MSCI Global Sustainability Index and the FTSE4Good Emerging Index.
