TCS Recognized as a Leader in Application Testing Services for Second Consecutive Year by Gartner

Key Strengths Include Global Delivery, Tools and Automation Capabilities, and Quality of Consultants

NEW YORK | MUMBAI, December 22, 2015: Tata Consultancy Services (TCS), (BSE: 532540, NSE: TCS), a leading global IT services, consulting and business solutions organization, today announced that it has been recognized by Gartner, Inc. as a 'Leader' in its 'Magic Quadrant for Application Testing Services, Worldwide' report, by Susanne Matson and Patrick J. Sullivan, November 23, 2015.

We believe that TCS' position as a Leader is a result of a global client base, track record of complex global engagements that support business transformation; and well-balanced business, process, and industry consulting, implementation and service management capabilities, supported by rigorous tools and methodologies. TCS' key strengths highlighted in the report include, quality of our consultants, Global Network Delivery Model™, robust tools and automation solutions including TCS MasterCraft, TCS NETRA which facilitates continuous integration and continuous deployment , and TCS' artificial intelligence product ignio™.

Gartner evaluated 17 service providers, including TCS, on their ability to execute and completeness of vision. Gartner analysts note that providers designated as Leaders are performing well today, gaining traction and mind share in the market. They have a clear vision of the market's direction and are actively building competencies to sustain their leadership position in the market.

"We believe that recognition by Gartner analysts as a Leader in the Application Testing Services Magic Quadrant for the second consecutive year demonstrates the value TCS is providing customers to enable innovation and achieve success," said TCS' Siva Ganesan, Global Head of Assurance Services. "TCS' world class testing solutions and services exceed customer expectations through our global platform and innovative solutions that embrace the newest digital technologies."

Assurance Services at TCS address both business and quality challenges for its global clients. TCS offers assurance services across the entire testing value cycle, including test consulting and advisory, test services implementation, and managed services for test environment and test data management. In the age of Digital Reimagination™, we help clients unlock value from their testing services. We leverage our domain expertise to continually redefine quality assurance and testing paradigms to help clients stay ahead of the curve. Our library of digital and domain-based reusable business assets and proven engagement model enable us to deliver certainty to our customers.

Gartner does not endorse any vendor, product or service depicted in its research publications, and does not advise technology users to select only those vendors with the highest ratings or other designation. Gartner research publications consist of the opinions of Gartner's research organization and should not be construed as statements of fact. Gartner disclaims all warranties, expressed or
