Tata Consultancy Services Recognized as a Leader in SAP and Oracle Application Management Services by Gartner

New York | Mumbai, October 29, 2013: Tata Consultancy Services (TCS), (BSE: 532540, NSE: TCS) a leading IT services, consulting and business solutions organization, today announced that it has been positioned in the Leaders quadrant of the 'Gartner Magic Quadrant Application Management Service Providers, Worldwide' reports for both SAP and Oracle, which were released on October 3, 2013.

TCS views its inclusion in the Leaders quadrant for SAP Application Management Services as a reflection of its broad industry vertical coverage, wide partnerships and joint go-to-market strategies. Moreover, its strengths in customer relationship management and extensive investments in SAP application management services tools and accelerators. Similarly, for Oracle Application Management Services, TCS feels its position in the Leaders quadrant is indicative of its strong service offerings and capabilities, respected technical and software package expertise, consistent growth in a large number of industries, and continued investments in new markets.

-"It is an honor for us to be recognized by Gartner as a Leader in both Oracle and SAP Application Management Services, and believe it reflects our enterprise-wide management consulting expertise and the strategic insights of our industry-specific leaders," said Krishnan Ramanujam, Global Head of Enterprise Solutions, Tata Consultancy Services. "As an Oracle Diamond Partner and SAP Global Partner, our teams are equipped with real time access to new product information and are often engaged in groundbreaking solution development with partners to solve client needs and advise on the most effective ways to manage their worldwide applications."

TCS maintains long standing, highly valued partnerships with both SAP and Oracle, demonstrating its commitment to offering superior service and training highly skilled implementation specialists who are well versed in different product and specialty areas. Offering a whole suite of Enterprise Resource Planning, as well as specific expertise in each horizontal (e.g., procurement, customer experience management, supply chain management, business intelligence, and performance system management), TCS' Enterprise Solutions team is focused specifically on operating a "Design + Build + Run" model. In this model, TCS' specialists not only design the right solutions, but also activate and then train the customers to run programs seamlessly and efficiently.
